Emilio C. Viano

Organized Crime In America Concepts And Controversies:

Organized Crime Klaus von Lampe, 2015-07-16 2016 Outstanding Publication Award The International Association for the Study of Organized Crime Organized Crime Analyzing Illegal Activities Criminal Structures and Extra legal Governance provides a systematic overview of the processes and structures commonly labeled organized crime drawing on the pertinent empirical and theoretical literature primarily from North America Europe and Australia The main emphasis is placed on a comprehensive classificatory scheme that highlights underlying patterns and dynamics rather than particular historical manifestations of organized crime Esteemed author Klaus von Lampe strategically breaks the book down into three key dimensions 1 illegal activities 2 patterns of interpersonal relations that are directly or indirectly supporting these illegal activities and 3 overarching illegal power structures that regulate and control these illegal activities and also extend their influence into the legal spheres of society Within this framework numerous case studies and topical issues from a variety of countries illustrate meaningful application of the conceptual and theoretical discussion **The Organized Crime**

Community Frank Bovenkerk, Michael Levi, 2007-11-15 In his social investigative writings on the serious crime community which describes the loose merger of corporate interests organized crime and political crime professor Alan A Block of Penn State University has proven to be one of the most inspiring criminologists in the field An international group of pupils and friends dedicate this book to him which contains original contributions on the troubled concept of organized crime the social history of crime groups in the United States corruption in the United Nations Oil for Food Program in Iraq the struggle against identity fraud the world of drugs and the adverse consequences of criminalization the money laundering control movement International Tribunals against war crimes and a Jewish studies chapter on the role of bystanders during the Holocaust The book opens with Alan Block's now classic study on the origins of the Iran Contra scandal Alan A Block has served for 17 years as the editor in chief of Crime Law and Social Change one of Springer's major criminology journals

Reporting on Organised Crime Tom Vander Beken, B. Frans, 2001 This book is the outcome of a six month research contract undertaken by Ghent University's Research Group Drug Policy Criminal Policy and International Crime for the Belgian Minister of Justice Since 1996 the Belgian Government has produced Annual Reports on Organised Crime and while currently this takes the form of a typically descriptive situation report there has always been the intention to further develop the methodology underwriting the report It has been envisaged that such methodological development will rely upon the use of supplementary non police data both qualitative and quantitative supporting the utilisation of more sophisticated analytical tools Proceeding from earlier work undertaken by this research group for the Belgian Federal Police's Organised Crime Unit this book is an elaboration of the ideas found in *Measuring Organised Crime in Belgium A Risk Based Methodology* in which a method for determining the impact of organised crime in Belgium is proposed for application in the context of the Annual Reports Thus the substance of this book is a discursive analysis of the issues surrounding a risk based Annual Report on

Organised Crime As the result of applied research Reporting on Organised Crime offers concrete recommendations and solutions for the analysis of organised crime and its reporting at the strategic level

Criminology: Theory, Research, and Policy Gennaro Vito, Jeffrey Maahs, 2011-09-29 Criminology Theory Research and Policy Third Edition uses an interdisciplinary approach to examine and explain how and why crime occurs Comprehensive coverage of a variety of crimes and leading criminological theories is provided and supported by new relevant case studies By making the connection between theory research and policy this revised and updated Third Edition demonstrates the relevancy of criminological theory in the public attempt to control crime while providing justice The emphasis on these three elements with pertinent discussions and examples is what sets this text apart from other criminology titles New Material added the revised and updated Third Edition New Cybercrime chapter provides cutting edge information on the illegal use of computers and the internet New Chapter dedicated to Terrorism Includes discussion of elder abuse crimes and human trafficking Provides new information on White collar crime Updated case studies to reflect relevant crime typologies Additional Features Theory in Action boxes throughout the text provide notes that relate theoretical premises to real world cases and events Each chapter contains objectives key terms and a detailed summary of important points Instructor Resources PowerPoint slides Test Bank Instructor Manual with learning objectives

Deconstructing Organized Crime Joseph L. Albini, Jeffrey Scott McIlwain, 2012-09-26 What is organized crime There have been many answers over the decades from scholars governments the media pop culture and criminals themselves These answers cumulatively created a Mafia Mystique that dominated discourse until after the Cold War when transnational organized crime emerged as a pronounced if nebulous threat to global security and stability The authors focus both on the American experience that dominated organized crime scholarship in the second half of the 20th century and on the more recent global scene Case studies show that organized crime is best understood not as a series of famous gangsters and events but as a structure of everyday life formed by numerous political social economic and anthropological variables Instructors considering this book for use in a course may request an examination copy here

Beyond the Mafia Sue Mahan, Katherine O'Neil, 1998-06-10 Moving past the scope of Mafia crime families in New York and Chicago Beyond the Mafia offers for the first time a comparative perspective on non traditional organized crime in the Americas Providing in depth coverage of 10 criminal groups the focus of organized crime expands to Canada and Latin America offering an extensive American view of organized crime from outside the traditional Mafia Although the groups covered have contemporary significance chapters include a historical overview as well as future considerations Editor Sue Mahan has coordinated a coherent paradigm for the comparative study of organized crime Part I introduces organized crime as an enterprise and explores patterns found in legitimate business along with those in criminal organizations Part II discusses the role of violence in organized crime Part III covers the concept of ethnicity and the relevance of culture to organized criminal groups Part IV addresses the issue of opportunity and the ways in which

opportunities for success are structured within organized crime Finally a concluding section explains the relationships between criminal justice policy and organized crime This book is a valuable text of considerable interest for university and community college students in courses on organized crime criminology and crime in the Americas scholars and researchers and professionals in the criminal justice system who are developing policies in response to organized crime *The Oxford Handbook of Organized Crime* Letizia Paoli, 2014 This handbook explores organized crime which it divides into two main concepts and types the first is a set of stable organizations illegal per se or whose members systematically engage in crime and the second is a set of serious criminal activities that are typically carried out for monetary gain Global Organized Crime and International Security Emilio C. Viano, 2018-12-21 Published in 1999 this book focuses on organized crime as a worldwide phenomenon that has taken great advantage of enabling technology in banking communications and transportation to build what is probably the first true virtual corporation in the world It looks at organized crime as a threat to national and international security ironically stemming in part from the collapse of the Soviet empire that provided an already thriving ruthless and well organized system of graft corruption and crime with a new lease of life and also unleashed it on to the world scene Organized crime is also seen as a system of transnational alliances with the potential to destabilize democratic values and institutions distort regional if not worldwide economies and subvert the international order by allying itself with terrorist organizations rogue states and developing countries in search of rapid industrialization and market dominance *Organized Crime in America* Timothy S. Bynum, 1987 **Green Criminology** Nigel South, 2017-07-05 In little more than a decade Green Criminology has become an established new perspective in the field It embraces an exciting and wide range of topics from controversies about genetic modification through corporate offending against the environment and human communities to animal abuse Green Criminology provides a focal point for longstanding and new areas of research as well as making important interdisciplinary connections
