**Crossroads and Conflict** Gary K. Bertsch, Cassady B. Craft, Scott A. Jones, Michael D. Beck, 2013-10-08 The world's second largest reserves of petroleum lie beneath the land locked Caspian Sea making the Caucasus of vital importance to both regional and global economic and security interests This book brings together experts from the US Russia and the Caucasus to examine the issues of conflict foreign policy tradeoffs and security in the region It takes into account the geopolitical factors Western and Russian involvement and the interaction between domestic and external pressures Crossroads and Conflict looks at the challenges faced by these countries and examines the possibilities for future peace and prosperity in the region      **The State of Law in the South Caucasus** C. Waters, 2005-10-26 This book evaluates the strength of the rule of law in the South Caucasus a volatile and strategically important region of the former Soviet Union Contributors all of whom who have lived and worked in Armenia Azerbaijan or Georgia tackle this question from the perspectives of both law and politics A wide range of specific issues are addressed including corruption in the justice system forced migration telecommunications and environmental protection      **Challenges and Options in the Caucasus and Central Asia** Pavel Baev, 1997 That Russia has vital strategic interests in the Caucasus and Central Asia can be taken as an established political fact What is remarkable about this fact is that the nature of these interests as well as the nature and intensity of challenges to them have changed quite drastically during Russia's 5 years of existence as a post Soviet state It is no wonder that Russian policymakers are permanently agonizing over reassessment of these interests and are now nowhere close to producing a coherent strategy of their advancement This monograph will argue that Russia's ability to meet the challenges from the South is a major factor in determining its future as a world power 1 There is no doubt that the Caucasus and Central Asia are two separate regions in the turbulent post Soviet geopolitical space with different political dynamics and plenty of internal diversities and conflicts Even looking from Moscow it is obvious that these differences are of such a scale that no single integrated strategy could possibly embrace both regions two essentially different policies are required and were in fact pursued Still the author attempts to take these two regions together seeking to trace interplay among Russia's economic political and strategic interests and to discover parallels in Moscow's past current and possible future activities This paper will first take a brief look at the evolution of Russia's policies in the Caucasus and Central Asia in 1992-94 then the impact of the Chechen War will be evaluated This is followed by the analysis of the growth of the economic interests first of all related to oil and the increase in influence of the regional processes in Russia itself Finally an attempt to distinguish between the real and misperceived security challenges for the near future will be undertaken      **Regional Cooperation in**

**the South Caucasus** Tracey German, 2016-04-08 The South Caucasus region comprising the former Soviet states of Armenia Azerbaijan and Georgia occupies a key strategic location squeezed between the Black and Caspian Seas Iran Russia and Turkey Since the disintegration of the Soviet Union in 1991 the region has become an arena of geopolitical confrontation with regional powers such as Russia Turkey and Iran vying for influence in the face of growing Western involvement The Russian military intervention in Georgia in 2008 not only raised questions about Moscow's intentions towards its Near Abroad and the future direction of its foreign policy it also demonstrated that ostensibly local separatist disputes have serious ramifications for regional relations and the wider international community In this book German explores the extent of regional cooperation in the South Caucasus analyses the reasons for the relative lack of regional cooperation and assesses the potential for deeper cooperation in the future

**Reassessing Security in the South Caucasus** Annie Jafalian, 2011 From a European perspective the South Caucasus is now forming a neighbouring area at the border of the Black Sea as well as a corridor of oil and gas imports whose stability has become part of European security itself Drawing together research from experts within the area this volume reassesses security in the South Caucasus making it possible to update analysis on security interests perceptions and policies at national regional and international levels through cross national studies

*A Bear in the Mountains* Kenneth Ora Archbold, 2012 The Caucasus region is an integral part of Russian history politics and culture both in the arenas of internal and external policy Throughout the centuries Russia has spent much blood and treasure to maintain its influence in this vital region The purpose of this thesis is to highlight the Russian government's efforts to maintain political economic and cultural influence in the Caucasus and how those efforts led Russia into two Chechen wars and a brief but consequential armed conflict with Georgia This thesis paper will briefly examine the history of Russian conquest in the Caucasus and how the region became so important to Russia politically culturally and economically The paper will also explore the effects that the fall of the Soviet Union had on relations between the Russian central government and the North Caucasus republics and how the conditions that the break up created led to the first Chechen War The work will also examine the causes of the second Chechen War and the role of radical Islam in the conflict between the Russian federal government and rebels in the North Caucasus This paper will also analyze the possible threats to Russian hegemony in the Caucasus including radical Islam terrorism and a Georgian government that seems determined to exit Russia's sphere of influence The work will also analyze the 2008 Russo Georgian War and how it impacted not just Russo Georgian relations but also how it helped define Russia's relationship with the West and its role in world politics Finally the thesis will study Russia's future prospects in the region whether Russian hegemony will remain in the South Caucasus and what should be done to ensure peace and stability in the North Caucasus

**Conflict and Cooperation in the South Caucasus Region** Houman A. Sadri, 2023 Conflict and Cooperation in the South Caucasus Region From Theory to Policy combines IR theory and policy in a readable format Houman A Sadri discusses the distinctive challenges of the South Caucasus region and offers

a survey of relevant IR theories Armenia Azerbaijan and Georgia are covered in depth since independence These former Soviet republics have experienced major conflicts and cooperation since independence in the early 1990s The 2008 Russian invasion of Georgia and the Armenian Azeri Wars captured headlines and affected markets but the completion of energy pipelines exposed the complexity of cooperation in connecting the regional and global political economy Conflict and Cooperation in the South Caucasus Region has three major purposes 1 To provide a survey of the major developments of the Caucasus States 2 To analyze the application of IR prominent theories and 3 To offer practical policy options for policymakers seeking to understand the South Caucasus region What does the remainder of the 21st Century hold for Armenia Azerbaijan and Georgian Where are the main sources of threats How can these threats be effectively dealt with

**State Building and Conflict Resolution in the Caucasus** Charlotte Hille,2010-04-16 State building processes in the Caucasus are influenced by the culture of the Caucasus and previous experiences with state building after World War I The conflicts which erupted at the time have influenced territorial claims The role of foreign powers as Russia the United States Turkey Germany is considerable in the region Divide and rule policy of Joseph Stalin is another factor which describes existing animosities between peoples in the Caucasus Since 1989 a transition process or state building process has started in the North and the South Caucasus This book gives an in depth analysis of the backgrounds of the conflicts including activities by IGO s and NGOs and the developments in international law with regard to state building practice

Russian Foreign Policy in the South Caucasus Brian Robert Marksberry,2011 For about a decade Russia has been a flush with money and economic prosperity after the financial chaos of the 1990s This boom has been driven largely by Moscow s exports of natural gas and oil and helped by record high energy prices Much of this energy sources have been carried on pipelines that run through Russia s unstable North Caucasus region However Western backed pipelines in the South Caucasus pose a threat towards Russia s newfound prosperity In order to undermine future pipelines in the region Moscow has sought to destabilize the region by encouraging and manipulating separatist tensions in the pivotal nation of Georgia These tensions culminated in the brief conflict in August 2008 Three years later relations between Tbilisi and Moscow remain high and the West continues to see Georgia as a pivotal transit route for its pipelines much to Moscow s chagrin
