Perry, 2023-09-06 The world cries out for ethical leaders We expect the best but we are often left profoundly disappointed While leadership programs may feature ethics as part of their curriculum the approach is often either simplistic or overly esoteric This second edition addresses this scarcity of resources for training ethical leaders providing a primer of several ethical frameworks accompanied by extended examples to help inform decision making It also addresses several leadership models that claim an ethical component The new edition also includes new chapters on the ethics of care and toxic leadership and new case studies for all chapters By providing a consistent case analysis based on the Five Components of Leadership Model readers benefit from a comprehensive approach to understanding ethical leadership

Religious Studies Scholars as Public Intellectuals Sabrina D. MisirHiralall, Christopher L. Fici, Gerald S. Vigna, 2018-06-13 The prominence of religion in recent debates around politics identity formation and international terrorism has led to an increased demand on those studying religion to help clarify and contextualise religious belief and practice in the public sphere While many texts focus on the theoretical development of the subject this book outlines a wider application of these studies by exploring the role of religious studies scholars and theologians as public intellectuals This collection of essays first seeks to define exactly what makes an intellectual public It then goes on to deal with a few questions of concern How do public intellectuals construct knowledge in religious and theological scholarship What is the link between public intellectuals of higher education and their role in society Do higher education institutions have a responsibility to endorse public intellectualism Looking at the individual and collective role of religious studies scholars and theologians in public life this book will be of great interest to all scholars and academics involved in religious studies and theology across the academy

Intercultural Readings of the Cassirer-Heidegger Debate** ,2023-12-28 What does it mean to be human We invite the reader to discuss this most fundamental issue in philosophy and to do so in an intercultural framework The question of the human was the starting point for a legendary discussion between two German philosophers who met in Davos in 1929 We return to this historical event and re imagine the debate between Martin Heidegger and Ernst Cassirer from a global perspective Generating twenty papers from elaborate discussions our authors contribute to the thought experiment by inviting the Japanese philosopher Nishida Kitar from Kyoto and other Japanese thinkers into the debate to overcome the challenge of Eurocentrism inherent to these historic days in Davos **Death, Contemplation and Schopenhauer** R. Raj Singh,2016-05-13 The connections between death contemplation and the contemplative life have been a recurrent theme in the canons of both western and eastern philosophical thought This book examines the classical sources of this philosophical literature in particular Plato s *Phaedo* and the *Katha Upanishad* and then proceeds to a sustained analysis and critical assessment of the sources and standpoints of a single thinker Arthur Schopenhauer whose work comprehensively pursues this problem Going beyond the well examined western influences on Schopenhauer Singh offers an in depth account of Schopenhauer s references to eastern thought and a comprehensive examination of his eastern sources particularly Vedanta and Buddhism The book traces the pivotal issue of death through the whole range of Schopenhauer s writings uncovering the deeper connotations of his crucial notion of the will to live **History of Islamic Philosophy** Oliver Leaman,Seyyed Hossein Nasr,2020-08-17 Islamic philosophy has often been treated as being largely of historical interest belonging to the history of ideas rather than to philosophical study This volume successfully overturns that view Emphasizing the living nature and rich diversity of the subject it examines the main thinkers and schools of thought discusses the key concepts of Islamic philosophy and covers a vast geographical area This indispensable reference tool includes a comprehensive bibliography and an extensive index **Readings in Ethics** Louis F.
