International Relations in Latin America Andrea Oelsner,2013-10-11 This work studies the development of bilateral relations in two pairs of states dyads Argentina Brazil and Argentina Chile It takes on a moderate constructivist approach that incorporates into the analysis of international relations the role of identities ideas and perceptions as well as of material forces and understands that the former are affected and changed during interaction It also uses to securitization theory to explain how issues come or cease to be considered security matters through social constructions Social Inequality & The Politics of Representation Celine-Marie Pascale,2013 This anthology critically analyzes how cultures around the world make social categories of race class gender and sexuality meaningful in particular ways The collection uses a wide range of readings to examine how contemporary issues of race class gender and sexuality are constructed mobilized and transformed Unlike many books in this area the U S is not analytical center *The Politics of Truth and Reconciliation in South Africa* Richard Wilson,2001-05-02 The South African Truth and Reconciliation Commission TRC was set up to deal with the human rights violations of apartheid during the years 1960 1994 However as Wilson shows the TRC's restorative justice approach to healing the nation did not always serve the needs of communities at a local level Based on extended anthropological fieldwork this book illustrates the impact of the TRC in urban African communities in Johannesburg While a religious constituency largely embraced the commission's religious redemptive language of reconciliation Wilson argues that the TRC had little effect on popular ideas of justice as retribution This provocative study deepens our understanding of post apartheid South Africa and the use of human rights discourse It ends on a call for more cautious and realistic expectations about what human rights institutions can achieve in democratizing countries *The South America Handbook* Patrick Heenan,Monique Lamontagne,2014-01-27 First Published in 2002 The Regional Handbooks of Economic Development series provides

Negotiating Gendered Discourses

Jane L. Christie,2015-11-25 It has been argued that the first presidential campaign of Michelle Bachelet in Chile and Cristina Fernandez de Kirchner in Argentina used a rhetoric of newness Some political observers have said that as the first women to successfully run for the highest office in these countries they were presented as the new faces of democracy These observers argued that gender was not a determining factor in their electoral success but the focus on this first women frame did generate heavily gendered criticisms of these two candidates Negotiating Gendered Discourses addresses these views by asking how the gender factor is negotiated when women from the Southern Cone of Latin America run for high political office In particular Jane L Christie examines how Bachelet and Fernandez positioned themselves in relation to the numerous women led social movements and in doing so reveals points of intersection between these contemporary political discourses and existing sources of female authority when negotiating complicated ideological debates about human rights the economy and women s rights

National Identities and Socio-Political Changes in Latin America

Antonio Gomez-Moriana,Mercedes Duran-Cogan,2013-10-31 This study frames the social dynamics of Latin American in terms of two types of cultural momentum foundational momentum and the momentum of global order in contemporary Latin America

The Spectre of Race Michael G. Hanchard,2020-03-03 How racism and discrimination have been central to democracies from the classical period to today As right wing nationalism and authoritarian populism gain momentum across the world liberals and even some conservatives worry that democratic principles are under threat In *The Spectre of Race* Michael Hanchard argues that the current rise in xenophobia and racist rhetoric is nothing new and that exclusionary policies have always been central to democratic practices since their beginnings in classical times Contending that democracy has never been for all people Hanchard discusses how marginalization is reinforced in modern politics and why these contradictions need to be fully examined if the dynamics of democracy are to be truly understood Hanchard identifies continuities of

discriminatory citizenship from classical Athens to the present and looks at how democratic institutions have promoted undemocratic ideas and practices The longest standing modern democracies France Britain and the United States profited from slave labor empire and colonialism much like their Athenian predecessor Hanchard follows these patterns through the Enlightenment and to the states and political thinkers of the late nineteenth and early twentieth centuries and he examines how early political scientists including Woodrow Wilson and his contemporaries devised what Hanchard has characterized as racial regimes to maintain the political and economic privileges of dominant groups at the expense of subordinated ones Exploring how democracies reconcile political inequality and equality Hanchard debates the thorny question of the conditions under which democracies have created and maintained barriers to political membership Showing the ways that race gender nationality and other criteria have determined a person's status in political life *The Spectre of Race* offers important historical context for how democracy generates political difference and inequality

