Psychology of Women Book Series

Juanita H. Williams,1979 *Reading from the Underside of Selfhood* Lisa E. Dahill,2009-01-01 Dietrich Bonhoeffer s example of self sacrificing discipleship has for over fifty years inspired Christians around the world in both their resistance to evil and their devotion to Jesus Christ Yet for some readers particularly those who suffer trauma abuse and other forms of violence Bonhoeffer s insistence on self sacrifice on becoming a person for others may prove more harmful than liberating For those already socialized into self abnegation uncritical applications of Bonhoeffer s teachings may reinforce submission rather than resistance to evil This study explores Bonhoeffer s understandings of selfhood and spiritual formation both in his

own experience and writings and in light of the role of gender in psycho spiritual development The central constructive chapter creates a mediated conversation between Bonhoeffer and these feminist psychologists on the spiritual formation of survivors of trauma and abuse including not only dimensions of his thinking to be critiqued from this perspective but also important resources he contributes toward a truly liberating Christian spirituality for those on the underside of selfhood The book concludes with suggestions regarding the broader relevance of this study and implications for ministry The insights for spiritual formation developed here provide powerful proof of Bonhoeffer s continuing and concretely contextualized relevance for readers across the full spectrum of human selfhood

Readings in the Psychology of Gender Anne E. Hunter, Carie Forden, 2002 Though most research in the psychology of gender highlights the differences between females and males this supplementary collection of readings also investigates how they are alike With the aim of providing an accurate picture of gender the authors have culled readings that not only explore commonalities between females and males but also probe the unique ways that people of different races ethnicities social classes and sexual orientations experience gender The result is a model that views gender in terms of thinking feeling and behaving as the result of a complex interplay among biological psychological social and cultural processes Readings in the Canon of Scripture David Jasper, 2009-06-23 Canonical criticism is not a recognized branch of biblical studies granting new focus to questions of the authority and truth of the scriptural writings Developed within a critical sense of the dominant historical critical tone of biblical studies canonical criticism as it has been pursued by the American scholars Brevard S Childs and James A Sanders stands as witness to the theological necessity of a more literary approach to the Bible This book both criticizes the canonical enterprise and takes it much further into readings of the canon from the perspective not only of literature but also art and in particular the biblical art of Rembrandt In addition it remains acutely conscious of the contemporary environment of our reading within the political concerns of feminist criticism popular absorption in film and the narratives of the screen and finally the crisis or crises which characterize the so called postmodern condition What emerges is at once highly critical of traditional strategies of canonization and at the same time constructive and concerned to recover the Bible for our own time in readings which move outside the limited academic concerns of the biblical critic or the institutions of the church and religious community **Indian Writings on Education, 1979-1986** S.
