T. Sattoe, AnneLoes van Staa, Sander R. Hilberink, 2021-01-28 This book focuses on young people 12-25 years old growing up with a chronic somatic condition and or physical disability facing different challenges during their transition to adulthood and to adult healthcare services Becoming an adult often proves extra challenging for them because the adaptive tasks related to living with a chronic condition can clash with developmental milestones Finding a good balance and integrating these tasks in daily life is also referred to as self management This book addresses self management

and empowerment of young people with chronic conditions as well as the Positive Youth Development concept. It elaborates on theories and approaches and offers a complete overview of self management interventions for young people with chronic conditions emphasizing on the tasks of medical emotion and role management. It also elaborates on the roles and tasks of professionals as well as the patient provider relationship, the shifting roles between young people and their parents and the role of peer support. This book is unique in its broad view on self management i.e. it goes beyond medical management and focuses on young people achieving their maximum potential and a good quality of life. Furthermore, the book employs a positive youth development approach focusing on empowerment and growth rather than problems or issues. It offers an overview of the state of the art and evidence concerning self management support for young people with various chronic conditions. As such, it is of benefit for all healthcare professionals working in care for young people but also for researchers interested in this topic.

*White Heat* Dominic Sandbrook, 2015-02-05. An active pleasure to read. Mail on Sunday. Harold Wilson's famous reference to white heat captured the optimistic spirit of a society in the midst of breathtaking change. From the gaudy pleasures of Swinging London to the tragic bloodshed in Northern Ireland, from the intrigues of Westminster to the drama of the World Cup, British life seemed to have taken on a dramatic new momentum. The memories, images and colourful personalities of those heady times still resonate today: mop tops and mini skirts, strikes and demonstrations, Carnaby Street and Kings Road. Harold Wilson and Edward Heath, Mary Quant and Jean Shrimpton, Enoch Powell and Mary Whitehouse, Marianne Faithfull and Mick Jagger. In this wonderfully rich and readable historical narrative, Dominic Sandbrook looks behind the myths of the Swinging Sixties to unearth the contradictions of a society caught between optimism and decline.

Python Hanumanth Ladwa, Python      **The Soul Stylists** Paolo Hewitt, 2011-05-06. The Soul Stylists is about six decades of Modernism and a highly influential world of clothes and music but one deliberately hidden away for years from the mainstream media. This book explores the enduring relationship that exists between American black music and British working class style, tracing a Mod tradition that began in Soho just after the Second World War and continues to this day. From Mod to Casual, from Skinhead to Northern Souler, the soul stylists are an amazing family joined together by a tradition of secrecy, exclusivity and absolute indifference towards the outside world. They pass unnoticed because soul stylists always shun the spotlight. To them, attention to detail is far more important than attention seeking. And here in this book, for the very first time, are some of their stories.
