Stotsky, 2012-06-14 This book is addressed to teachers who know that the secondary literature curriculum in our public

schools is in shambles Unless experienced and well read English teachers can develop coherent and increasingly demanding literature curricula in their schools average high school students will remain at about the fifth or sixth grade reading level where they now are to judge from several independent sources This book seeks to challenge education policy makers test developers and educators who discourage the assignment of appropriately difficult works to high school students and make construction of a coherent literature curriculum impossible It first traces the history of the literature curriculum in our middle schools and high schools and shows how it has been diminished and distorted in the past half century It then offers examples of coherent literature curricula and spells out the cognitive principles upon which coherence is based Finally it suggests what English teachers in our public schools could do to develop a literature curriculum that gives all their students an adequate basis for participation in an English speaking civic culture

Integrating Values with Communication Arts , The Early Reader in Children's Literature and Culture Jennifer Miskec, Annette Wannamaker, 2015-12-22 This is the first volume to consider the popular literary category of Early Readers books written and designed for children who are just beginning to read independently It argues that Early Readers deserve more scholarly attention and careful thought because they are for many younger readers their first opportunity to engage with a work of literature on their own to feel a sense of mastery over a text and to experience pleasure from the act of reading independently Using interdisciplinary approaches that draw upon and synthesize research being done in education child psychology sociology cultural studies and children's literature the volume visits Early Readers from a variety of angles as

teaching tools as cultural artifacts that shape cultural and individual subjectivity as mass produced products sold to a niche market of parents educators and young children and as aesthetic objects works of literature and art with specific conventions Examining the reasons such books are so popular with young readers as well as the reasons that some adults challenge and censor them the volume considers the ways Early Readers contribute to the construction of younger children as readers thinkers consumers and as gendered raced classed subjects It also addresses children s texts that have been translated and sold around the globe examining them as part of an increasingly transnational children s media culture that may add to or supplant regional ethnic and national children s literatures and cultures While this collection focuses mostly on books written in English and often aimed at children living in the US it is important to acknowledge that these Early Readers are a major US cultural export influencing the reading habits and development of children across the globe
