America and Oceania Drawing on historical accounts of the earliest encounters with explorers missionaries and ethnologists this study addresses questions such as Do ideas about the afterlife commonly originate in NDEs What role does culture play in how people experience and interpret NDEs How can we account for cross cultural similarities and differences between afterlife beliefs Though NDEs are universal Shushan shows that how they are actually experienced and interpreted varies by region and culture In North America they were commonly valorized and attempts were made to replicate them through shamanic rituals In Africa however they were largely considered aberrational events with links to possession or sorcery In Oceania Micronesia corresponded more to the African model while Australia had a greater focus on afterlife journey shamanism and Polynesia and Melanesia showed an almost casual acceptance of the phenomenon as reflected in numerous myths legends and historical accounts This study examines the continuum of similarities and differences between NDEs shamanism and afterlife beliefs in dozens of cultures throughout these regions In the process it makes a valuable contribution to our knowledge about the origins of afterlife beliefs around the world and the significance of related experiences in human history
