Population Geography, Problems, Concepts, and Prospects Gary L. Peters, Robert P. Larkin, 1979 **Population Geography** K. Bruce Newbold, 2013-12-19 This compact and accessible text provides a comprehensive issue oriented introduction to population geography After grounding students in the fundamentals K Bruce Newbold then explains the tools and techniques commonly used to describe and understand population concepts using real world issues and events Drawing on both US and international cases he explores such pressing concerns as HIV AIDS international migration fertility mortality resource scarcity and conflict Every chapter includes methods and focus sections as well as study questions to provide a more in depth discussion of the ideas and concepts developed in the book In addition a wide array of maps tables and figures illustrates and enhances the cases Newbold highlights the geographical perspective with its ability to provide powerful insights and bridge disparate issues by emphasizing the role of space and place location regional differences and diffusion Arguing that an understanding of population is essential to prepare for the future this cogent text will provide upper division undergraduates with a thorough grasp of the field Key Concepts in Political Geography Carolyn Gallaher, Carl T Dahlman, Mary Gilmartin, Alison Mountz, Peter Shirlow, 2009-04-22 A comprehensive reader for my political geography course Good summaries at the end and articles include effective case study examples Rachel Paul Western Washington University A very useful and comprehensive introduction to key concepts in political geography This book provides useful context not just for traditional political geography modules but also those examining broader issues of power resistance and social movements Gavin Brown University of Leicester Vital for introducing basic concepts and terminology in a clear and concise fashion The short chapters are accessible and well supplemented with pertinent examples Daniel Hammett Sheffield University I found the book to be very useful in a supplemental capacity full of information that would be useful for an undergraduate or early graduate student Jason Dittmer University College London This textbook forms part of an innovative set of companion texts for the human geography subdisciplines Organized around 20 short essays Key Concepts in Political Geography provides a cutting edge introduction to the central concepts that define contemporary research in the field Involving detailed yet expansive discussions the book includes An introductory chapter providing a succinct overview of the recent developments in the field Over 20 key concept entries covering the expected staples of the sub discipline such as nationalism territoriality scale and political economy as well as relatively new arrivals to the field including the other anti statism gender and post conflict A glossary figures diagrams and further reading It is essential reading for undergraduate and postgraduate students of political geography **Human Geography** Erin Hogan Fouberg, Alexander B. Murphy, Harm J. de Blij, 2015 **Subject Guide to Books in Print** , 1997 *Human Geography* Erin H. Fouberg, Alexander B. Murphy, Harm J. de Blij, 2009-01-27 Taking us from our hominid ancestors to the megacities of today Human Geography brings a new emphasis to the political and economic issues of human geography **Geography, Regions and Concepts**

Harm J. De Blij, Peter O. Muller, 1985 Includes index **Aging in Comparative Perspective** Ian Gillespie Cook, Jamie Halsall, 2011-11-23 This book examines the key aging processes in seven countries United States United Kingdom Sweden Japan China Nepal and South Africa and the main policies that have been and are being developed to deal with this rapid change in the demographic profile It addresses the problems that are identified as well as the positive aspects of aging within each of these contrasting societies Thus it makes a significant contribution to the major debates about growing old across the globe Geography, 1983 Includes section Reviews and other bibliographical material *The Geography of Tourism and Recreation* C. Michael Hall, Stephen J. Page, 2006-03-27 Highlighting the inter relationships between tourism leisure and recreation this revised edition introduces growing theoretical debates from geography and the wider social science arena to assess how new conceptualizations of tourism and leisure are advancing knowledge and understanding Underpinning this book is the concept of the evolving nature of geography and social science and their role in leading the analysis of the leisure phenomenon as a living subject which has recently seen significant contributions from the new cultural geographies of consumption and leisure These developments are clearly introduced giving readers new to the subject area bite sized introductions to key issues Whilst this third edition retains the successful format and structure of previous editions making it attractive and user friendly to students without being overwhelming it is completely revised and redeveloped to accommodate new case studies insights summary points and learning objectives It is the only book to systematically compare and contrast in a spatial context tourism and recreation in relation to leisure time and its encyclopaedic reference section provides an excellent resource for new students Retaining a global focus this edition now features a greater emphasis on North America and investigates the importance of less developed countries and the critical issues surrounding inequality exploitation underdevelopment and globalization as powerful forces affecting tourism and leisure **The Geography of Tourism and Recreation**, **Books in Print**, 1991 **Environmental Health Perspectives**, 2004 **Seeking a Richer Harvest** Tina Thurston, Christopher T Fisher, 2006-11-25 Subsistence intensification innovation and change have long figured prominently in explanations for the development of social complexity among foragers and horticulturalists and the rise of chiefly societies and archaic states yet there is considerable debate over the actual mechanisms that promote these processes Traditional approaches to the intensification question emphasize population pressure climate change bureaucratic management or even land degradation as prerequisites for the onset of new or changing strategies or the construction and maintenance of agricultural landscapes Most often these factors are modeled as external forces outside the realm of human decision making but recent archaeological research presents an alternative to this suggesting that subsistence intensification is the result of human driven strategies for power prestige and status stemming from internal conditions within a group When responding to environmental adversity human groups were less frequently the victims as they have been repeatedly portrayed Instead human groups were often vigorous actors responding with resilience ingenuity and planning to flourish or

