House Of Mirth Janet Beer, Pamela Knights, Elizabeth Nolan, 2007-07-25 Edith Wharton's *The House of Mirth* 1905 is a sharp and satirical but also sensitive and tragic analysis of a young single woman trying to find her place in a materialistic and unforgiving society. *The House of Mirth* offers a fascinating insight into the culture of the time and as suggested by the success of recent film adaptations it is also an enduring tale of love, ambition, and social pressures still relevant today. Part of the Routledge Guides to Literature series, this volume is essential reading for all those beginning detailed study of *The House of Mirth* and seeking not only a guide to the novel but a way through the wealth of contextual and critical material that surrounds Wharton's text.

Graphic Design Donna Reynolds, 2017-07-15 Although graphic design is all around us, we rarely take time to notice and appreciate it. Advertisements, logos, websites, and more all rely on graphic design to create eye-catching content. This volume explores the skills artists need to produce aesthetically pleasing designs and the development of this field into the major industry it is today. Information is included for readers who are interested in pursuing graphic design as a career, and striking photographs display some of the most innovative examples of this prominent medium.

The Corporate Eye Elspeth H. Brown, 2008-03 Winner Association of American Publishers Professional and Scholarly Publishing Award in Business Management and Accounting. In the late nineteenth century, corporate managers began to rely on photography for everything from motion studies to employee selection to advertising. This practice gave rise to many features of modern industry familiar to us today: consulting, scientific approaches to business practice, illustrated advertising, and the use of applied psychology. In this imaginative study, Elspeth H. Brown examines the intersection of photography as a mass technology with corporate concerns about efficiency in the Progressive period. Discussing among others the work of Frederick W. Taylor, Eadweard Muybridge, Frank Gilbreth, and Lewis Hine, Brown explores this intersection through a variety of examples, including racial discrimination in hiring, the problem of photographic realism, and the gendered assumptions at work in the origins of modern marketing. She concludes that the goal uniting the various forms and applications of photographic production in that era was the increased rationalization of the modern economy through a set of interlocking managerial innovations, technologies that sought to redesign not only industrial production but the modern subject as well.

The Girl on the Magazine Cover Carolyn Kitch, 2009-11-15 From the Gibson Girl to the flapper, from the

vamp to the New Woman Carolyn Kitch traces mass media images of women to their historical roots on magazine covers unveiling the origins of gender stereotypes in early twentieth century American culture Kitch examines the years from 1895 to 1930 as a time when the first wave of feminism intersected with the rise of new technologies and media for the reproduction and dissemination of visual images Access to suffrage higher education the professions and contraception broadened women s opportunities but the images found on magazine covers emphasized the role of women as consumers suffrage was reduced to spending sexuality to sexiness and a collective women s movement to individual choices of personal style In the 1920s Kitch argues the political prominence of the New Woman dissipated but her visual image pervaded print media With seventy five photographs of cover art by the era s most popular illustrators *The Girl on the Magazine Cover* shows how these images created a visual vocabulary for understanding femininity and masculinity as well as class status Through this iconic process magazines helped set cultural norms for women for men and for what it meant to be an American Kitch contends **Ashcan Art, Whiteness, and the Unspectacular Man** Alexis L. Boylan, 2017-04-20 Arriving in New York City in the first decade of the twentieth century six painters Robert Henri John Sloan Everett Shinn Glackens George Luks and George Bellows subsequently known as the Ashcan Circle faced a visual culture that depicted the urban man as a diseased body under assault Ashcan artists countered this narrative manipulating the bodies of construction workers tramps entertainers and office workers to stand in visual opposition to popular political and commercial cultures They did so by repeatedly positioning white male bodies as having no cleverness no moral authority no style and no particular charisma crafting with consistency an unspectacular man This was an attempt both radical and deeply insidious to make the white male body stand outside visual systems of knowledge to resist the disciplining powers of commercial capitalism and to simply be with no justification or rationale Ashcan Art Whiteness and the Unspectacular Man maps how Ashcan artists reconfigured urban masculinity for national audiences and reimagined the possibility and privilege of the unremarkable white male body thus shaping dialogues about modernity gender and race that shifted visual culture in the United States Life ,1894

