## **Nursing Ethics Therapeutic Caring Presence:**

*Nursing Ethics* Bishop, Anne H. Bishop, John R. Scudder, Anne H. Bishop, John R. Scudder, 1996 The author argues that because the profession of nursing consists of practical ways of fostering the well being of persons ethical considerations must arise out of the unique nature of this work This book focuses on the moral sense of nursing by developing nursing ethics as it is rooted in everyday practice rather than the application of philosophical ethics This implies a therapeutic ethic that is founded in caring two of the four primary themes of the book deal with the concept of caring In addition this book argues that such a nursing ethic has an evocative or inspirational side the decision to become a nurse implies a call to caring The interpretative nature of this brief text advances our understanding of both nursing and ethics Nursing Ethics Anne H.

Bishop, John R. Scudder, 2001 *Nursing Ethics Holistic Caring Practice* explores the moral practice of nursing asserting that there is an inherent moral sense in nursing practice itself This new edition of the book requires one to reconsider what it means to be a nurse Rather than someone who merely applies ethical thinking and ethical models of decision making in nursing practice the nurse is a moral being who is engaged in a moral practice **Essentials of Teaching and Learning**
