Nurses Diary:

A Pandemic Nurse's Diary (hardcover) Nurse T, 2020-10-15 In strong unadorned prose Nurse T chronicles her experience from January 2020 when the first reports of a novel virus in China cause her concern to the first cases trickling in to her hospital to the avalanche of patients that soon overwhelm them Her account of frantic efforts to save the patients is sometimes grim always touching This veteran ICU nurse's diary is also the story of a large New York City hospital that serves a poor population mainly immigrants and people of color The aging infrastructure inadequate supplies and lack of bold effective response to the pandemic all come to light in her diary But the stories are not all tragic There are moments of triumph and precious expressions of humor And through it we see the solidarity and courage of the hospital workers who ventured back day after day night after night to fight a losing battle Nurses' Journal of the Pacific Coast ,1904

The Great War and Scottish Nurses' Diaries Costel Coroban, 2019-03-21 This book analyses the representations of the different instances of war in the letters and diaries of the nurses and doctors of the Scottish Women's Hospitals who worked in Romania during the Great War These nurses detailed their experiences into journals through literary diegesis that

included minute observations on their work surroundings and different developments of the front as well as their own interpretations of and impressions on their work and the war's destructive character. Generally, the approaches to the Great War by women who witnessed and lived it have either been gender oriented or simply seen as *petit histoires*. This research represents a complementary addition to the existing literature through its focus on the experience of the women on the fighting front, looking at it from the double perspective of autobiographical writing and war testimony.

Nurse Writers of the Great War Christine Hallett, 2016-02-15. This electronic version has been made available under a Creative Commons BY-NC-ND open access license. The First World War was the first total war. Its industrial weaponry damaged millions of men and drove whole armies underground into dangerously unhealthy trenches. Many were killed. Many more suffered terrible life-threatening injuries, wound infections such as gas gangrene and tetanus, exposure to extremes of temperature, emotional trauma and systemic disease. In an effort to alleviate this suffering, tens of thousands of women volunteered to serve as nurses. Of these, some were experienced professionals while others had undergone only minimal training. But regardless of their preparation, they would all gain a unique understanding of the conditions of industrial warfare. Until recently, their contributions both to the saving of lives and to our understanding of warfare have remained largely hidden from view. By combining biographical research with textual analysis, *Nurse Writers of the Great War* opens a window onto their insights into the nature of nursing and the impact of warfare.

Nurses of Passchendaele Christine E. Hallett, 2017-11-30. The Ypres Salient saw some of the bitterest fighting of the First World War. The once fertile fields of Flanders were turned into a quagmire through which men fought for four years. In casualty clearing stations, on ambulance trains and barges, and at base hospitals near the French and Belgian coasts, nurses of many nations cared for these traumatized and damaged men. Drawing on letters, diaries, and personal accounts from archives all over the world, *The Nurses of Passchendaele* tells their stories faithfully, recounting their experiences behind the Ypres Salient in one of the most intense and prolonged casualty evacuation processes in the history of modern warfare. Nurses themselves came under shellfire and were vulnerable to aerial bombardment, and some were killed or injured while on active service. Alongside an analysis of the intricacies of their practice, the book traces the personal stories of some of these extraordinary women, revealing the courage, resilience, and compassion with which they did their work.

International Perspectives in Critical Care Nursing, An Issue of Critical Care Nursing Clinics of North America Christi Delemos, 2021-02-01. In consultation with Consulting Editor Dr Cynthia Bautista, Guest Editor Christi Delemos has created an issue of *Critical Care Nursing Clinics* that gives the readers an opportunity to discover critical care nursing practices from critical care nurses around the world. Authors will have the opportunity to share the contributions of critical care nurses to health care globally. Current challenges in managing critical care patients anywhere in the world are discussed; articles are specifically devoted to ICU Nursing Priorities in the United States, Caring for Traumatic Brain Injury Patients, Australian Nursing Perspectives, Use of Diaries in

Nursing, Physician Control, and the Medical Monopoly Thetis M. Group, Joan I. Roberts, 2001-10-03 Nursing
 Physician Control and the Medical Monopoly Historical Perspectives on Gendered Inequality in Roles Rights and Range of
 Practice Thetis M Group and Joan I Roberts A history of physicians efforts to dominate the healthcare system Nursing
 Physician Control and the Medical Monopoly traces the efforts by physicians over time to achieve a monopoly in healthcare
 often by subordinating nurses their only genuine competitors Attempts by nurses to reform many aspects of healthcare have
 been repeatedly opposed by physicians whose primary interest has been to achieve total control of the healthcare system
 often to the detriment of patients health and safety Thetis M Group and Joan I Roberts first review the activities of early
 women healers and nurses and examine nurse physician relations from the early 1900s on The sexist domination of nursing
 by medicine was neither haphazard nor accidental but a structured and institutionalized phenomenon Efforts by nurses to
 achieve greater autonomy were often blocked by hospital administrators and organized medicine The consolidation of the
 medical monopoly during the 1920s and 1930s along with the waning of feminism led to the concretization of stereotyped
 gender roles in nursing and medicine The growing unease in nurse physician relations escalated from the 1940s to the 1960s
 the growth and complexity of the healthcare industry expanding scientific knowledge and increasing specialization by
 physicians all created heavy demands on nurses Conflict between organized medicine and nursing entered a public open
 phase in the late 1960s and 1970s when medicine unilaterally created the physician s assistant countered by nursing s
 development of the advanced nurse practitioner But gender stereotypes remained central to nurse physician relations in the
 1980s and into the 1990s Finally Group and Roberts examine the results of the medical monopoly from the impact on patients
 health and safety to the development of HMOs and the current overpriced poorly coordinated and fragmented healthcare
 system Thetis M Group is Professor Emerita at Syracuse University where she was Dean of the College of Nursing for 10
 years and an adjunct faculty member at the University of Utah College of Nursing She is co author of *Feminism and Nursing*
