Psychodynamic Perspectives on Working with Children, Families, and Schools Michael O'Loughlin, 2012-12-08 With the push toward accountability and test performance in schools there has been a decline in emphasis on creativity imagination and feelings in schools Psychodynamic Perspectives on Working with Children Families and Schools is designed for students and professionals who are interested in restoring such values to their work with children There is an absence of psychoanalytic ways of thinking in conventional professional discourses of schooling With a few notable exceptions the discourses of child development classroom management early childhood education special education school psychology and school counseling have constructed notions of children and schooling that are often behaviorist instrumental and symptom focused Curriculum too often focuses on acquisition of knowledge and behaviors discipline is conceptualized as compliance and symptoms such as anger school resistance etc are pathologized and reacted to out of context children s special needs are often conceptualized instrumentally and children with complex psychological symptoms are delimited depersonalized or simply removed Professionals who work with children psychodynamically draw on diverse frameworks including the work of Anna Freud the long tradition of the Tavistock Clinic in London e g Anne Alvarez Susan Reid Margaret Rustin Frances Tustin etc the writings of Klein Winnicott and their colleagues French analysts e g Piera Aulagnier Didier Anzieu Laurent Danon Boileau Fran oise Dolto Maud Mannoni and Catherine Mathelin and Italian infant child analyst Alessandro Piontelli This work is valuable but often inaccessible to school professionals because the writing is somewhat specialized and because there is no tradition of teaching such work in professional preparation in those fields This collection is theoretically grounded in that the authors share a commitment to valuing children s emotions and understand the usefulness of psychoanalytic approaches for enhancing children s lives It is laden with examples to invite into this discussion those students and professionals who value these ideas but for whom this

Psychoanalysis and the University Max Cavitch, 2025-04-23 This book charts the past and present vicissitudes of psychoanalysis's relation to education and emphasizes on the necessity of its increased presence in university settings Why can fewer and fewer people afford either time intensive psychoanalytic psychotherapy or a three to four year college education Why have psychoanalytic teaching and research become so marginalized Where and how does psychoanalysis retain a foothold in academia In an era when the futures of both psychoanalysis and higher education seem evermore uncertain Psychoanalysis and the University argues for the need to overcome existing precarities and mutual resistances and suggests ways in which their prospects for survival could be reciprocally enhanced Each chapter surveys and interprets present conditions while arguing the necessity of supporting and expanding psychoanalytic teaching and research at both the undergraduate and graduate levels Drawing on Cavitch's deep understanding of both psychoanalysis and university settings this is essential reading for psychoanalysts university teachers and administrators and all students interested in how augmented psychoanalytic education could enhance their understanding of the world

Cruel Compassion Thomas Szasz, 1998-02-01 Cruel Compassion is the capstone of Thomas Szasz's critique of psychiatric practices Reexamining psychiatric interventions from a cultural historical and political economic perspective Szasz demonstrates that the main problem that faces mental health policy makers today is adult dependency Millions of Americans diagnosed as mentally ill are drugged and confined by doctors for noncriminal conduct go legally unpunished for the crimes they commit and are supported by the state not because they are sick but because they are unproductive and unwanted Obsessed with the twin beliefs that misbehavior is a medical disorder and that the duty of the state is to protect adults from themselves we have replaced criminal punitive sentences with civil therapeutic programs The result is the relentless loss of individual liberty erosion of personal responsibility and destruction of the security of persons and property symptoms of the transformation of a Constitutional Republic into a Therapeutic State unconstrained by the rule of law Szasz shows convincingly that not until we separate therapy from coercion much as the founders separated theology from coercion shall we be able to get a handle on our seemingly intractable psychiatric and social problems No contemporary thinker has done more than Thomas Szasz to expose the myths and misconceptions surrounding insanity and the practice of psychiatry Now in Cruel Compassion he gives us a sobering look at some of our most cherished notions about our humane treatment of society's unwanted and perhaps more importantly about ourselves as a compassionate and democratic people