Responding to Human Rights Violations, 1946-1999 Katarina Tomaševski, 2021-10-05 This volume maps out the response of states to human rights violations It covers the period 1946-1999 and offers a complete and unmatched record for this period Its starting point is that such responses are not established and accepted state practice Traditional if unwritten norms of states behaviour developed through centuries of silence and inaction the prevalent reaction to human rights violations by another state remains the absence of any response Furthermore this book probes into evidence of active and passive complicity by reviewing aid to countries in which violations have been taking place and diplomatic initiatives undertaken to shield violators from public opprobrium Since international law is generated through state practice the book highlights the ongoing tussle between the pre-1946 heritage of silence and inaction and the 1946-1999 haphazard pattern of responses to violations *The Palgrave Encyclopedia of Peace and Conflict Studies* Oliver P. Richmond, Gëzim Visoka, 2022-06-21 This encyclopaedia provides a comprehensive overview of major theories and approaches to the study of peace and conflict across different humanities and social sciences disciplines Peace and conflict studies PCS is one of the major sub disciplines of international studies including political science and international relations and has emerged from a need to understand war related systems and concepts and how to respond to it afterward As a living reference work easily discoverable and searchable the Palgrave Encyclopedia of Peace and Conflict Studies offers solid material for understanding the foundational historical and contemporary themes concepts theories events organisations and frameworks concerning peace conflict security rights institutions and development The Palgrave Encyclopaedia of Peace and Conflict Studies brings together leading and emerging scholars from different disciplines to provide the most comprehensive and up to date resource on peace and conflict studies ever produced

Behind the Disappearances Iain Guest, 1990-10-2 **The War Begins** **The People's Hotel** Katherine Sobering, 2022-08-08 In 2001 Argentina experienced a massive economic crisis businesses went bankrupt unemployment spiked and nearly half the population fell below the poverty line In the midst of the crisis Buenos Aires's iconic twenty story

Hotel Bauen quietly closed its doors forcing longtime hospitality workers out of their jobs Rather than leaving the luxury hotel vacant a group of former employees occupied the property and kept it open In *The People's Hotel* Katherine Sobering recounts the history of the Hotel Bauen detailing its transformation from a privately owned business into a worker cooperative one where decisions were made democratically jobs were rotated and all members were paid equally Combining ethnographic and archival research with her own experiences as a volunteer worker at the hotel Sobering examines how the Bauen Cooperative grew and against all odds successfully kept the hotel open for nearly two decades Highlighting successes and innovations alongside the many challenges that these workers faced Sobering presents a vivid portrait of efforts to address inequality and reorganize work in a capitalist economy [An Introduction to Transitional Justice](#) Olivera Simić, 2020-07-30 The Second Edition of *An Introduction to Transitional Justice* provides a comprehensive overview of transitional justice judicial and non judicial measures implemented by societies to redress legacies of massive human rights abuse Written by some of the leading experts in the field it takes a broad interdisciplinary approach to the subject addressing the dominant transitional justice mechanisms as well as key themes and challenges faced by scholars and practitioners Using a wide historic and geographic range of case studies to illustrate key concepts and debates and featuring discussion questions and suggestions for further reading this is an essential introduction to the subject for students **The Global Experience** Stuart B. Schwartz, 1997 *The Global Experience* provides students with up to date global and high interest readings with a social history focus Offering a global perspective of world history this collection provides a concise easy to read selection of documents and secondary readings *Argentina Betrayed* Antonius C. G. M. Robben, 2018-03-19 The ruthless military dictatorship that ruled Argentina between 1976 and 1983 betrayed the country's people presiding over massive disappearances of its citizenry and in the process destroying the state's trustworthiness as the guardian of safety and well being Desperate relatives risked their lives to find the disappeared and one group of mothers defied the repressive regime with weekly protests at the Plaza de Mayo in Buenos Aires How do societies cope with human losses and sociocultural traumas in the aftermath of such instances of political violence and state terror In *Argentina Betrayed* Antonius C G M Robben demonstrates that the dynamics of trust and betrayal that convulsed Argentina during the dictatorship did not end when democracy returned but rather persisted in confrontations over issues such as the truth about the disappearances the commemoration of the past and the guilt and accountability of perpetrators Successive governments failed to resolve these debates because of erratic policies made under pressure from both military and human rights groups Mutual mistrust between the state retired officers former insurgents and bereaved relatives has been fueled by recurrent revelations and controversies that prevent Argentine society from conclusively coming to terms with its traumatic past With thirty years of scholarly engagement with Argentina and drawing on his extensive fair minded interviews with principals at all points along the political spectrum Robben explores how these ongoing dynamics have influenced the complicated mourning over violent

deaths and disappearances His analysis deploys key concepts from the contemporary literature of human rights transitional justice peace and reconciliation and memory studies including notions of trauma denial accountability and mourning The resulting volume is an indispensable contribution to a better understanding of the terrible crimes committed by the Argentine dictatorship in the 1970s and their aftermath
