## **Portraits Of Bartolomeo Veneto:**

The Portraits of Bartolomeo Veneto Laura Pagnotta, 2003 This is the first English language monograph on Bartolomeo Veneto c 1480-1531 who worked in Northern Italy in an area bounded by Venice and Milan The art made in this region is characterized by an intensity and richness arising from the various artistic personalities that enlivened the period and the vitality of exchanges that linked artists from widely separated cultural areas An analysis of Bartolomeo's works allows one to observe the vivid atmosphere of the period Specializing in portraiture he moved often to satisfy the demands of his clientele in the small and large courts in the Veneto Emilia and the Lombardy regions of the Po Valley Over the course of his career from his earliest dated painting in 1502 until his death presumably in 1531 he produced a remarkable body of work Characteristic of Bartolomeo Veneto is an interest in a refined rendering of details particularly of clothing and the inclusion of symbolic elements This symbolism understandable by only a select few refers to the moral philosophical or even political ideals of the person depicted and reflects the cultivated society of the clients for whom the artist worked Of particular interest are his portraits and works that fall midway between conventional portraiture and representations of a symbolic mythological or religious nature On the one hand he was able to synthesize diverse stylistic tendencies On the other he was able to capture nuances of his subjects personalities Despite the remarkable quality of many of his paintings he was not mentioned by historical sources and he remains one of the least studied and most mysterious of the 16th century Italian painters He was rediscovered in the middle of the 19th century when several of his signed and dated paintings were acquired by European museums

**Bartolomeo Veneto and his portrait of a lady** Creighton Gilbert, **Bellini, Giorgione, Titian, and the Renaissance of Venetian Painting** David Alan Brown, Sylvia Ferino-Pagden, Jaynie Anderson, Deborah Howard, Kunsthistorisches Museum (Vienne), National Gallery of Art (U.S.), Kunsthistorisches Museum (Wenen), 2006-01-01 Presents a survey of sixty Venetian Renaissance paintings of the calibre of Bellini and Titian's Feast of the Gods in Washington and Giorgione's Laura and Three Philosophers in Vienna

Women in Italian Renaissance Art Paola Tinagli, 1997-06-15 This is the first book which gives a general overview of women as subject matter in Italian Renaissance painting It presents a view of the interaction between artist and patron and also of the function of these paintings in Italian society of the fifteenth and sixteenth centuries Using letters poems and treatises it examines through the eyes of the contemporary viewer the way women were represented in paintings

*The Portrait in the Renaissance* John Pope-Hennessy, 2023-10-17 A major account of Renaissance portraiture by one of the twentieth century's most eminent art historians In this book John Pope Hennessy provides an unprecedented look at two centuries of experiment in portraiture during the Renaissance Pope Hennessy shows how the Renaissance cult of individuality brought with it a demand that the features of the individual be perpetuated a concept first manifested in the portraits that fill the great Florentine fresco cycles and led later in the fifteenth century to the creation of the independent portrait by such artists as Sandro Botticelli Antonio

del Pollaiuolo Giovanni Bellini and Antonello da Messina Pope Hennessy goes on to describe the process by which Titian and the great artists of the High Renaissance transformed the portrait from a record of appearance into an analysis of character

*Wives, Widows, Mistresses, and Nuns in Early Modern Italy* Katherine A. McIver, 2016-12-05 Through a visually oriented investigation of historical invisibility in early modern Italy the essays in this volume recover those women wives widows mistresses the illegitimate who have been erased from history in modern literature rendered invisible or obscured by history or scholarship as well as those who were overshadowed by male relatives political accident or spatial location A multi faceted invisibility of the individual and of the object is the thread that unites the chapters in this volume Though some women chose to be invisible for example the cloistered nun these essays show that in fact their voices are heard or seen through their commissions and their patronage of the arts which afforded them some visibility Invisibility is also examined in terms of commissions which are no longer extant or are inaccessible What is revealed throughout the essays is a new way of looking at works of art a new way to visualize the past by addressing representational invisibility the marginalized or absent subject or object and historical invisibility to discover who does the looking and how this shapes how something or someone is visible or invisible The result is a more nuanced understanding of the place of women and gender in early modern Italy