Introduction to Key Concepts and Evolutions in Psychoanalysis Alexis A. Johnson, 2018-12-12 Introduction to Key Concepts and Evolutions in Psychoanalysis offers an accessible starting point to understanding psychoanalysis by focusing on

seven key psychoanalytic models and their creators and how the field has evolved over time from Sigmund Freud's original ideas. The book is based on the premise that Freud started a conversation over 100 years ago that continues to this day: who are we, why do we suffer so, and how can others help. Alexis A. Johnson seeks to make the invariably complex and sometimes contradictory terms and concepts of psychoanalysis more accessible for those being introduced to psychoanalysis for the first time, integrating them into a cohesive narrative whilst using a broadly developmental perspective. Each model is given space and context matched with relevant case studies drawn from the author's own clinical practice. Written in an approachable, jargon-free style, this book brings to life the creators of the models, using case studies to illustrate the healing maps and models they have developed. The author methodically adds layer upon layer of increasingly challenging insights. Which model is useful or appropriate, and when and how exactly is it useful as part of the healing paradigm? Rather than aligning with any one model, Johnson makes the case that drawing upon aspects of all of these sometimes competing ideas at various times is important and healthy. *Introduction to Key Concepts and Evolutions in Psychoanalysis* will appeal to undergraduate students of psychology encountering psychoanalysis for the first time, as well as trainees in psychoanalysis and those working across other branches of the mental health profession wishing to understand and draw upon fundamental psychoanalytic ideas.

In Her Wake Nancy Rappaport, 2010-02. A delivery announcement on elegant paper stamped with the date of a daughter's birth, a tarnished silver baby cup dented at the rim, a lovingly hand-knitted sweater, a school committee flyer, hurried grocery lists. This is all Nancy Rappaport had left to remember her mother, a woman defined by her absence. In 1963, Nancy Rappaport's mother committed suicide after a bitter public divorce and custody battle. Nancy was just four years old and the youngest of six children. Growing up in a blended family of eleven children after her father remarried, Nancy was bewildered about why her mother took her own life and left her behind. Years later, encouraged by her own children's curiosity about their grandmother and fortified by her training as a child psychiatrist, Nancy began to investigate her mother's life and the mysteries surrounding her death. Pursuing clues and following leads, Rappaport pieces together in *In Her Wake* a complex mosaic of her mother. Drawing on court depositions, newspaper coverage, her mother's unpublished novel, and interviews with family and friends, she uncovers the story of a conflicted and troubled activist, socialite, and community leader. Rappaport explores the impact of her mother's suicide from the perspective of a daughter, psychiatrist, wife, and mother of three. Illuminating in the process the complicated nature of loss, reconciliation, and healing, *In Her Wake* is a powerful testament to a woman's search for answers and a potent reminder that love outlasts death. Provoking Curriculum Studies Nicholas Ng-a-Fook, Awad Ibrahim, Giuliano Reis, 2015-08-11. *Provoking Curriculum Studies* pushes forward a strong reading of the theoretical and methodological innovations taking place within curriculum studies research. Addressing an important gap in contemporary curriculum studies, conceptualizing scholars as poets and the potential of the poetic in education, it offers a framework for doing curriculum work at the intersection of the arts, social theory, and

curriculum studies Drawing on poetic inquiry psychoanalysis phenomenology life writing and several types of arts based research methodologies this diverse collection spotlights the intellectual genealogies of curriculum scholars such as Ted Aoki Geoffrey Milburn and Roger Simon whose provocations inquiries and recursive questioning link the writing and re writing of curriculum theory to acts of strong poetry Readers are urged to imagine alternative ways in which professors teachers and university students might not only engage with but disrupt blur and complicate curriculum theory across interdisciplinary topographies in order to seek out blind impresses those areas of knowledge that are left over unaddressed by mainstream curriculum scholarship and that instigate difficult questions about death trauma prejudice poverty colonization and more
