Orions Legacy A Cultural History Of Man As Hunter:

Orion's Legacy Charles Bergman,1997 Shining heroic belted with bright stars Orion is the classic Western image of the hunter metaphor for how men understand and assert their identities Through mythology anthropology literature and art author Charles Bergman offers an original and compelling interpretation of Western masculinity *The Little Red Book of Hunter's Wisdom* Graham Moore,Peter J. Fiduccia,2017-06-20 The Little Red Book of Hunter s Wisdom is packed full of thoughtful and witty quotes on the essence of man and his relationship to the hunt with all its joys idiosyncrasies and challenges Being a true hunter is a way of life and this book is packed with memorable comments from men and women who live and breathe it Read musings on the hunt from such noteworthy folks as Ernest Hemingway Annie Oakley Rudyard Kipling David Mamet William Faulkner Marco Polo And hundreds of others The Little Red Book of Hunter s Wisdom has words to live by for any outdoors enthusiast who enjoys a weekend in the woods or a relaxing Sunday on the lake Whether you gobble it all up in one day or enjoy it over your lifetime the wisdom in this book will last forever [The First Fossil Hunters](#) Adrienne Mayor,2023-04-11 Griffins Cyclopes Monsters and Giants these fabulous creatures of classical mythology continue to live in the modern imagination through the vivid accounts of the ancient Greeks and Romans But what if these beings were more than fictions This is the arresting and original idea that Adrienne Mayor explores in *The First Fossil Hunters* Through careful research and documentation she shows that many of the giants and monsters of myth did have a basis in fact in ancient people s discoveries of the enormous bones of long extinct dinosaurs mastodons and other animals that were once abundant in the lands of the Greeks and Romans *Manliness and Militarism* Mark Moss,2001-12-15 Euphoria swept Canada and especially Ontario with the outbreak of World War I Young men rushed to volunteer for the Canadian Expeditionary Force and close to 50 per cent of the half million Canadian volunteers came from the province of Ontario Why were people excited by the prospect of war What popular attitudes about war had become ingrained in the society And how had such values become so deeply rooted in a generation of young men that they would be eager to join this great adventure Historian Mark Moss seeks to answer these questions in *Manliness and Militarism* Educating Young Boys in Ontario for War By examining the cult of manliness as it developed in Victorian and Edwardian Ontario Moss reveals a number of factors that made young men eager to prove their mettle on the battlefields of Europe Popular juvenile literature the books of Henty Haggard and Kipling for example and numerous magazines for boys such as the Boy s Own Paper and Chums glorified the military conquests of the British Empire the bravery of military men especially Englishmen and the values of courage and unquestioning patriotism Those same values were taught in the schools on the playing fields in cadet military drill in the wilderness and Boy Scout movements and even through the toys and games of young children The lessons were taught and learned well As Moss concludes Even after the horrors became known the conflict ended and the survivors came home manliness and militarism remained central elements of English speaking Ontario s culture For those too young to

have served the idea of the Great War became steeped in adventure and many dreamed of another chance to serve For some the dream would become a reality

Hunting Troubles Laura Beck,Maurice Saß,2025-02-28 This volume examines the cultural history of European and North American hunting from the Middle Ages to the present day from the perspective of gender as well as animal studies It demonstrates that the hunting and killing of animals was and still is a highly codified activity that creates reinforces and sometimes undermines a variety of differences This construction and deconstruction of difference applies not only to the relationship between humanity and animality but also to the relationships between human agents with respect to their gender By applying a comprehensive and interdisciplinary approach this collection dissects the many ways in which hunting often classified as a typically male activity participates on the one hand in the naturalization of gender differences and related binary asymmetries but on the other can sometimes open up a space in which gender boundaries become unsettled and blurred More than any other activity the practice of hunting which is controversial at least in terms of animal ethics seems to lend itself to the negotiation of both what is perceived as human and what as animal and what is seen as masculine and what as feminine

Wild Games Dennis Ray Cutchins,Eric Alden Eliason,2009 Humans understand at least some of what it means to be human both literally and figuratively in reference to wild animals Our relationships with wildlife have traditionally been expressed in terms of hunting more recently these relationships have also been manifest as efforts to prevent hunting Hunting and fishing traditions are in fact under fire by critics at the same time that they are receding of their own accord perhaps becoming even more endangered than any of the pursued animals These traditions form the major focus of Wild Games a new collection of essays that looks at the folklore and culture of various hunting and fishing practices documenting the central importance of hunting to many rural societies even in modern times Editors Dennis Cutchins and Eric Eliason contend that hunters often don t perceive of themselves as separate from the wild but rather identify strongly with a natural order integrated with rather than standing apart from the fluctuation of ecosystems And they frequently don t see wild animals as set apart but understand them as food sources competitors friendly rivals and even equals Featuring contributions from a variety of distinguished scholars and writers including an essay by the noted folklorist Simon Bronner on the culture of the deer camp a fascinating account of coyote tracking by Eric Eliason and an examination of the role of gender in outdoor life by Diane Humphrey Lueck this book shows how the traditions of hunting and fishing tend to bind hunter and prey into ancient patterns that often defy contemporary culture Book Jacket
