**Reading for the Plot** Peter Brooks, 1995 *Reading for Plot: design & Intention in Narrative* peter brooks, 1992

**Reading for the Plot** Peter Brooks, 1984 Narrating the Visual in Shakespeare Richard Meek, 2009 This book examines Shakespeare's fascination with the art of narrative and the visuality of language Richard Meek argues that Shakespeare does not simply prioritise drama over other forms of representation Rather Shakespeare repeatedly exploits the int

**Narrative Bodies** D. Punday, 2003-06-13 Although the body has recently emerged throughout the humanities and social sciences as an object revealing the power and limits of representation the study of narrative has almost entirely ignored human corporeality As this book shows attention to the body raises uncomfortable questions about the historicity of basic narrative concepts like character plot and narration questions that critics would often prefer to ignore Daniel Punday argues that narrative itself is a concept constructed by modern day critics based on assumptions about identity desire movement and place that depend on modern ways of thinking about corporeality

*Postmodern Narrative Theory* Mark Currie, 2010-12-09 How have developments in literary and cultural theory transformed our understanding of narrative What has happened to narrative in the wake of poststructuralism What is the role and function of narrative in the contemporary world In this revised updated and expanded new edition of an established text Mark Currie explores these central questions and guides students through the complex theories that have shaped the study of narrative in recent decades Postmodern Narrative Theory Second Edition establishes direct links between the workings of fictional narratives and those of the non fictional world charts the transition in narrative theory from its formalist beginnings through deconstruction towards its current concerns with the social cultural and cognitive uses of narrative explores the relationship between postmodern narrative and postmodern theory more closely presents detailed illustrative readings of known literary texts such as Stevenson's Dr Jekyll and Mr Hyde and Conrad's Heart of Darkness and now features a new chapter on Coetzee's Elizabeth Costello and Slow Man Approachable and stimulating this is an essential introduction for anyone studying postmodernism the theory of narrative or contemporary fiction

Reading Corporeality in Patrick White's Fiction Bridget Grogan, 2019-03-25 In *Reading Corporeality in Patrick White's Fiction* An Abject Dictatorship of the Flesh Bridget Grogan combines theoretical explication textual comparison and close reading to argue that corporeality is central to Patrick White's fiction shaping the characterization style narrative trajectories and implicit philosophy of his novels and short stories Critics have often identified a radical disgust at play in White's writing claiming that it arises from a defining dualism that posits the purity of the disembodied spirit in relation to the pollution of the material world Grogan argues convincingly however that White's fiction is far more complex in its approach to the body Modeling ways in which Kristevan theory may be applied to modern

fiction her close attention to White's recurring interest in physicality and abjection draws attention to his complex questioning of metaphysics and subjectivity thereby providing a fresh and compelling reading of this important world author

**Great Expectations - Charles Dickens** Harold Bloom, 2009 Possibly Dickens's greatest novelistic achievement

**Qualitative Health Psychology** Michael Murray, Kerry Chamberlain, 1999-03-19 This book constitutes a valuable resource for postgraduate students and researchers. Most of the chapters succeed in providing a clear and comprehensive introduction to the various approaches and/or methods thus enabling the reader to make an informed decision about whether or not they wish to pursue the topic further. The book as a whole is also very well referenced and this makes it a source of essential information for students and researchers with an interest in qualitative health psychology. Health Psychology Update This book explains the role of qualitative research within health psychology. Theories and methods from a qualitative perspective are highly varied but in general differ from the positivist approach which is concerned with quantifying the individual risk factors presumed to cause health and illness behaviour. This book shows clearly how a qualitative approach offers a better understanding of the experience of illness while locating it in its broader social context. Providing a detailed examination of these issues, the book is organized into three sections: the first considers some of the main theoretical perspectives underlying qualitative research in health psychology including discourse analysis and narrative as well as the social context and embodiment of health and illness; the second examines some of the practical issues involved in conducting qualitative research with different populations such as children and the terminally ill; and the final section considers a range of analytic issues and specific analytic approaches such as grounded theory and action research and the evaluation of qualitative methods.

*Paul de Man* Martin McQuillan, 2001-01-25 Paul de Man's work is key to the American deconstruction movement and to the so-called political turn in critical theory. Seventeen years after his death, his works continue to arouse violent reactions among critics. This book explains why de Man is such an important voice, detailing his critical position, exploring his intellectual and historical contexts, tracing the influence of his work, and enabling readers to undertake independent study of his criticism.

