Handbook of Latin American Environmental Aesthetics

Jens Andermann, Gabriel Giorgi, Victoria Saramago, 2023-09-05 The Handbook of Latin American Environmental Aesthetics offers a comprehensive overview of Latin American aesthetic and conceptual production addressing the more than human environment at the intersection between art activism and critique. Fields include literature, performance, film, and other audiovisual media as well as their interactions with community activism. Scholars who have helped establish environmental approaches in the field as well as emergent critical voices revisit key concepts such as ecocriticism, post-extractivism, and multinaturalism while opening new avenues of dialogue with areas including critical race theory and ethnicity, energy, humanities, queer/trans studies, and infrastructure studies among others. This volume both traces these genealogies and maps out key positions in this increasingly central field of Latin Americanism at the same time as they relate it to the environmental humanities at large. By showing how artistic and literary productions illuminate critical zones of environmental thought, articulating urgent social and material issues with cultural archives, historical approaches, and conceptual interventions, this volume offers cutting-edge critical tools for approaching literature and the arts from new angles that call into question the nature/culture boundary.

The Fascism of Ambiguity Marcia Cavalcante Schuback, 2022-08-25 This book contributes to the work of elucidating the new forms of fascism and authoritarianism that arise today in intimate relation with new mediatic and information technologies. It presents elements of the connection between capitalism and fascism and makes clear how fascism today uses the ambiguity of senses and meanings as its most efficient way of infiltrating our reality and thereby becoming unequivocal. The fascism of ambiguity is a fascism that grows the more the ambiguities and paradoxical dimensions of the contemporary situation become explicit. It departs from some lessons of history regarding both historical fascism and some of the main critical lines and thoughts produced in the beginning of the 20th Century. It shows what is new in today's form of fascism, discussing its connection to techno-mediatic capitalism, to the dynamics of emptying meanings and senses through a technique of rendering them ambiguous and exacerbated. It outlines some guiding thoughts regarding the question of ambiguity and metapolitics today and concludes by proposing two exercises of precision through the lenses of poetry and music as a way to resist and counteract the fascist metapolitics of the ambiguity of meanings and senses.

Crisis and Communitas Dorota Sajewska, Małgorzata Sugiera, 2023-05-29 This book is a critical transdisciplinary examination of a broad range of philosophical ideas, theoretical concepts, and artistic projects of community in the 20th and 21st century in the context of global, local, social, and political changes. This volume opens new vistas by focusing on carefully selected instances of multipronged crises in which existing concepts of commonality are questioned, reformulated, or even speculatively designed with a better future in view. As many authors of this volume argue, in the face of today's unprecedented global ecological and economic challenges, speculative design is of utmost importance as it can foster alternative, unthought-of forms of connectivity that go far beyond progressivist narratives of nation, corporation, and nuclear

family Focusing on the situations of upheaval both historical and fabulated the collection not only examines how multipronged crises trigger antagonisms between egalitarian forms of *communitas* and the normative concept of the nation and other normative forms of communities as a community that separates and excludes It also looks closely at philosophical and artistic projects that strive to go beyond the dichotomies and typically extrapolated utopias envisaging new political economies ways of living and alternative relational structures It will be of great interest to students and scholars in performance studies cultural studies political studies media studies postcolonial and decolonial studies critical anthropology
