Reading Parfit:

Reading Parfit Jonathan Dancy, 1997-08-15 Reading Parfit brings together some of the most distinguished scholars in the field to discuss and critique Derek Parfit's outstanding work *Reasons and Persons* *Reading Parfit* Simon Kirchin, 2017-03-16 Derek Parfit was one of the world's leading philosophers. His *On What Matters* was the most eagerly awaited book in philosophy for many years. *Reading Parfit: On What Matters* is an essential overview and assessment of volumes 1 and 2 of Parfit's monumental work by a team of international contributors and includes responses by Parfit himself. It discusses central features of Parfit's book including the structure and nature of reasons, the ideas underlying moral principles, Parfit's discussions of consequentialism, contractualism, and Kantian deontology, and his metaethical ideas and arguments. *Reading Parfit* will be central reading for students of ethics and anyone seeking a deeper understanding of one of the most important works of philosophy published in the last fifty years. **Derek Parfit's *Reasons and Persons*** Andrea Sauchelli, 2020-02-12 Derek Parfit 1942-2017 is widely considered to be one of the most important moral philosophers of the twentieth century. *Reasons and Persons* is arguably the most influential of the two books published in his lifetime and hailed as a classic work of ethics and personal identity. Derek Parfit's *Reasons and Persons: An Introduction and Critical Inquiry* is an outstanding introduction to and assessment of Parfit's book with chapters by leading scholars of ethics, metaphysics, and of Parfit's work. Part I provides a much needed introduction to key topics and themes in *Reasons and Persons* that will be useful for those new to Parfit's complex work. These include Parfit's idea of self-defeating theories, rationality and time, personal identity, future generations, and well-being. Part II explores various debates generated by *Reasons and Persons*, including its connections with Buddhism, metaethics, theory of rationality, transformative choices, and further developments in personal identity and metaphysics, such as conativism. Combining clear exposition of the major topics and arguments in *Reasons and Persons* with scholarly perspectives on more advanced themes, this book is ideal for students of ethics, metaethics, metaphysics, and anyone interested in Derek Parfit's philosophy. **Personal Identity** Ellen Frankel Paul, Fred Dycus Miller, Jeffrey Paul, 2005 What is a person? What makes me the same person today that I was yesterday or will be tomorrow? Philosophers have long pondered these questions. In Plato's *Symposium*, Socrates observed that all of us are constantly undergoing change: we experience physical changes to our bodies as well as changes in our manners, customs, opinions, desires, pleasures, pains, and fears. Aristotle theorized that there must be some underlying substratum that remains the same even as we undergo these changes. John Locke rejected Aristotle's view and reformulated the problem of personal identity in his own way: is a person a physical organism that persists through time, or is a person identified by the persistence of psychological states by memory? These essays, written by prominent philosophers and legal and economic theorists, offer valuable insights into the nature of personal identity and its implications for morality and public policy. Oxford Studies in Normative Ethics, 2025-06-05 *Oxford Studies in Normative Ethics* is an annual forum for new work in normative ethical

Temkin,2014-12-04 In choosing between moral alternatives choosing between various forms of ethical action we typically make calculations of the following kind using the principle of transitivity A is better than B B is better than C therefore A is better than C Larry Temkin shows is that if we want to continue making plausible judgments we cannot continue to make these assumptions The Ontology of Well-Being in Social Policy and Welfare Practice Steven R. Smith,2022-11-11 This book provides important philosophical insights concerning the kind of creatures we are such that we can experience something we understand as well being with these insights then being applied to various areas of social policy and welfare practice The author defends what he calls The Ontology of Well Being Thesis TOWT addressing ontological questions about the human condition and how these questions are fundamental to issues concerning what we might know about human well being and how we should promote it Yet surprisingly these ontological questions are often side lined in academic political and policy and practice based debates about well being Addressing these questions head on six features of the human condition are identified via TOWT human embodiment finiteness sociability cognition evaluation and agency The main argument of the thesis is that these features reveal the conflicting character of human experiences which can in turn have a profound bearing on our experience of well being Notably it is our conflicting experiences of time emotion and self consciousness which can potentially help us experience well being in complex and multi dimensional ways The author then applies these insights to various social policies and welfare practices concerning for example pensions disability bereavement counselling social prescribing within health settings the promotion of mental health and co production practices This book is of importance to philosophers social policy analysts and welfare practitioners and is also relevant to the fields of psychology sociology politics and the health sciences **Inwardness and Morality** Eric Wolf Fried,2005-01-01 This book reminds us that in inwardness I am in myself It defines our experience in terms of subjectivity private self awareness and complex relationships between interiority and outwardness The book shows that our inwardness need not confine us to narcissistic self absorption but may expand our capacity for richer more sympathetic relations with others **What Matters in Survival** Douglas Ehrling,2021-05-06 This study is about what matters in survival about what relation to a future individual