**Balzac** Michael Tilby, 2017-07-28 This canon of French literature, Honoré de Balzac (1799-1850), is also a major European figure in the development of realism. His work is dominated by an interrelated sequence of novels and short stories, *La Comédie Humaine*, which charts the idiosyncrasies of French society from the beginning of the nineteenth century to the 1840s. Among the most famous of these are *Le Père Goriot* and *La Cousine Bette*. In this study, Dr Tilby concentrates on the main approaches in practice and discusses some of the earliest responses to Balzac's work. His introduction and headnotes set Balzac's work in context. This book will be of interest to students of French language and literature and also to those studying French in combined studies or humanities courses.

Trauma and Transcendence in Early Qing Literature Wilt L. Idema, Wai-yee Li, Ellen Widmer, 2020-03-17 The collapse of the Ming dynasty and the Manchu conquest of China were traumatic experiences for Chinese intellectuals not only because of the many

decades of destructive warfare but also because of the adjustments necessary to life under a foreign regime History became a defining subject in their writings and it went on shaping literary production in succeeding generations as the Ming continued to be remembered re imagined and refigured on new terms The twelve chapters in this volume and the introductory essays on early Qing poetry prose and drama understand the writings of this era wholly or in part as attempts to recover from or transcend the trauma of the transition years By the end of the seventeenth century the sense of trauma had diminished and a mood of accommodation had taken hold Varying shades of lament or reconciliation critical or nostalgic retrospection on the Ming and rejection or acceptance of the new order distinguish the many voices in these writings

**Narrative Theory: Political narratology** Mieke Bal, 2004 Finding the Plot Loïc Artiago, Diana Holmes, David Platten, 2014-08-11 Plot writes Peter Brooks is so basic to our very experience of reading and indeed to our articulation of experience in general that criticism has often passed it over in silence Reading for the Plot xi Finding the Plot both explores and helps to redress this critical neglect The book brings together an international group of scholars to address the nature effects and specific pleasures of consuming stories If the central focus is on France and popular literary fiction the book's scope like contemporary fiction itself observes no national frontiers and extends across a variety of media The book addresses both the empirical question of which genres and types of text have been and are most popular and the theoretical questions of how plots work what pleasures they offer to readers and why it matters that the plot should not be lost

**Dante's Masterplot and Alternative Narratives in the Commedia** Nicolò Crisafi, 2022 Alongside traditional notions of Dante's trademark plurality of linguistic registers and styles this book argues that his narrative pluralism can and should play a key role in contemporary and future readings of the Commedia *Thecla's Devotion* J.D. McLarty, 2018-01-01 Thecla's Devotion studies plot and character within the Thekla episode of the Acts of Paul reading the text against contemporary pagan romance in order to explore Christian identity formation *Encyclopedia of Rhetoric and Composition* Theresa Enos, 2013-10-08 First Published in 1996 Routledge is an imprint of Taylor Francis an informa company *After Intimacy* Karl Leydecker, Nicholas White, 2007 Divorce is a conspicuous character trait of modernity commonly portrayed in texts and on screen with its moral and social rationalisation firmly rooted in Enlightenment and Romantic thought The aim of this volume is to bring into focus this contemporary cultural fascination by assembling the variety of academic responses it has started to create Bringing together the reflections of scholars from the UK and North America who have worked in this domain this study offers for the first time a genuinely wide ranging account of the depiction of divorce across the northern hemisphere in a number of media fiction journalism film and television It reaches historically from the intellectual and legal aftermath of the Enlightenment right up to the present day As such the collection shows both the roots of this apparently contemporary phenomenon in nineteenth century literary practice and the very particular ways in which divorce characterises the different narrative media of modernity *Routledge Encyclopedia of Narrative Theory* David

Herman, Manfred Jahn, Marie-Laure Ryan, 2010-06-10 The past several decades have seen an explosion of interest in narrative with this multifaceted object of inquiry becoming a central concern in a wide range of disciplinary fields and research contexts As accounts of what happened to particular people in particular circumstances and with specific consequences stories have come to be viewed as a basic human strategy for coming to terms with time process and change However the very predominance of narrative as a focus of interest across multiple disciplines makes it imperative for scholars teachers and students to have access to a comprehensive reference resource
