The Lost Books of Jane Austen Janine Barchas,2019-10-08 Hardcore bibliography meets Antiques Roadshow in an illustrated exploration of the role that cheap reprints played in Jane Austen s literary celebrity and in changing the larger book world itself Gold Winner of the 2019 Foreword INDIES Award for History by FOREWORD Reviews In the nineteenth century inexpensive editions of Jane Austen s novels targeted to Britain s working classes were sold at railway stations traded for soap wrappers and awarded as school prizes At just pennies a copy these reprints were some of the earliest mass market paperbacks with Austen s beloved stories squeezed into tight columns on thin cheap paper Few of these hard lived bargain books survive yet they made a substantial difference to Austen s early readership These were the books bought and read by ordinary people Packed with nearly 100 full color photographs of dazzling sometimes gaudy sometimes tasteless covers The Lost Books of Jane Austen is a unique history of these rare and forgotten Austen volumes Such shoddy editions Janine Barchas argues were instrumental in bringing Austen s work and reputation before the general public Only by examining them can we grasp the chaotic range of Austen s popular reach among working class readers Informed by the author s years of unconventional book hunting The Lost Books of Jane Austen will surprise even the most ardent Janeite with

glimpses of scruffy survivors that challenge the prevailing story of the author's steady and genteel rise. Thoroughly innovative and occasionally irreverent, this book will appeal in equal measure to book historians, Austen fans, and scholars of literary celebrity.

Ruby's Star Maria Farrer, 2018-11-20 Things have been difficult for Ruby lately. Her dad left long ago and her mom is so down that she can hardly get out of bed some days, which means it's up to Ruby to take care of her younger brother. As a result, she can't always go to school, and when she does go, she just seems to end up in trouble. And forget about her real dream: learning to skateboard. There will never be money or time for it. But Ruby's life changes when Mister P floats down one day in a hot air balloon. Though Ruby is at first reluctant to be friends, she can't ignore Mister P; he is a polar bear after all. With his silly and gentle polar bear ways, huge heart, and plenty of slapstick humor, he teaches Ruby that she doesn't have to take care of everyone on her own; it's OK to let others help. Sometimes Ruby is amazed by the number of people willing to lend a hand, and how even a small amount of support can make a big difference. Full of lively art and fun formatting, Readers will wish for their own polar bear ally.

Ruby's Inheritance Katlin Sisler, 2019-11-26 Ruby dreams to be a Princess and believes that tiaras, fancy dresses, and living in a castle are all part of becoming a Princess. Ruby prays to God that he will make her a Royal Princess. Ruby's dress begins to get worn out, and her tiara begins to lose jewels, and she questions whether God is real and doubts that her dream of becoming a Princess will come true. Amelia, her babysitter, learns of Ruby's discouragement and shares God's truth with Ruby. Ruby learns that she is already a Princess in God's eyes and finds hope in knowing that you don't have to wear a tiara and a dress and live in a big castle to identify as a Princess. Ruby then commits to love God with her whole heart.

Foundation Rails 2 Eldon Alameda, 2008-11-23 You've heard about this amazing web framework called Ruby on Rails that's taken the world by storm, but thought it was way too complex for you. Think again. *Foundation Rails 2* takes you through your first steps in Rails, explaining in plain English how to start building dynamic web applications. And there's never been a better time to jump in to the Rails world, as the release of Rails 2 was a major evolutionary leap forward from previous versions. Unlike other Rails books, this book doesn't throw you into the deep end right away; instead, it hopes that you'll learn to swim. Instead, we'll start out with the basics and continually expand your knowledge until, by the end of the book, we're building a Rails application with dynamic features such as user registration, geocoding, filtering results with AJAX, RSS feeds, and an XML interface. Meanwhile, we'll talk about the important issues that other books often leave out, such as testing your application's code, securing your application from hackers, optimizing your code for the best performance, and of course, deploying your application. This book takes a focused approach to guiding you through understanding how the pieces of Rails work individually and how they fit together. Instead of emphasizing boring theoretical discussions, *Foundation Rails 2* lets you get your hands dirty with the framework and learn the hows and whys of Rails faster than ever. We start with a tour of what makes Rails special and why you need to learn it, move into a gentle introduction to the high points of programming in Ruby, and then take a tour of a sample Rails application. Vincent Bugliosi, 2007-05-17 For fifty years the truth about the assassination of President John F Kennedy has been obscured This book releases us from a crippling distortion of American history At 1 00 p m on November 22 1963 President John F Kennedy was pronounced dead the victim of a sniper attack during his motorcade through Dallas That may be the only fact generally agreed upon in the vast literature spawned by the assassination National polls reveal that an overwhelming majority of Americans 75% believe that there was a high level conspiracy behind Lee Harvey Oswald Many even believe that Oswald was entirely innocent In this continuously absorbing powerful ground breaking book Vincent Bugliosi shows how we have come to believe such lies about an event that changed the course of history The brilliant prosecutor of Charles Manson and the man who forged an iron clad case of circumstantial guilt around O J Simpson in his best selling Outrage Bugliosi is perhaps the only man in America capable of writing the definitive book on the Kennedy assassination This is an achievement that has for years seemed beyond reach No one imagined that such a book would ever be written a single volume that once and for all resolves beyond any reasonable doubt every lingering question as to what happened in Dallas and who was responsible There have been hundreds of books about the assassination but there has never been a book that covers the entire case including addressing every piece of evidence and each and every conspiracy theory and the facts or alleged facts on which they are based In this monumental work the author has raised scholarship on the assassination to a new and final

level one that far surpasses all other books on the subject It adds resonance depth and closure to the admirable work of the Warren Commission Reclaiming History is a narrative compendium of fact forensic evidence reexamination of key witnesses and common sense Every detail and nuance is accounted for every conspiracy theory revealed as a fraud on the American public Bugliosi's irresistible logic command of the evidence and ability to draw startling inferences shed fresh light on this American nightmare At last it all makes sense
