Nudes And Portraits:

Nudes and portraits Gorden Thye, 2003 "Models Wanted--any Age, Any Size" Rankin, 2001 The Nude Photography of Rankin is a collection of portraits by the celebrated photographer Rankin The result of an anonymous ad in London's Time Out magazine for nude models all ages all sizes for photographic exhibition this book is a collaboration between Rankin and the women who agreed to stand naked in front of his camera The faces and figures collected in this book range from familiar film fashion and pop icons to highly individual ordinary women all of whose portraits reflect their feeling and fantasies with style and humor **Fine Art Nudes**, 2015-05-18 In this book veteran photographer Stan Trampe shows you how to produce outstanding black white nude portraits using basic equipment and a simple lighting approach both in the studio and on location You'll get great insight into what it takes to develop a trusting relationship with models that will facilitate an eagerness for them to embrace and even improve upon your creative concepts With more than 25 years experience photographing nudes Trampe has developed an eye for what makes a portrait resonate with viewers In the pages of this book you'll discover what makes his black white fine art nude images tick You'll get tips for choosing dramatic indoor and outdoor locations that will serve as the perfect backdrop and set the mood in the image You will also learn how to create or find great natural light that shows texture and contours the model's body for added appeal Posing subjects to coax curves and highlight the subject's physical aspects is of obvious import in this genre and Trampe teaches you to help conceptualize a strategy that not only makes the subject look good but in many cases even plays off of another shape in the overall image He also teaches you when and how adding fabric or props will further your image and when less is more Also included are pages on traditional compositional guidelines such as effective framing leading lines and the Rule of Thirds Finally Trampe ends with a look at basic retouching in postproduction to lighten or darken the image remove blemishes and creatively crop the image for added impact Whether you are new to photographing artful nudes or simply want to learn some new ideas to work into your repertoire this book will enhance every aspect of your photography **Portraits, Nudes, Clouds** Vittorio Santoro, Paul Bowles, 1993 *The Art of Portraits and the Nude* Time-Life Books, 1984 **Self-exposure** Reed Massengill, 2005 The nude self portrait is perhaps the most intimate form of photography It delves deep into taboo territory and strips away the traditional barriers between artist and viewer Witnessing such a private act we may feel the queasy embarrassment of a voyeur but we are always compelled to look further The images cut to the core of issues of identity sexuality and ego and as they reveal an essential truth about their creators they also tell us something about ourselves Self Exposure features more than 100 works from both established masters and up and coming photographers many never before published This groundbreaking collection traces the development of the male self portrait from its earliest beginnings with such greats as Hippolyte Bayard Herbert Tobias and Andr  Kert sz to the contemporary efforts of such artists as John Dugdale Anthony Goicolea and Yasumasa Morimura Each artist takes a uniquely individual approach ranging from the shockingly perverse and

aggressively erotic to the elusively self conscious and sublimely beautiful Complete with brief biographies of each artist Self Exposure is a powerful survey of this most seductive subject *The Nude*, 2017-05-22 Images of the nude human form are among the oldest art forms from simple drawings to grand statuary to classic painting and contemporary photography artists fascination with the human body has endured throughout time and across every form of creative expression Within the pages of this book accomplished fine art nude photographer Jennifer Emery begins by presenting the key elements of lighting and posing the human body to best flatter the subject and express the desired design With these fundamentals in place she expands and elevates the practice of photographing nudes to develop more conceptual fine art looks that go beyond merely representing the subject and strive to communicate more complex ideas and aesthetics As she demonstrates fine art nude photography can go far beyond a mere black backdrop and some interesting lighting Full of color motion and style Emery's images spark intrigue admiration passion and excitement **The Naked and the Lens, Second Edition** Louis

Rembrandt and the Female Nude Eric Jan Sluijter, Rembrandt Harmenszoon van Rijn, 2006 Rembrandt's extraordinary paintings of female nudes Andromeda Susanna Diana and her Nymphs Dana Bathsheba as well as his etchings of nude women have fascinated many generations of art lovers and art historians But they also elicited vehement criticism when first shown described as against the grain anticlassical even ugly and unpleasant However Rembrandt chose conventional subjects kept close to time honored pictorial schemes and was well aware of the high prestige accorded to the depiction of the naked female body Why then do these works deviate so radically from the depictions of nude women by other artists To answer this question Eric Jan Sluijter in *Rembrandt and the Female Nude* examines Rembrandt's paintings and etchings against the background of established pictorial traditions in the Netherlands and Italy Exploring Rembrandt's intense dialogue with the works of predecessors and peers Sluijter demonstrates that more than any other artist Rembrandt set out to incite the greatest possible empathy in the viewer an approach that had far reaching consequences for the moral and erotic implications of the subjects Rembrandt chose to depict In this richly illustrated study Sluijter presents an innovative approach to Rembrandt's views on the art of

painting his attitude towards antiquity and Italian art of the Renaissance his sustained rivalry with the works of other artists
his handling of the moral and erotic issues inherent in subjects with female nudes and the nature of his artistic choices
