Millennium Eyewitness:

Millennium Eyewitness, 1997 Presents over 250 eyewitness accounts of historical events that have taken place over the course of the second millennium **Created Equal** Joshua Berman, 2011-08-12 In *Created Equal* Joshua Berman engages the text of the Hebrew Bible from a novel perspective considering it as a document of social and political thought. He proposes that the Pentateuch can be read as the earliest prescription on record for the establishment of an egalitarian polity. What emerges is the blueprint for a society that would stand in stark contrast to the surrounding cultures of the ancient Near East: Egypt, Mesopotamia, Ugarit, and the Hittite Empire, in which the hierarchical structure of the polity was centered on the figure of the king. Berman shows that an egalitarian ideal is articulated in comprehensive fashion in the Pentateuch and is expressed in its theology, politics, economics, use of technologies of communication, and in its narrative literature. Throughout, he invokes parallels from the modern period as heuristic devices to illuminate ancient developments. Thus, for example, the constitutional principles in the Book of Deuteronomy are examined in the light of those espoused by Montesquieu, and the rise of the novel in 18th century England serves to illuminate the advent of new modes of storytelling in biblical narrative. **Journalism and Eyewitness Images** Mette Mortensen, 2014-12-17 Building on the vast research conducted on war and media since the 1970s, scholars are now studying the digital transformation of the production of news. Little scholarly attention has been paid, however, to non-professional eyewitness visuals, even though this genre holds a still greater bearing on the way conflicts are fought, communicated, and covered by the news media. This volume examines the power of new technologies for creating and disseminating images in relation to conflicts. Mortensen presents a theoretical framework and uses case studies to investigate the impact of non-professional images with regard to essential issues in today's media landscape, including new media technologies and democratic change, the political mobilization and censorship of images, the ethics of spectatorship, and the shifting role of the mainstream news media in the digital age. **The Psychology of Eyewitness Identification** James M. Lampinen, Jeffrey S. Neuschatz, Andrew D. Cling, 2012 This volume reviews and evaluates the scientific research on the accuracy and reliability of eyewitness identification. The implications of this research for psychological theory and for social and legal policy are explored. The book will appeal to Cognitive Psychologists and those in Legal Studies and Forensics. **The Mammoth Book of How it Happened in Britain** Jon E. Lewis, 2012-03-01 From Julius Caesar's arrival in 55bc to the dawn of the third millennium, here are 300 accounts of exciting and important moments from first-hand sources. Featuring snapshots of wartime, political, and social unrest, natural disasters, and great individual achievements, plus vignettes of social life from cockfighting in Tudor inns to a Victorian Sunday in the country. Includes the Battle of Hastings in 1066, the execution in 1649 of Charles I, an account of the Great Fire of London 1666, the death of Lord Nelson at Trafalgar 1805, Wellington's triumph at Waterloo 1815, the 1912 Antarctic Expedition, the last letters of Captain Scott, Frank Richards' 1914 account of Christmas in the trenches, the Battle of Britain in 1940, England winning the World

Cup 1966 and the death of the Princess of Wales in 1997 and much more The New Yorker Harold Wallace Ross, William Shawn, Tina Brown, Katharine Sergeant Angell White, David Remnick, Rea Irvin, Roger Angell, 1999 **Living Footnotes in the Gospel of Luke** Luuk van de Weghe, 2023-08-29 Did Luke interview eyewitnesses to write his Gospel Living Footnotes in the Gospel of Luke provides a careful thorough examination of Luke's claims Luke 1:1-4 demonstrating that he not only claims to use living sources but also did so It builds a corroborative evidence case towards this end not merely by accumulating unrelated strands of evidence but by showing the interconnectedness of independent lines of subtle clues in Luke's text These historically rich unintentional features weave together to generate a robust impression upon the reader Luke not only relied on living informants but in fact sifted his sources in preference of eyewitness testimony *Living On The Edge* Jonathan Burke, 2014-01-26 This book addresses common doubts and concerns Christians have concerning God and the Bible including claims from the New Atheism disputes over Bible archaeology questions about the historical accuracy of the Bible questions about the original texts of the Old and New Testament questions about what the Bible really teaches concerning topics such as baptism heaven and hell Satan and demons questions about the value and relevance of the Bible's moral and ethical teachings *The Publishers Weekly*, 1999 *The "We" Passages in the Acts of the Apostles* William S. Keener, 2019-08-27 Are the canonical Gospels historically reliable The four canonical Gospels are ancient biographies narratives of Jesus's life The authors of these Gospels were intentional in how they handled historical information and sources Building on recent work in the study of ancient biographies Craig Keener argues that the writers of the canonical Gospels followed the literary practices of other biographers in their day In *Christobiography* he explores the character of ancient biography and urges students and scholars to appreciate the Gospel writers' method and degree of accuracy in recounting the life and ministry of Jesus Keener's *Christobiography* has far-reaching implications for the study of the canonical Gospels and historical Jesus research He concludes that the four canonical Gospels are historically reliable ancient biographies *The Charter School Principal* Dana L. great interest to practitioners in the judicial system Ancient Israel: What Do We Know and How Do We Know It? Lester L. Grabbe, 2017-02-23 In *Ancient Israel* Lester L. Grabbe sets out to summarize what we know through a survey of sources and how we know it by a discussion of methodology and by evaluating the evidence. The most basic question about the history of ancient Israel: how do we know what we know? leads to the fundamental questions of Grabbe's work: what are the sources for the history of Israel and how do we evaluate them? How do we make them speak to us through the fog of centuries? Grabbe focuses on original sources including inscriptions, papyri and archaeology. He examines the problems involved in historical methodology and deals with the major issues surrounding the use of the biblical text when writing a history of this period. *Ancient Israel* provides an enlightening overview and critique of current scholarly debate. It can therefore serve as a handbook or reference point for those wanting a catalogue of original sources, scholarship and secondary studies. Grabbe's clarity of style makes this book eminently accessible not only to students of biblical studies and ancient history but also to the interested lay reader. For this new edition the entire text has been reworked to take account of new archaeological discoveries and theories. There is a major expansion to include a comprehensive coverage of David and Solomon and more detailed information on specific kings of Israel throughout. Grabbe has also added material on the historicity of the Exodus and provided a thorough update of the material on the later bronze age.

Historical Evidence and Argument David Henige, 2006-01-20 Historians know about the past because they examine the evidence. But what exactly is evidence? how do historians know what it means and how can we trust them to get it right? Historian David Henige tackles such questions of historical reliability head on in his skeptical, unsparing and acerbically witty *Historical Evidence and Argument*. Systematic doubt is his watchword and he practices what he preaches through a variety of insightful assessments of historical controversies for example over the dating of artifacts and the textual analysis of translated documents. Skepticism, Henige contends, forces us to recognize the limits of our knowledge but is also a positive force that stimulates new scholarship to counter it.
