Reading the Middle Ages Volume II Barbara H. Rosenwein, 2018-05-03 The third edition of Reading the Middle Ages retains the strengths of previous editions: thematic and geographical diversity, clear and informative introductions, and close integration with A Short History of the Middle Ages, and adds significant new materials, especially on the Byzantine and Islamic worlds and the Mediterranean region. This volume spans the period c 900 to c 1500. The stunning Reading through Looking color insert, which showcases medieval artifacts, has been expanded to include essays on weapons and warfare by medievalist Riccardo Cristiani. New maps, timelines, and genealogies aid readers in following knotty but revealing sources. On the History Matters website www.utphistorymatters.com, students have access to hundreds of Questions for Reflection.

Later Medieval Europe Daniel Waley, Peter Denley, 2013-11-26 From the divine right of kings to the political philosophies of writers such as Machiavelli, the medieval city states to the unification of Spain, Daniel Waley and Peter Denley focus on the growing power of the state to illuminate changing political ideas in Europe between the thirteenth and sixteenth centuries. Spanning the entire continent and beyond, and using contemporary voices wherever possible, the authors include substantial sections on economics, religion, and art, and how developments in these areas fed into and were influenced by the transformation of political thinking. The

new edition takes the narrative beyond the confines of western Europe with chapters on East Central Europe and the teutonic knights and the Portuguese expansion across the Atlantic The third edition of this classic introduction to the period includes even greater use of contemporary voices full reading lists and new chapters on East Central Europe and Portuguese exploration Suitable as an introductory text for undergraduate courses in Medieval Studies and Medieval European History

The Future of Blasphemy Austin Dacey, 2012-01-26 In the days of Moses blasphemy was the mortal offence of failing to respect the divine In an age of human rights blasphemy is understood as a failure to respect persons as insult defamation or advocacy of religious hatred The criminalisation of this personal blasphemy has been advanced at the United Nations and upheld by the European Court of Human Rights which has asserted a universal right to respect for religious feelings The Future of Blasphemy turns respect on its head Respect demands that we grant each other equal standing in the moral community not that we never offend Politically respect for citizens requires a public discourse that is open to all viewpoints Going beyond the question of free speech versus religion The Future of Blasphemy defends an ethical model of blasphemy Controversies surrounding sacrilege are contests over what counts as sacred disagreements about what has central inviolable and incommensurable value In such public contestation of the sacred each of us secular and religious alike has equal right to speak on its behalf

Ecological Ethics and the Philosophy of Simone Weil Kathryn Lawson,2024-05-13 This book places the philosophy of Simone Weil into conversation with contemporary environmental concerns in the Anthropocene The book offers a systematic interpretation of Simone Weil making her ethical philosophy more accessible to non Weil scholars Weil s work has been influential in many fields including politically and theologically based critiques of social inequalities and suffering but rarely linked to ecology Kathryn Lawson argues that Weil s work can be understood as offering a coherent approach with potentially widespread appeal applicable to our ethical relations to much more than just other human beings She suggests that the process of decreation in Weil is an expansion of the self which might also come to include the surrounding earth and a vast assemblage of others This allows readers to consider what it means to be human in this time and place and to contemplate our ethical responsibilities both to other humans and also to the more than human world Ultimately the book uses Weil s thought to decenter the human being by cultivating human actions towards an ecological ethics This book will be useful for Simone Weil scholars and academics as well as students and researchers interested in environmental ethics in departments of comparative literature theory and criticism philosophy and environmental studies For further discussion on the book please check out the following podcast and book launch links below <https://youtu.be/oOUEeSiMrh8> https://youtu.be/sLc1jIw_CW8 https://youtu.be/xQPeW4iK_8vC3pnA <https://youtu.be/jf12ZVRr3oY> <https://youtu.be/z7Z9xRdEn8fhaMGY> <https://youtu.be/eLXDpKrQHd8E6SFU>

