Human Virtuality and Digital Life Richard Frankel, Victor J. Krebs, 2021-08-12 Winner of the Gradiva Best Book Award 2022 and the

Courage to Dream Book Prize 2023 from the Academy of the American Psychoanalytic Association This book is a psychoanalytic and philosophical exploration of how the digital is transforming our perception of the world and our understanding of ourselves Drawing on examples from everyday life myth and popular culture this book argues that virtual reality is only the latest instantiation of the phenomenon of the virtual which is intrinsic to human being It illuminates what is at stake in our understanding of the relationship between the virtual and the real showing how our present technologies both enhance and diminish our psychological lives The authors claim that technology is a pharmakon at the same time both a remedy and a poison and in their writing exemplify a method that overcomes the polarization that compels us to regard it either as a liberating force or a dangerous threat in human life The digital revolution challenges us to reckon with the implications of what is being called our posthuman condition leaving behind our modern conception of the world as constituted by atemporal essences and reconceiving it instead as one of processes and change The book's postscript considers the sudden plunge into the virtual effected by the 2020 global pandemic Accessible and wide reaching this book will appeal not only to psychotherapists psychoanalysts and philosophers but anyone interested in the ways virtuality and the digital are transforming our contemporary lives Being, Time, Bios A. Kiarina Kordela, 2013-05-01 A psychoanalytic theory of biopolitics Law and Enjoyment Daniel Hourigan, 2015-06-05 This book advocates and develops a critical account of the relationship between law and the largely neglected issue of enjoyment Taking popular culture seriously as a lived and meaningful basis for a wider understanding of law beyond the strictures of legal institutions and professional practices it takes up a range of case studies from film and literature in order to consider how law is iterated through enjoyment and how enjoyment embodies law Drawing on psychoanalytic theory this book addresses issues such as the forced choice to enjoy the law the biopolitics of tyranny the enjoyment of law's contingency the trauma of the law's symbolic codification of pleasure and the futuristic vision of law's transgression In so doing it forges an important case for acknowledging and analyzing the complex relationship between power and pleasure in law one that will be of considerable interest to legal theorists as well as those with interests in the intersection of psychoanalytic and cultural theory Planet Utopia Mark Featherstone, 2017-02-17 It has become clear that utopian thought has returned to the political scene Featherstone traces the history of utopia and also discusses a number of contemporary case studies This examination of the nature of utopian politics in the twenty first century will be essential reading for political scientists and sociologists **CliffsNotes on Garcia Marquez' One Hundred Years of Solitude** Carl Senna, 2015-07-21 This CliffsNotes guide includes everything you've come to expect from the trusted experts at CliffsNotes including analysis of the most widely read literary works **Think Again** Peter Hallward, 2004-05-01 Slavoj Žižek is not alone in thinking that Alain Badiou's recent work is the event of contemporary philosophy Think Again the first publication of its kind goes a long way towards justifying his assessment Badiou is nothing if not polemical and the most suitable way to approach his philosophy is precisely through the controversies it creates This

book which opens with an introduction aimed at readers new to Badiou's work presents a range of essays which explore Badiou's most contentious claims in the fields of ontology politics ethics and aesthetics Alain Badiou has devised perhaps the only truly inventive philosophy of the subject since Sartre Almost alone among his peers Badiou's work promises a genuine renewal of philosophy a subject he sees as conditioned by innovation in spheres ranging from radical politics to artistic experimentation to mathematical formalization Slavoj Žižek is not alone in thinking that Alain Badiou's recent work is the event of contemporary philosophy Think Again the first publication of its kind goes a long way towards justifying his assessment Badiou is nothing if not polemical and the most suitable way to approach his philosophy is precisely through the controversies it creates This book which opens with an introduction aimed at readers new to Badiou's work presents a range of essays which explore Badiou's most contentious claims in the fields of ontology politics ethics and aesthetics *Spiritual Shakespeares* Ewan Fernie, 2005-11-16 *Spiritual Shakespeares* is the first book to explore the scope for reading Shakespeare spiritually in the light of contemporary theory and current world events Ewan Fernie has brought together an exciting cast of critics in order to respond to the religious turn in recent literary theory and to the spiritualized politics of terrorism and the War on Terror Exploring a genuinely new perspective within Shakespeare Studies the volume suggests that experiencing the spiritual intensities of the plays could lead us back to dramatic intensity as such It tests spirituality from a political perspective as well as subjecting politics to an unusual spiritual critique Amongst its controversial and provocative arguments is the idea that a consideration of spirituality might point the way forward for materialist criticism Reaching across and beyond literary studies to offer challenging and powerful contributions from leading scholars this book offers unique readings of some very familiar plays *The Readers' Advisory Guide to Genre Fiction* Joyce G. Saricks, 2009 This revised edition provides a way of understanding the vast universe of genre fiction in an easy to use format Expert readers advisor Joyce Saricks offers groundbreaking reconsideration of the connections among genres **Prospects Of Power** John Snyder, 2014-10-17 Genre the articulation of kind is one of the oldest and most continuous subjects of theoretical and critical commentary Yet from Romanticism to postmodernism the concept of genre has been punched with so many holes that today it hardly seems graspable let alone viable By combining theory with dialectical literary histories of three significantly different genres tragedy satire and the essay John Snyder reconstructs genre as the figural deployment of symbolic power One purpose of this approach is to reconcile the recent dismantling of representational and classificatory genres with the incipient notion in post Althusser Marxism that genre is the crucial mediation between history and aesthetics Snyder extends certain implications of Aristotle Benjamin Bakhtin Foucault and Serres He also offers the first antisystem yet comprehensive genre theory to serve as a fully distinct alternate to Frye's formalist and Genette's structuralist schemes Finally Snyder's theory of genre as power opens a way to a fundamentally new theory of literature itself that aesthetic language deployed as power organizes itself as generic intervention Three historically dynamic configurations establish the range of all possible

genres tragedy as power politically deployed as mimesis satire as power rationally deployed as rhetoric and the essay as power textually deployed as constative rhetoric Specific analyses developing this important new theory cover a broad spectrum of literature from classical to contemporary Other genres different media and a variety of subgenres and modes political and religious all acquire fresh significance from the elaborations of Snyder s three selected genres

Research Design and Methods for Studying Cultures Victor de Munck, 2009-06-16 This is a practical guidebook for conducting field research on cultural issues The first third of the book describes how one constructs a research design The rest of the book describes different methods that the author used during his own NSF sponsored cross cultural research on romantic love in Russia Lithuania and the U S The methods described are freelists pile or Q sorts questionnaires consensus analysis interviews process analysis and participant observation Participant observation is intentionally left to the end to emphasize that it is the most difficult of all methods and also to show that participant observations is a more powerful tool when preceded by more structured and systematic methods of data collection The strengths and weaknesses of these methods are discussed as are the pitfalls that occur when a research design is implemented in the field The book is useful for anyone who is preparing to conduct fieldwork on socio cultural issues
