Orthodox And Catholic Sister Churches:

Orthodox and Catholic Sister Churches Michael Andrew Fahey,1996 **The Concept of "Sister Churches" in Catholic-Orthodox Relations since Vatican II** Will T. Cohen,2017-09-28 Often invoked between Vatican II and the end of the twentieth century by both Orthodox and Catholic officials across their confessional division the expression sister churches reflected their growing rapprochement as well as a shift on the Catholic side from a more centralized ecclesiology to one more attentive to the local church and conciliarity Pope John Paul II in his 1995 encyclical *Ut Unum Sint* spoke significantly of a doctrine of sister churches that would help guide the Catholic and Orthodox toward unity along a path of mutual respect rather than either tradition's submission to the other In his comprehensive treatment of the history of the expression sister churches over half a century of Catholic Orthodox relations Dr Will Cohen explores why the concept developed as it did why it was so fiercely contested and what remains vital about the concept today In the process Dr Cohen illuminates the ways in which Catholic and Orthodox ecclesiology respectively is each most capable of renewing and sustaining its proper balance when open to the authentic gifts of the other *Catholic Q&A* Father Ray Ryland,2016-08-04 This is a compilation of Fr Ryland's column that appeared from 2004 through 2014 in *The Catholic Answer* magazine published by Our Sunday Visitor Huntington IN 46750 The 676 questions came from Catholics Protestants and non Christians who wanted a better understanding of the Catholic faith Access to particular topics is provided via a thorough back of the book index as well as through theme links throughout the book Touch a topic in the index or a theme link view the question and Fr Ryland's wise answer and you are equipped to better understand and to share the fullness of faith in Jesus Christ as Lord Think of this book as one more instrument in the new evangelization Online resources include full search capability and updates of the index Nihil Obstat and Imprimatur granted by the Diocese of Steubenville Ohio

International Handbook of Inter-religious Education Kath Engebretson,Marian de Souza,Gloria Durka,Liam Gearon,2010-08-17 This Handbook is based on the conviction of its editors and contributing authors that understanding and acceptance of as well as collaboration between religions has essential educational value The development of this Handbook rests on the further assumption that interreligious education has an important role in elucidating the global demand for human rights justice and peace Interreligious education reveals that the creeds and holy books of the world's religions teach about spiritual systems that reject violence and the individualistic pursuit of economic and political gain and call their followers to compassion for every human being It also seeks to lead students to an awareness that the followers of religions across the world need to be and to grow in dialogical relationships of respect and understanding An essential aim of interreligious education is the promotion of understanding and engagement between people of different religions and therefore it has great potential to contribute to the common good of the global community Interreligious education has grown from the interfaith movement whose beginning is usually identified with the World Parliament of Religions held in Chicago in 1893 This was the

rst time in history that leaders of the eastern and western religions had come together for dialogue and to consider working together for global unity

In God's Hands Jaroslav Z. Skira, Michael S. Attridge, 2006 The articles on the church and ecumenism in this Festschrift celebrate Professor Fahey's contributions, accomplishments and gifts to the academy and the Church. They reflect his sensitivities and spirituality as a friend and pastor, his support for the many voices in the church, his engagement and mentoring of several generations of students and scholars, his demand for honest and critical scholarship, and his deep desire for a spirit of Christian unity among us all

Eastern Christianity and Politics in the Twenty-First Century Lucian N. Leustean, 2014-05-30 This book provides an up to date comprehensive overview of Eastern Christian churches in Europe, the Middle East, America, Africa, Asia, and Australia. Written by leading international scholars in the field, it examines both Orthodox and Oriental churches from the end of the Cold War up to the present day. The book offers a unique insight into the myriad church-state relations in Eastern Christianity and tackles contemporary concerns, opportunities and challenges such as religious revival after the fall of communism, church and democracy relations between Orthodox, Catholic, and Greek Catholic churches, religious education and monastic life, the size and structure of congregations, and the impact of migration, secularisation, and globalisation on Eastern Christianity in the twenty-first century

The Primacy of the Bishop of Rome and the Ecumenical Dialogue Adriano Garuti, 2004 The mixed results of the ecumenical dialogue since the Second Vatican Council have made it clear that the primacy of the Bishop of Rome remains the single most serious obstacle on the path of ecumenism. In his landmark 1995 encyclical *Ut unum sint*, Pope John Paul II reiterated the constant teaching that the Catholic Church has preserved the ministry of the Successor of the Apostle Peter, the Bishop of Rome. He also invited leaders and theologians of other Christian communities to engage in a patient and fraternal dialogue on this subject to find a way of exercising the primacy which, while in no way renouncing what is essential to its mission, is nonetheless open to a new situation. This book explores in depth the discussion of papal primacy in the Catholic, Orthodox, Catholic, Lutheran, and Catholic Anglican dialogues, along with an appendix on the concept of Sister Churches. Each chapter describes how the primacy is viewed in the respective churches or ecclesial communities, then it analyzes the documents of the official ecumenical dialogue and realistically evaluates the results achieved thus far

Religion and Politics in Post-Communist Romania Lavinia Stan, Lucian Turcescu, 2007-10-25 In the post-communist era, it has become evident that the emerging democracies in Eastern Europe will be determined by many factors, only some of them political. Throughout the region, the Orthodox, Roman Catholic, and Greek Catholic churches have tried to impose their views on democracy through direct political engagement. Moreover, surveys show that the churches and the army enjoy more popular confidence than elected political bodies such as parliaments. These results reflect widespread disenchantment with a democratization process that has allowed politicians to advance their own agendas rather than work to solve the urgent socio-economic problems these countries face. In this penetrating study, Lavinia Stan and Lucian Turcescu investigate the interaction of religion and politics

in one such country Romania Facing internal challenges and external competitions from other religions old and new the Orthodox Church in Romania has sought to consolidate its position and ensure Romania s version of democracy recognizes its privileged position of national Church enforcing the Church s stances on issues such as homosexuality and abortion The post communist state and political elite in turn rely on the Church for compliance with educational and cultural policies and to quell the insistent demands of the Hungarian minority for autonomy Stan and Turcescu examine the complex relationship between church and state in this new Romania providing analysis in key areas church collaboration with communist authorities post communist electoral politics nationalism and ethno politics restitution of Greek Catholic property religious education and sexual behavior and reproduction As the first scholars to be given access to confidential materials from the archives of the communist political police the notorious Securitate Stan and Turcescu also examine church archives legislation news reports and interviews with politicians and church leaders This study will move the debate from common analyses of nationalism in isolation to more comprehensive investigations which consider the impact of religious actors on a multitude of other issues relevant to the political and social life of the country *Ecumenical Christian Dialogues and the Catechism of the Catholic Church* Jeffrey FSC. Gros,2006 *Introduction to Ecumenism* Gros, Jeffrey,McManus, Eamon,Riggs, Ann,1998 An overview of the history content and future of the modern ecumenical movement with particular attention to Catholic leadership and the results of dialogues among the churches
