**Reading the Classics and *Paradise Lost*** William Malin Porter, 1993-01-01 Milton's early commentators Henry Todd Thomas Newton Joseph Addison and others not only knew their classics well they took them seriously as models of literary excellence and repositories of values In the twentieth century however the classics have become mere background As a consequence William M Porter argues not only is the foundational dimension of Milton's poetry now hardly visible even to scholars but the potential of Milton's poetry to revitalize the reading of the classics has been diminished In this insightful study Porter attempts once again to read both the classics and Milton's epic poem sensitively and intelligently He exposes the recklessly speculative and tendentious character of much earlier work on Milton's allusions in which allusions were promiscuously posited and in which *Paradise Lost* was too often regarded naively as triumphing over the classics Porter demonstrates that Milton's allusions in which allusions to the classics while fewer than has been supposed are rich with wit irony and thought that can be grasped only by a reader with a double perspective     *Reading the Written Image* Christopher Collins, 2011-04-30 *Reading the Written Image* is a study of the imagination as it is prompted by the verbal cues of literature Since every literary image is also a mental image a representation of an absent entity Collins contends that imagination is a poesis a making up an act of play for both author and reader The willing suspension of disbelief which Coleridge said constitutes poetic faith therefore empowers and directs the reader to construct an imagined world in which particular hypotheses are proposed and demonstrated Although the imagination as a central concept in poetics emerges into critical debate only in the eighteenth century it has been a crucial issue for over two millennia in religious philosophical and political discourse The two recognized alternative methodologies in the study of literature the poetic and the hermeneutic are opposed on the issue of the written image poets and readers feel free to imagine while hermeneuts feel obliged to specify the meanings of images and failing that to minimize the importance of imagery Recognizing this problem Collins proposes that

reading written texts be regarded as a performance a unique kind of play that transposes what had once been an oral dramatic situation onto an inner imaginary stage He applies models drawn from the psychology of play to support his theory that reader response is essentially a poietic response to a rule governed set of ludic cues      **Wordsworth's Reading**
