Vols for 1980 issued in three parts Series Authors and Titles **The Making of Singapore Sociology** Tong Chee-Kiong, Lian Kwen-Fee, 2021-11-08 This book presents a collection of essays of how the city state of Singapore's societal dynamics have evolved from the time of its birth as a nation in 1965 to the present Key areas of Singapore society are explored contributing to the understanding of the social organisation of the city This study reveals a shift from the modernisation studies in the 1970s to a more political economic turn as a consequence of the influence of dependency and world systems theories Topics covered include urban studies family education medical care class and social stratification work language ethnic groups religion and crime and deviance **On the Economic Identification of Social Classes**

Guglielmo Carchedi, 2023-02-15 First published in 1977 On the Economic Identification of Social Classes centres around the economic identification the definition in terms of production relations of social classes focussing on the developed capitalist countries The basic stages of capitalist development are considered with special emphasis on monopoly capitalism The book includes a detailed analysis of the functional element of the capitalist production relations the identification in terms of production and distribution relations of the new middle class under monopoly capitalism and the analysis of the process of proletarianism of this class New theoretical concepts of position devaluation of labour power through dequalification of positions and of capitalist and non capitalist state activities are developed to further the discussions which although fresh in approach are immersed in the complex texture of Marxist thought This book will be of interest to students of economics and sociology The Sociology of Industry Richard Brown, John Child, Dr S R Parker, 2005-08-02 This book provides an excellent

introduction to the sociology of industry It comprises of three sections which in turn address the relation between industry and other sub systems or institutions in society the internal structure of industry and the roles people play within that structure the social actions of individuals and groups within an organisational structure It is an excellent resource for students of sociology who have an interest in its application to the world of work *The Theories of Talcott Parsons* Stephen P. Turner,Robert J. Holton,2014-08-27 In this remarkable collection of essays Holton and Turner demonstrate that Parsonian sociology addresses the most central problems of our time issues of sickness and health power and inequality the nature of capitalism and its possible alternatives They develop a mature and original perspective on Parsons as the only classical theorist who avoided crippling nostalgia Holton and Turner not only talk about Parsonian sociology in a profound and insightful way they do it and do it well As sociology moves away from the rigid dichotomies of earlier debate this book will help point the way Jeffrey Alexander Professor and Director of Graduate Studies in Sociology UCLA Ideology and Social Order Eric Carlton,2014-08-13 Truly interdisciplinary work between Sociology and History is are because one discipline usually exploits the concerns or data of the other Eric Carlton however has succeeded in bringing together the distinctive orientations of sociology and ancient history into a clearly written discussion of concerns crucial to both disciplines Based on a comparative analysis of two pre industrial civilisations those of Ancient Egypt and Classical Athens the study is primarily concerned with three issues The first is the relationship between belief and action does belief intellectualised as ideology affect or determine social behaviour Second the author examines the ways in which belief contributes to stability and good order in society and asks to what extent such factors as social status and social change are related to institutionalised mechanisms of social control Finally he indicates possible sociological frameworks or models which are ideological rather than stratificatory whereby complex pre industrial systems might be analysed By analysing the societies of Ancient Egypt and Classical Athens in institutional terms Eric Carlton examines the potency and pervasiveness of the ideological factor and shows that it is a persistent and determinative feature of this type of society *A Critical Dictionary of Sociology* Raymond Boudon,Francois Bourricaud,2002-09-10 Unlike most other sociology or social science

dictionaries in this translation of the Critical Dictionary of Sociology taken from the second French edition of the Dictionary and edited by the English sociologist Peter Hamilton the critical value of this distinctive work is at last made available for a wider audience Each entry grapples directly with an issue whether theoretical epistemological philosophical political or empirical and provides a strong statement of what the authors think about it The discussions are considered but argumentative By reaffirming that a non marxist style of critique is still possible Boudon and Bourricaud have presented a distinctive approach to the key issues which confront the societies of the Twentieth and Twenty First centuries For some this work will be a textbook for others an indispensable sourcebook of sociological concepts and for most a way of opening our eyes to new dimensions in our understanding of the great ideas and theories of sociology