Love and anti-Judaism in medieval English romance Hope Doherty-Harrison,2025-09-02 Love and anti Judaism is a new examination of medieval romance for the questions it poses of the most significant events in Christian history Providing new readings of Sir Gawain and the Green Knight Sir Orfeo Sir Gowther and Sir Amadace the book argues that romance explores depictions of love and the sacrifices it may necessitate in the Hebrew Bible especially where they do not easily fit into interpretations asserting that this history must prefigure Christ and the crucifixion An examination of anti Judaism as a discourse of violence and desire that could be turned inwardly to expose the irresolution in Christianity this book will provoke new investigations into the religious crises of medieval romance

Living Together, Living Apart Jonathan Elukin,2024-11-01 This historical study of Jewish life in Medieval Europe provides a much needed corrective to the popular notion of constant persecution Ivan G Marcus Yale University In Living Together Living Apart Jonathan Elukin traces the

experience of Jews in Europe from late antiquity through the Renaissance and Reformation revealing how the pluralism of medieval society allowed Jews to feel part of their local communities despite recurrent expressions of hatred against them Elukin shows that Jews and Christians coexisted more or less peacefully for much of the Middle Ages and that antisemitic violence was largely isolated He reveals an extraordinary picture of Jews living comfortably among their Christian neighbors working with them and occasionally cultivating lasting friendships even as Christian culture often demonized Jews As Elukin makes clear the expulsions of Jews from England France Spain and elsewhere were not the inevitable culmination of persecution but arose from the religious and political expedencies of particular rulers He demonstrates that the history of successful Jewish Christian interaction in the Middle Ages in fact laid the social foundations that gave rise to the Jewish communities of modern Europe

The Modernization of the Western World John McGrath, Kathleen Callanan Martin, 2024-08-01 Covering Western history from the ancient world to the current era of globalization The Modernization of the Western World describes the forces of social change and what they have meant to the lives of the people caught up in them The volume presents the history of Western civilization from a historical sociology perspective introducing readers to the analyses of thinkers like mile Durkheim Karl Marx Adam Smith Ferdinand T nnies and Max Weber in order to provide tools for understanding how societies function and change This application of modernization theory argues not that what has happened in the West should or even must happen in non Western societies but that understanding modernization as a process of social change affords a better understanding of why and how life has changed over the past millennium The interactions of Western and non Western societies have had a profound effect on each other this is the story of the development of a truly global economy This new edition has been updated to include a final chapter which addresses recent developments economic disturbances in the global marketplace cyberwarfare and the rise of populist movements testing the relevance of classic modernization theory for today Featuring a glossary maps and illustrations boxed features and an extensive index this book will be of particular interest to students looking to understand world history as well as those interested in historical sociology and modernization theory

Cities and Solidarities Justin Colson,Arie van Steensel,2017-01-06 Cities and Solidarities charts the ways in which the study of individuals and places can revitalise our understanding of urban communities as dynamic interconnections of solidarities in medieval and early modern Europe This volume sheds new light on the socio economic conditions the formal and informal institutions and the strategies of individual town dwellers that explain the similarities and differences in the organisation and functioning of urban communities in pre modern Europe It considers how communities within cities and towns are constructed and reconstructed how interactions amongst members of differing groups created social and economic institutions and how urban communities reflected a sense of social cohesion In answering these questions the contributions combine theoretical frameworks with new digital methodologies in order to provoke further discussion into the fundamental nature of urban society in this key period of change The essays in this collection demonstrate the complexities of urban societies in pre modern Europe and will make fascinating reading for students and scholars of medieval and early modern urban history

Gower's Vulgar Tongue T. Matthew N. McCabe,2011 After establishing his reputation as a literary author by means of his French and Latin verse Gower came to recognise the possibilities which English held for serious poetry in the 1380s This book gives sustained attention to the implications of this language choice for the form readership religious position and lay authority of his best known work the Confessio Amantis The author argues that in all of his moral political theological writings Gower s stance as a satirist and publicist is more markedly lay and more rhetorically momentous for reasons associated with this lay status than is generally thought But during the 1380s the conditions for writing lay public poetry in English made the Confessio a truly remarkable feat for Gower and for English poetry
