## **Nurse Entrepreneur:**

Entrepreneurship Gerry Vogel, Nancy Doleys, 1994 You have a great idea for a new business but you're unsure about how to begin. You dream of the independence of being your own boss. In today's tough job market, starting your own business can be the best way to get the autonomy, security, and recognition you deserve. This all-new second edition contains the most up-to-date practical information available on issues in health care, nursing, technology, business, politics, and finance. Successful health care entrepreneurs discuss their challenges and accomplishments and offer step-by-step methods for ventures in clinical practices, consulting, home care, product support, and much more.

My Comeback as a Nurse Entrepreneur Parise Morgan, 2019-03-15 Working as a registered nurse in California, I have come to realize that life is more than just being a working nurse. I remember when I was just thirty-three years old, I already knew I would be a great nurse in the future and that I had great talent. I remember the day I passed the NCLEX and received my license in the mail. I started working and started to feel there had to be something else I could do in my career to become a better nurse. I felt the routine of working as a nurse was not fulfilling my appetite to be greater.

How I Became a Nurse Entrepreneur, 1998 In this 350-page book published by the National Nurses in Business Association (NNBA), 1,800,331,653 nurses from across the country join them as they share stories packed with practical how-to tips and personal insights. These nurse entrepreneurs are brutally honest with you as they unfold true tales of hope, dreams, moments of despair, and times of triumph.

*A Guide for the Nurse Entrepreneur* Eva M. Francis, RN, MSN, CCRN, 2015-05-21 The purpose of this book is to share with healthcare professionals the alternatives that are available to them so they can elevate their lives, elevate their impact, and their influence as they grow in their nursing or healthcare career. I want to give healthcare professionals, particularly nurses, a glimpse of other areas they can embrace to touch the lives of those they are assigned to or rather those that they are called to serve. I want to empower you to be all you can be. So many of us put limits on what we can achieve when in reality we were all born to be great and to do great things. We are as ordinary as we think we are. We will only achieve what we can conceive in our minds. I am a strong believer that we should always be progressing upwards in life consistently and purposefully. In other words, the sky is NOT the limit.
