Graves, Sequoia Miller, Magdalene Odundo, Vicki Parry, 2023-07-11 Surviving ceramic vessels buried in tombs caves and the earth around the world testify to the earliest human creative activity By studying ceramics historians uncover the complex ways that societies organized and sustained themselves as well as how they interacted with other cultures Today the ceramic arts remain a vibrant artistic medium as contemporary artists engage with this material history to sustain their own heritage practices while also shaping new histories from clay From pre Columbian Andean tombs to contemporary African sculpture Ceramic Art considers ceramics as an artistic medium that uniquely records and expresses our individual and collective worlds across cultures With an introduction and conclusion written by Sequoia Miller the chief curator at the Gardiner Museum of Ceramic Art in Toronto and a practicing ceramic artist this volume features three main essays The first by art historian Margaret Graves provides an overview of different ceramic histories and the ways regional and global circulation have impacted them the second by conservator Victoria Parry focuses on the challenges of preserving these artworks and artifacts and the third by studio potter Magdalene Odundo examines the art form from the point of view of the contemporary practitioner These essays are followed by three case studies organized chronologically from ancient to contemporary and spanning centuries and continents in range that put objects in conversation with one another in innovative cross disciplinary ways Ceramic Art is the inaugural title in our new series ART WORK Responding to the latest trends in the field the ART WORK series provides innovative narratives that change how art history as a discipline is imagined **Ceramics in the Victorian Era** Rachel Gotlieb, 2023-06-29 This book broadens the discussion of pottery and china in the Victorian era by situating them in the national imperial design reform and domestic debates between 1840 and 1890 Largely ignored in recent scholarship Ceramics in the Victorian Era Meanings and Metaphors in Painting and Literature argues that the signification of a pot a jug or a tableware pattern can be more fully discerned in written and painted representations Across five case studies the book explores a rhetoric and set of conventions that developed within the representation of ceramics emerging in the late 18th century and continuing in the Victorian period Each case study begins with a textual passage exemplifying the outlined theme and closes with an object analysis to demonstrate how the fusing of text image and object are critical to attaining the period eye in order to better understand the metaphorical meanings of ceramics Essential reading not only for ceramics scholars but also those of material culture the book mines the rich and diverse archive of Victorian painting and literature from the avant garde to the sentimental from the well known to the more obscure to shed light on the at once complex and simple implications of ceramics agencies at this time *Ceramic Industry*, 1927 **Pots, Pans, and**
