The Developmental Psychopathology of Eating Disorders Linda Smolak,Ruth H. Striegel-Moore,Michael P. Levine,2013-01-11 Although eating problems ranging from body dissatisfaction and dieting to anorexia nervosa or bulimia nervosa can begin and typically have their roots in childhood theory and research in developmental psychopathology and developmental psychology have not received substantial attention in eating disorders research This book provides crucial background material from both fields and then makes direct applications to numerous aspects of the field of eating disorders including theory research treatment and primary prevention This book was born out of

a transaction between frustration and optimism The frustrations reflected the limitations of current knowledge about eating problems and disorders Etiological causes which are sensitive and specific to eating disorders have been elusive Although there is some understanding of risk factors little is known about protective factors This has made prevention among other things difficult Furthermore the mechanisms underlying the association between risk factors and disordered eating are poorly understood For example it is known that women are at greater risk than men are but clinicians are hard pressed to get beyond gender based speculations and demonstrate why this is true The optimism grows from familiarity with the field of developmental psychopathology It seems evident that this approach has much to offer the field of eating disorders This book is an early step in the integration of developmental psychopathology into theorizing research treatment and prevention of eating disorders It addresses four specific goals to introduce the principles and methodologies of developmental psychopathology to review the work of developmental psychologists in several major areas of behavior relevant to understanding the causes treatment and prevention of eating disorders to apply developmental psychopathology principles to the area of eating disorders both in the form of theoretical models and in specific areas issues raised by developmental psychopathology and to discuss the implications of developmental approaches for prevention programs and treatments

Changing the Stigma of Mental Health Among African Americans: Moving From Denial to Acceptance Hendricks, LaVelle, Smith, Dimitra, 2023-09-18 Mental health among African Americans historically has been kept secret and often has been subject to intense denial from both the individuals with mental health concerns and their communities Thus African Americans have remained shielded from treatments that are currently available which may allow them to become mentally healthier and find a sense of psychological homeostasis Recognizing mental illness treatment as a strength and not a weakness is key to mitigating existing issues of mental health in the African American community today Changing the Stigma of Mental Health Among African Americans Moving From Denial to Acceptance provides the history of mental health in the African American community and how denial has hindered and hampered treatment within this community Covering topics such as bipolar disorder dementia and disruptive behavior this book is ideal for educators researchers practitioners the African American spiritual community and all individuals concerned about psychological care for African Americans

Eating Disorders Pamela K. Keel, 2017 Eating Disorders presents a comprehensive and accessible investigation of eating disorders spanning topics such as historical and cross cultural trends in prevalence of eating pathology biological bases of eating disorders and treatment and prevention It provides an examination of the intersections of culture mind and body and includes case studies throughout helping bring eating disorders to life This second edition is fully revised and updated to reflect changes in the DSM 5 as well as research

and practice advances that have occurred over the past decade. Specifically, the second edition provides coverage of newly named syndromes, a new chapter on feeding disorders and obesity, an expanded discussion of RDOC initiative, expanded coverage of eating disorders in men, a section on mediators and moderators of treatment response, a section of suggested additional sources that includes articles, books, movies, and on-line sources for reliable and accurate information, a new description of cognitive behavior therapy that outlines what CBT for bulimia nervosa looks like as experienced from the patient's perspective, and a new discussion of prevalence and risk of dietary supplements. The book will be useful in abnormal psychology, clinical psychology, gender and psychopathology, and eating disorders courses, and as a supplemental text in courses within nursing, nutrition, and sports medicine.