Beyond the Gibson Girl Martha H. Patterson, 2010-10-01 Challenging monolithic images of the New Woman as white well educated and politically progressive this study focuses on important regional ethnic and sociopolitical differences in the use of the New Woman trope at the turn of the twentieth century Using Charles Dana Gibson s Gibson Girls as a point of departure Martha H Patterson explores how writers such as Pauline Hopkins Margaret Murray Washington Sui Sin Far Mary Johnston Edith Wharton Ellen Glasgow and Willa Cather challenged and redeployed the New Woman image in light of other new conceptions the New Negro Woman the New Ethics the New South and the New China As she appears in these writers works the New Woman both promises and threatens to effect sociopolitical change as a consumer an instigator of evolutionary and economic development and for writers of color an icon of successful assimilation into dominant Anglo American culture Examining a diverse array of cultural products Patterson shows how the seemingly celebratory term of the

New Woman becomes a trope not only of progressive reform consumer power transgressive femininity modern energy and modern cure but also of racial and ethnic taxonomies social Darwinist struggle imperialist ambition assimilationist pressures and modern decay **Life** John Ames Mitchell, 1894 Clothing and Fashion José Blanco F., Patricia Kay

Hunt-Hurst, Heather Vaughan Lee, Mary Doering, 2015-11-23 This unique four volume encyclopedia examines the historical significance of fashion trends revealing the social and cultural connections of clothing from the precolonial times to the present day This sweeping overview of fashion and apparel covers several centuries of American history as seen through the lens of the clothes we wear from the Native American moccasin to Manolo Blahnik's contribution to stiletto heels Through four detailed volumes this work delves into what people wore in various periods in our country's past and why from hand crafted family garments in the 1600s to the rough clothing of slaves to the sophisticated textile designs of the 21st century More than 100 fashion experts and clothing historians pay tribute to the most notable garments accessories and people comprising design and fashion The four volumes contain more than 800 alphabetical entries with each volume representing a different era Content includes fascinating information such as that beginning in 1619 through 1654 every man in Virginia was required to plant a number of mulberry trees to support the silk industry in England what is known about the clothing of enslaved African Americans and that there were regulations placed on clothing design during World War II The set also includes color inserts that better communicate the visual impact of clothing and fashion across eras **Embracing the**

East Mari Yoshihara, 2002-12-12 As exemplified by Madame Butterfly East West relations have often been expressed as the relations between the masculine dominant West and the feminine submissive East Yet this binary model does not account for the important role of white women in the construction of Orientalism Mari Yoshihara's study examines a wide range of white women who were attracted to Japan and China in the late nineteenth and early twentieth century and shows how through their engagement with Asia these women found new forms of expression power and freedom that were often denied to them in other realms of their lives in America She demonstrates how white women's attraction to Asia shaped and was shaped by a complex mix of exoticism for the foreign admiration for the refined desire for power and control and love and compassion for the people of Asia Through concrete historical narratives and careful textual analysis she examines the ideological context for America's changing discourse about Asia and interrogates the power and appeal as well as the problems and limitations of American Orientalism for white women's explorations of their identities Combining the analysis of race and gender in the United States and the study of U S Asian relations Yoshihara's work represents the transnational direction of scholarship in American Studies and U S history In addition this interdisciplinary work brings together diverse materials and approaches including cultural history material culture visual arts performance studies and literary analysis Embracing the East was the winner of the 2003 Hiroshi Shimizu Award of the Japanese Association for American Studies best book in American Studies by a junior member of the association *American Holiday Postcards, 1905-1915* Daniel Gifford, 2013-09-05 In the early

20th century postcards were one of the most important and popular expressions of holiday sentiment in American culture. Millions of such postcards circulated among networks of community and kin as part of a larger American postcard craze. However, their uses and meanings were far from universal. This book argues that holiday postcards circulated primarily among rural and small town Northern white women with Anglo Saxon and Germanic heritages. Through analysis of a broad range of sources, Daniel Gifford recreates the history of postcards to account for these specific audiences and reconsiders the postcard phenomenon as an image based conversation among exclusive groups of Americans. A variety of narratives are thus revealed: the debates generated by the Country Life Movement, the empowering manifestations of the New Woman, the civic privileges of whiteness, and the role of emerging technologies. From Santa Claus to Easter bunnies, flag waving turkeys to gun toting cupids, holiday postcards at first seem to be amusing expressions of a halcyon past. Yet with knowledge of audience and historical conflicts, this book demonstrates how the postcard images reveal deep divides at the height of the Progressive Era.