gives you a reason for prudential concern for that individual For common sense there is such a relation and it is identity but according to Parfit common sense is wrong in this respect Identity is not what matters in survival In What Matters in Survival Douglas Ehring argues that this Parfitian thesis does not go far enough The result is the highly radical view Survival Nihilism according to which nothing matters in survival Although we generally have motivating reasons to have prudential concern and perhaps even indirect normative reasons for such concerns there is no relation that gives you a basic foundational normative reason for prudential concern This view goes beyond what Parfit calls the Extreme View It is the More Extreme View and is in effect something like an error theory about prudential reason as a special kind of normative reason

Chaucerian Ecopoetics Shawn Normandin, 2018-06-12 Chaucerian Ecopoetics performs ecocritical close readings of Geoffrey Chaucer's poetry Shawn Normandin explains how Chaucer's language demystifies the aesthetic charm of his narratives and calls into question the anthropocentrism they often depict This text combines ecocriticism with reading techniques associated with deconstruction to provide innovative interpretations of the General Prologue the Knight's Tale the Miller's Tale the Reeve's Tale the Franklin's Tale the Physician's Tale and the Monk's Tale In stressing the importance of rhetorical nuance and literary form Chaucerian Ecopoetics enables readers to better understand the ideological prehistory of today's environmental crisis

Internal Reasons Kieran Setiya, Hille Paakkunainen, 2011-11-04 A collection of the most important recent work on reasons for action and the question why be moral Some of the most challenging questions in philosophical ethics concern the justification of action Can you have reasons to do something that you are not and perhaps cannot be motivated to do If reasons rest on desires why respect the rights and interests of others when doing so prevents us from getting what we want In other words why be moral In his 1979 essay Internal and External Reasons Bernard Williams framed the dispute about reason and motivation in a way that captured the philosophical imagination An explosion of work on reasons and action followed with influential responses by Christine Korsgaard John McDowell and Michael Smith This volume collects the most important work on the topic including Williams's seminal essay the responses by Korsgaard McDowell and Smith and more recent contributions by central figures Taken together the selections offer a comprehensive survey of state of the art work on internal reasons and a distinctive focused approach to foundational questions of ethical objectivity A substantive introduction by Kieran Setiya skillfully guides the reader through the theoretical and conceptual terrain explaining what is at stake in the larger debate

Personal Identity and Applied Ethics Andrea Sauchelli, 2017-11-10 Soul self substance and person are just four of the terms often used to refer to the human individual Cutting across metaphysics ethics and religion the nature of personal identity is a fundamental and long standing puzzle in philosophy Personal Identity and Applied Ethics introduces and examines different conceptions of the self our nature and personal identity and considers the implications of these for applied ethics A key feature of the book is that it discusses a range of different approaches to personal identity philosophical religious and cross cultural including perspectives from non Western traditions Within this

comparative framework Andrea Sauchelli examines the following topics Early views of the soul in Plato Christianity and Descartes The Buddhist no self views and the self as a fiction Confucian ideas of our nature and the importance of self cultivation as constitutive of the self Locke s theory of personal identity as continuity of consciousness and memory and objections by Butler and Reid as well as contemporary critics The theory of animalism and arguments concerning embodied theories of personal identity Practical and narrative theories of personal identity and moral agency Personal identity and issues in applied ethics including abortion organ transplantation and the idea of life after death Implications of life extending technologies for personal identity Throughout the book Sauchelli also considers the views of important recent philosophers such as Sydney Shoemaker Bernard Williams Derek Parfit Marya Schechtman and Christine Korsgaard placing these in helpful historical context Chapter summaries a glossary of key terms and suggestions for further reading make this a refreshing approachable introduction to personal identity and applied ethics It is an ideal text for courses on personal identity that consider both western and non western approaches and that apply theories of personal identity to ethical problems It will also be of interest to those in related subjects such as religious studies and history of ideas
