Zuck, 2006-09-06 Vital pertaining to life essential of critical importance Prophetic relating the inspired declaration of God's will and purpose Issues a point or matter the decision of which is of special or public importance A dictionary can define the terms but rightly dividing the prophetic passages of

the Bible demands skillful study and balanced reflection upon the whole of Scripture

Vital Prophetic Issues Examining Promises and Problems in Eschatology draws upon the insights and study of numerous evangelical scholars and writers to address a variety of issues in the field of eschatology Some of the chapters included are Basic Considerations in Interpreting Prophecy by John F Walvoord The Premillennial Interpretation of History by Ramesh P Richard The Necessity of Dispensationalism by Charles C Ryrie A New Look at Dispensationalism by Roy L Aldrich Christian readers church leaders and pastors will appreciate the helpful scholarship of Vital Prophetic Issues

When Time Shall Be No More Paul Boyer,1994-01-01 As influential as prophecy is in the worldview of so many the belief in the phenomenon remains a popular mystery largely unstudied and little understood When Time Shall Be No More offers for the first time an in depth look at the subtle pervasive ways in which prophecy belief shapes contemporary American thought and culture

The Millennial Controversy in the Early Church Martin Erdmann,2005-11-08 The belief in a literal millennium was an important aspect in the Christian eschatology of the ante Nicene age Most of the Asiatic Church Fathers derived their chiliastic convictions not only from the millennial passage of Revelation but also from the Jewish concept of a Golden Age as described by the Hebrew Prophets and further developed by Jewish apocalyptic writers The chiliastic doctrine was challenged on exegetical and philosophical grounds by the Alexandrian school of theology in the third century The Church s elevation to imperial favor by Constantine was followed by a further shift in the understanding of the millennium The chiliastic hope of a future earthly reign of Christ was substituted with the view of a realized millennium constituting the secular dominion of the Roman Church The factor that most contributed to this change was Augustine s spiritualized interpretation of the first resurrection He understood it to mean a resurrection of those dead in sin raised to spiritual life In his book De civitate dei he advanced the opinion that the kingdom of God was already set up at Christ s first coming and nothing remained to be accomplished before the final judgment except the brief reign of the Antichrist Thus the teaching of a literal millennium became discredited because it was perverted by some of its friends and misrepresented by its opponents

Apocalypse and Millennium Kenneth G. C. Newport,2000-08-10 Apocalypse and Millennium argues that far from being a random sequence of bizarre statements millennial schemes including the setting of dates for the second coming of Christ are more often characterised by highly complex and internally consistent interpretations of scripture Such interpretations do not always result in positive outcomes As an example the work of David Koresh is examined at length Koresh styled by some the Wacko from Waco clearly had views which some would find odd However his interpretation of scripture did not lack system or context and to see him in that light is to begin to understand why his message had appeal particularly to those of the Seventh day Adventist tradition The final three chapters in this book outline Koresh s thinking on end time events and trace the line of his interpretative tradition from nineteenth century Millerism through Seventh day Adventism and Davidianism which began in 1929

Yi,1996 The series Religion and Society RS contributes to the exploration of religions as social systems both in Western and non Western societies in particular it examines religions in their differentiation from and intersection with other cultural systems such as art economy law and politics Due attention is given to paradigmatic case or comparative studies that exhibit a clear theoretical orientation with the empirical and historical data of religion and such aspects of religion as ritual the religious imagination constructions of tradition iconography or media In addition the formation of religious communities their construction of identity and their relation to society and the wider public are key issues of this series *The Restoration of the Jews: Early Modern Hermeneutics, Eschatology, and National Identity in the Works of Thomas Brightman* Andrew Crome,2014-05-07 This book offers the first detailed examination of the life and works of biblical commentator Thomas Brightman 1562 1607 analysing his influential eschatological commentaries and their impact on both conservative and radical writers in early modern England It examines in detail the hermeneutic strategies used by Brightman and argues that

his method centred on the dual axes of a Jewish restoration to Palestine and the construction of a strong English national identity This book suggests that Brightman s use of conservative modes of literal exegesis led him to new interpretations which had a major impact on early modern English eschatology A radically historicised mode of exegesis sought to provide interpretations of the Old Testament that would have made sense to their original readers leading Brightman and those who followed him to argue for the physical restoration of the Jews to the Holy Land In doing so the standard Reformed identification of Old Testament Israel with elect Christians was denied This book traces the evolution of the controversial idea that Israel and the church both had separate unfulfilled scriptural promises in early modern England and shows how early modern exegetes sought to re construct a distinctly English Christian identity through reading their nation into prophecy In examining Brightman s hermeneutic strategies and their influence this book argues for important links between a literal hermeneutic ideas of Jewish restoration and national identity construction in early modern England Its central arguments will be of interest to all those researching the history of biblical interpretation the role of religion in constructing national identity and the background to the later development of Christian Zionism This important study provides a new examination of Thomas Brightman s hermeneutical method particularly his ideas on the restoration of the Jews The author s thorough analysis of Brightman s approach also has more general and wider implications for understanding the development of English apocalyptic interpretation into the later seventeenth century Dr Warren Johnston Associate Professor of History Algoma University

Andrew Crome s ground breaking study of Thomas Brightman offers a new and sometimes surprising account of the development of millennial thinking in and beyond early modern England This masterly account demonstrates the extent to which an emerging Zionism supported an emerging English nationalism while outlining the historical roots of some of the most important of contemporary geopolitical themes Professor Crawford Gribben Professor of Early Modern British History Queen s University Belfast This important study provides a new examination of Thomas Brightman s hermeneutical method particularly his ideas on the restoration of the Jews The author s thorough analysis of Brightman s approach also has more general and wider implications for understanding the development of English apocalyptic interpretation into the later seventeenth century Dr Warren Johnston Associate Professor of History Algoma University
