*Reckoning at Nuremberg* Larry Barthurst, 2020-10-27 The trial of the Nazi war criminals which took place in Nuremberg Germany from November 1945 through October 1946 is perhaps the quintessential story of good versus evil These twenty two men authored some of the most shameful depraved acts in the annals of human history but now shorn of their brief authority they would be given something that they never afforded millions of their victims a fair trial **The New Histories of International Criminal Law** Immi Tallgren, Thomas Skouteris, 2019-03-21 The language of international criminal law has considerable traction in global politics and much of its legitimacy is embedded in apparently axiomatic historical truths This innovative edited collection brings together some of the world's leading international lawyers with a very clear mandate in mind to re evaluate retry the dominant historiographical tradition in the field of international criminal law Carefully curated and with contributions by leading scholars *The New Histories of International Criminal Law* pursues three research objectives to bring to the fore the structure and function of contemporary histories of international criminal law to take issue with the consequences of these histories and to call for their demystification The essays discern several registers on which the received historiographical tradition must be retried tropology inclusions exclusions gender race representations of the victim and the perpetrator history and memory ideology and master narratives international criminal law and hegemonic theories and more This book intervenes critically in the fields of international criminal law and international legal history by bringing in new voices and fresh approaches Taken as a whole it provides a rich account of the dilemmas conundrums and possibilities entailed in writing histories of international criminal law beyond against or in the shadow of the master narrative

Zompetti, Suzette Zompetti, 2004 Annotation The Nuremberg Trials at the end of World War II established the principle that individual leaders could be held responsible for crimes against humanity Although various ad hoc tribunals were held in the last half of the 20th century it was not until 2002 that a permanent international court was established under the auspices of the United Nations The international Criminal Court has been controversial with many key nations most notably the United States refusing to ratify the treaty establishing the court Some critics object to the adoption of a judicial system that seems to supersede national judicial systems others fear that the court will be used to pursue narrow political ends This book will comprise three sections the first will examine the history of the creation of the court the second will contain articles that outline objections to the court the third will contain articles defending and promoting the court The authors include primary sources on both sides of the controversy with special attention to America s involvement A glossary of key terms and the text of the Rome Statute establishing the court will also be included     **Trade Unionism in Germany from Bismarck to Hitler, 1869-1933: 1919-1933** John Anthony Moses, 1982     *Numismatic Chronicle, and Journal of the Royal Numismatic Society*, 1923 Vols for 1842 include the proceedings of the Society     *The Periodical*, 1916     *The World's Cyclopedia of History ...*, 1883     *Contributions to Education*, 1906
