Reading Terminal and Market Carol M. Highsmith, James L. Holton, 1994 **Public Markets and Civic Culture in Nineteenth-Century America** Helen Tangires, 2020-03-24 Originally published in 2003 In *Public Markets and Civic Culture in Nineteenth Century America* Helen Tangires examines the role of the public marketplace social and architectural as a key site in the development of civic culture in America More than simply places for buying and selling food Tangires explains municipally owned and operated markets were the common ground where citizens and government struggled to define the shared values of the community Public markets were vital to civic policy and reflected the profound belief in the moral economy the effort on the part of the municipality to maintain the social and political health of its community by regulating the ethics of trade in the urban marketplace for food Tangires begins with the social architectural and regulatory components of the public market in the early republic when cities embraced this ancient system of urban food distribution By midcentury the legalization of butcher shops in New York City and the incorporation of market house companies in Pennsylvania challenged the system and hastened the deregulation of this public service Some cities demolished their marketing facilities or loosened restrictions on the food trades in an effort to deal with the privatization movement However several decades of experience with dispersed retailers suburban slaughterhouses and food transported by railroad proved disastrous to the public welfare prompting cities and federal agencies to reclaim this urban civic space *The Middle-Class City* John Henry Hepp, IV, 2018-06-29 The classic historical interpretation of the late nineteenth and early twentieth centuries in America sees this period as a political search for order by the middle class culminating in Progressive Era reforms In *The Middle Class City* John Hepp examines transformations in everyday middle class life in Philadelphia between 1876 and 1926 to discover the cultural roots of this search for order By looking at complex relationships among members of that city s middle class and three largely bourgeois commercial institutions newspapers department stores and railroads Hepp finds that the men and women of the middle class consistently reordered their world along rational lines According to Hepp this period was rife with evidence of creative reorganization that served to mold middle class life The department store was more than just an expanded dry goods emporium it was a middle class haven of order in the heart of a frenetic city an entirely new way of organizing merchandise for sale Redesigned newspapers brought well ordered news and entertainment to middle class homes and also carried retail advertisements to entice consumers downtown via train and streetcar The complex interiors of urban railroad stations reflected a rationalization of space and rail schedules embodied the modernized specialization of standard time In his fascinating investigation of similar patterns of behavior among commercial institutions Hepp exposes an important intersection between the histories of the city and the middle class In his careful reconstruction of this now vanished culture Hepp examines a wide variety of sources including diaries and memoirs left by middle class women and men of the region Following Philadelphians as they rode trains and trolleys read newspapers and shopped at department

stores he uses their accounts as individualized guidebooks to middle class life in the metropolis And through a creative use of photographs floor plans maps and material culture *The Middle Class City* helps to reconstruct the physical settings of these enterprises and recreate everyday middle class life shedding new light on an underanalyzed historical group and the cultural history of twentieth century America **Public Markets** Helen Tangires,2008-04-08 The accompanying CD ROM contains high quality downloadable TIFF files of all the illustrations Jaquette *Food Justice* Robert Gottlieb,Anupama Joshi,2013-01-25 The story of how the emerging food justice movement is seeking to transform the American food system from seed to table In today s food system farm workers face difficult and hazardous conditions low income neighborhoods lack supermarkets but abound in fast food restaurants and liquor stores food products emphasize convenience rather than wholesomeness and the international reach of American fast food franchises has been a major contributor to an epidemic of globesity To combat these inequities and excesses a movement for food justice has emerged in recent years seeking to transform the food system from seed to table In *Food Justice* Robert Gottlieb and Anupama Joshi tell the story of this emerging movement A food justice framework ensures that the benefits and risks of how food is grown and processed transported distributed and consumed are shared equitably Gottlieb and Joshi recount the history of food injustices and describe current efforts to change the system including community gardens and farmer training in Holyoke Massachusetts youth empowerment through the Rethinkers in New Orleans farm to school programs across the country and the Los Angeles school system s elimination of sugary soft drinks from its cafeterias And they tell how food activism has succeeded at the highest level advocates waged a grassroots campaign that convinced the Obama White House to plant a vegetable garden The first comprehensive inquiry into this emerging movement *Food Justice* addresses the increasing disconnect between food and culture that has resulted from our highly industrialized food system **Railroad History** ,1995 *Farmer Direct Marketing Bibliography 2001* Jennifer-Claire V. Klotz,2001 **Historic Landmarks of Philadelphia** Roger W. Moss,2008-11-18 Architectural historian Moss and photographer Crane set out to celebrate the surviving historic architecture of Philadelphia This lavishly illustrated book celebrates Philadelphia s evolution from a modest mercantile outpost of a colonial power to a world renowned cosmopolitan city **Bibliographies and Literature of Agriculture** ,1978 **Farmer Direct Marketing Bibliography** Jennifer-Claire V. Klotz,1998 *Underground Philadelphia: From Caves and Canals to Tunnels and Transit* Harry Kyriakodis & Joel Spivak,2019 Philadelphia s relationship with the underground is as old as the city itself dating back to when Quaker settlers resided in caves alongside the Delaware River more than three hundred years ago The City of Brotherly Love later became a national and world leader in the delivery of water gas steam and electricity during the industrial age The construction of multiple subway lines within Center City took place during the early twentieth century An intricate subsurface pedestrian concourse was also developed throughout the downtown area for the city s inhabitants From Thirtieth Street Station and Reading Terminal to the Commuter Rail Tunnel

