**Trains for Nature** Alfred Runte, 2025-02-04 Discover how America s abandoned passenger trains hold the key to preserving our nation s scenic treasures and wilderness landscapes In this timely and provocative work renowned environmental historian Alfred Runte challenges our blind embrace of highways and airports revealing how the decline of passenger rail has scarred America s legendary landscapes From national parks to urban corridors Runte demonstrates how modern transportation choices are destroying the very vistas we claim to cherish Drawing on decades of research and his experience as advisor to Ken Burns s acclaimed National Parks documentary series Runte offers a compelling vision for reuniting transportation with conservation Reveals how European nations successfully preserved their scenic landscapes through rail transportation Explores the hidden environmental costs of abandoning America s passenger rail system Demonstrates how restoring rail service could protect wilderness areas from destructive development Challenges conventional wisdom about progress in transportation policy This expanded edition featuring a new preface and epilogue arrives at a critical moment as wind farms and solar installations threaten even protected wilderness areas For anyone concerned about preserving America s natural heritage while addressing climate change this passionate appeal for the return of passenger rail offers hope for a more sustainable and beautiful future

**Home on the Rails** Amy G. Richter, 2006-03-13 Recognizing the railroad s importance as both symbol and experience in Victorian America Amy G Richter follows women travelers onto trains and considers the consequences of their presence there For a time Richter argues nineteenth century Americans imagined the public realm as a chaotic and dangerous place full of potential where various groups came together collided and influenced one another for better or worse The example of the American railroad reveals how by the beginning of the twentieth century this image was replaced by one of a domesticated public realm a public space in which both women and men increasingly strove to make themselves at home Through efforts that ranged from the homey touches of railroad car decor to advertising images celebrating female travelers and legal cases sanctioning gender segregated spaces travelers and railroad companies transformed the railroad from a place of risk and almost unlimited social mixing into one in which white men and women alleviated the stress of unpleasant social contact Making themselves at home aboard the trains white men and women domesticated the railroad for themselves and paved the way for a racially segregated and class stratified public space that freed women from the home yet still preserved the railroad as a masculine domain

**Steamtown National Historic Site** Margo L. Azzarelli , 2020 In 1984 the former Delaware Lackawanna Western Railroad yard became the home to

a millionaire's train collection Nine years and many improvements later the Steamtown National Historic Site opened its door to welcome over 100 000 visitors annually Steamtown occupies an estimated 65 acres of the old Scranton railroad yard with several of its original structures remaining on the site It also includes a visitor's center two museums a restored roundhouse and a plethora of exhibits and locomotives much to the delight of railfans of all ages The Steamtown National Historic Site is an integral part of the preservation of railroad history as it is representative of a steam era gone by *Encyclopedia of New Jersey* Maxine N. Lurie, Marc Mappen, 2004 Contains nearly original articles along with illustrations and maps collecting a wealth of information about the state of New Jersey *The New Rolling Stone Album Guide* Nathan Brackett, Christian David Hoard, 2004 Publisher Description *LIFE*, 1951-10-15 LIFE Magazine is the treasured photographic magazine that chronicled the 20th Century It now lives on at LIFE.com the largest most amazing collection of professional photography on the internet Users can browse search and view photos of today's people and events They have free access to share print and post images for personal use **Railroads, Art, and American Life** J. Craig Thorpe, 2023-02-28 Explore the past present and future of rail travel through 30 years of one artist's work Once a common part of the American landscape trains are increasingly fading from public view Though photographs can accurately convey the details of what where and when sometimes paintings can better convey the deeper truths of an era Collecting more than thirty years of paintings and renderings Railroads Art and American Life tells the story of rail transportation in America through the life and works of artist J. Craig Thorpe Commissioned by companies such as Amtrak and General Electric Thorpe's work can be found featured on items ranging from catalogs to calendars postcards to posters His artwork depicts not only the golden age of train travel but considers the present and looks forward to a potential future Featuring more than 130 color illustrations and combining history biography ethics and humor Thorpe's personal story joins with his paintings to invite the reader to relive the heyday of American rail and better understand the role of railroads in our society today **Printing Art**, 1919 *Iron Women* Chris Enss, 2021-03-01 2022 Will Rogers Medallion Award Silver Winner for Western Non Fiction When the last spike was hammered into the steel track of the Transcontinental Railroad on May 10 1869 at Promontory Point Utah Western Union lines sounded the glorious news of the railroad's completion from New York to San Francisco For more than five years an estimated four thousand men mostly Irish working west from Omaha and Chinese working east from Sacramento moved like a vast assembly line toward the end of the track Editorials in newspapers and magazines praised the accomplishment and some boasted that the work that was begun carried on and completed solely by men The August edition of Godey's Lady's Book even reported No woman had laid a rail and no woman had made a survey Although the physical task of building the railroad had been achieved by men women made significant and lasting contributions to the historic operation However the female connection with railroading dates as far back as 1838 when women were hired as registered nurses stewardesses in passenger cars Those ladies attended to the medical needs of travelers and also acted as hostesses of sorts helping

passengers have a comfortable journey Beyond nursing and service roles however women played a larger part in the actual creation of the rail lines than they have been given credit for Miss E F Sawyer became the first female telegraph operator when she was hired by the Burlington Railroad in Montgomery Illinois in 1872 Eliza Murfey focused on the mechanics of the railroad creating devices for improving the way bearings on a rail wheel attached to train cars responded to the axles Murfey held sixteen patents for her 1870 invention In 1879 another woman inventor named Mary Elizabeth Walton developed a system that deflected emissions from the smoke stacks on railroad locomotives She was awarded two patents for her pollution reducing device Their stories and many more are included in this illustrated volume celebrating women and the railroad