survive within dynamic and sometimes unpredictable social and natural milieux The Routledge Handbook of Landscape Ecology Robert A. Francis, James D.A. Millington, George L.W. Perry, Emily S. Minor, 2021-09-09 The Handbook provides a supporting guide to key aspects and applications of landscape ecology to underpin its research and teaching A wide range of contributions written by expert researchers in the field summarize the latest knowledge on landscape ecology theory and concepts landscape processes methods and tools and emerging frontiers Landscape ecology is an interdisciplinary and holistic discipline and this is reflected in the chapters contained in this Handbook Authors from varying disciplinary backgrounds tackle key concepts such as landscape structure and function scale and connectivity landscape processes such as disturbance flows and fragmentation methods such as remote sensing and mapping fieldwork pattern analysis modelling and participation and engagement in landscape planning and emerging frontiers such as ecosystem services landscape approaches to biodiversity conservation and climate change Each chapter provides a blend of the latest scientific understanding of its focal topics along with considerations and examples of their application from around the world An invaluable guide to the concepts methods and applications of landscape ecology this book will be an important reference text for a wide range of students and academics in ecology geography biology and interdisciplinary environmental studies

Contemporary Tourism Chris Cooper, C Michael Hall, 2016-02-29 Now in its third edition this text presents a new and refreshing approach to the study of tourism This new edition now includes coverage of researching social media crowd sourced strategies the millennial tourist generation and green growth and sustainable tourism *Resources in Education*, 1999 Geographical Gerontology Mark W. Skinner, Gavin J. Andrews, Malcolm P. Cutchin, 2017-11-27 Understanding where ageing occurs how it is experienced by different people in different places and in what ways it is transforming our communities economies and societies at all levels has become crucial for the development of informed research policy and programmes This book focuses on the interdisciplinary field of study geographical gerontology that addresses these issues With contributions from more than 30 leading geographers and gerontologists the book examines the scope and depth of geographical perspectives concepts and approaches applied to the study of ageing old age and older populations The book features 25 chapters organized into five parts that cover the field's theoretical traditions and intellectual evolution the contributions of key disciplinary perspectives from population geography social and cultural geography health geography urban planning and environmental studies the scales of inquiry within geographical gerontology from the global to the embodied the thematic breadth of contemporary issues of interest that define the field places spaces and landscapes of ageing and a discussion about challenges opportunities and agendas for future developments in geography and gerontology This book provides the first comprehensive foundation of knowledge about the state of the art of geographical gerontology that will be of interest to scholars of ageing around the world **The Geography of Tourism and Recreation** Colin Michael Hall, Stephen Page, 2002 This book not only introduces studies and recent contributions to geographers expanding

interest in how people spend their leisure time in space but seeks to illustrate how recreation and tourism phenomenon are seemingly separate and yet integrated aspects of the wider leisure phenomenon Each chapter offers a series of insights into how the geographer has approached the analysis of tourism and recreation Midwest

A Depth Psychology Model of Immigration and Adaptation Phyllis Marie Jensen, 2020-06-02 A Depth Psychology Study of Immigration and Adaptation The Migrant's Journey brings current academic research from a range of disciplines into a 12 stage model of human migration Based on Joseph Campbell's hero's journey this depth psychology model addresses pre migration reasons for leaving the ordeals of the journey and challenges of post migration adaptation One third of migrants return to homelands while those who remain in newlands face the triple challenges of building a new life a new identity and sense of belonging While arrivals carry homelands within their children the second generation born and raised in the newland usually have access to both cultures which enables them to make unique contributions to society Vital to successful newland adaptation is the acceptance and support of immigrants by host countries A Depth Psychology Study of Immigration and Adaptation will be an important resource for academics and students in the social sciences clinical psychologists health care and social welfare workers therapists of all backgrounds policy makers and immigrants themselves seeking an understanding of the inner experiences of migration