and transit lines that were never built Philadelphia's infrastructure history is buried under the earth as much as above Join authors Harry Kyriakodis and Joel Spivak as they reveal the curious aspects of the Quaker City's underground experience

Prologue, 1996 **The Problem with Feeding Cities** Andrew Deener, 2020-10-10 For most people grocery shopping is a mundane activity Few stop to think about the massive global infrastructure that makes it possible to buy Chilean grapes in a Philadelphia supermarket in the middle of winter Yet every piece of food represents an interlocking system of agriculture manufacturing shipping logistics retailing and nonprofits that controls what we eat or don't The Problem with Feeding Cities is a sociological and historical examination of how this remarkable network of abundance and convenience came into being over the last century It looks at how the US food system transformed from feeding communities to feeding the entire nation and it reveals how a process that was once about fulfilling basic needs became focused on satisfying profit margins It is also a story of how this system fails to feed people especially in the creation of food deserts Andrew Deener shows that problems with food access are the result of infrastructural failings stemming from how markets and cities were developed how distribution systems were built and how organizations coordinate the quality and movement of food He profiles hundreds of people connected through the food chain from farmers wholesalers and supermarket executives to global shippers logistics experts and cold storage operators to food bank employees and public health advocates It is a book that will change the way we see our grocery store trips and will encourage us all to rethink the way we eat in this country **Ethnic Renewal in**

Philadelphia's Chinatown Kathryn Wilson, 2015-04-10 Philadelphia's Chinatown like many urban chinatowns began in the late nineteenth century as a refuge for immigrant laborers and merchants in which to form a community to raise families and conduct business But this enclave for expression identity and community is also the embodiment of historical legacies and personal and collective memories In Ethnic Renewal in Philadelphia's Chinatown Kathryn Wilson charts the unique history of this neighborhood After 1945 a new generation of families began to shape Chinatown's future As plans for urban renewal ranging from a cross town expressway and commuter rail in the 1960s to a downtown baseball stadium in 2000 were proposed and developed Save Chinatown activists rose up and fought for social justice Wilson chronicles the community's efforts to save and renew itself through urban planning territorial claims and culturally specific rebuilding She shows how these efforts led to Chinatown's growth and its continued ability to serve as a living community for subsequent waves of new immigration *Center City: Planning for Growth 2007-2012* , **Subject Guide to Books in Print**, 1991 [Transition](#)

, 1990 **The American City** Alexander Garvin, 2002-06-19 This comprehensive multidisciplinary approach to urban planning and design in America analyzes key projects initiated in 250 U.S. urban areas and details which strategies and programs were successful and which failed New to the Second Edition New sections on stadiums entertainment centers business improvement districts tax credit housing Checklists and tables for field use A review of recent failures and successes This classic reference fully revised for the new millennium provides proven strategies for professionals and
