Off the Main Sequence Tom Easton, 2006-10-01 Tom Easton has served as the monthly book review columnist for Analog Science Fiction for almost three decades having contributed during that span many hundreds of columns and over a million words of penetrating criticism on the best literature that science fiction has to offer His reviews have been celebrated for their wit humor readability knowledge and incisiveness His love of literature particularly fantastic literature is everywhere evident in his essays Easton has ever been willing to cover small presses obscure authors and unusual publications being the only major critic in the field to do so on a regular basis He seems to delight in finding the rare gem among the backwaters of the publishing field A reviewer's job he says is not to judge books for the ages but to tell readers enough about a book to give them some idea of whether they would enjoy it And this he does admirably whether he's discussing the works of the great writers in the field or touching upon the least amongst them This companion volume to Periodic Stars Borgo Wildside collects another 250 of Easton's best reviews from the last fifteen years of The Reference Library No one does it better and no other guide provides such lengthy or discerning commentary on the best SF works of recent times Complete with Introduction and detailed Index **Oceanspace** Allen Steele, 2015-05-19 Treachery greed and a gargantuan sea monster threaten the

inhabitants of a high tech deep water research station in this thrilling undersea science fiction adventure A three time Hugo Award winner and modern master of hard science fiction now departs from outer space for a vast unexplored realm that is equally perilous and mysterious Allen Steele's Oceanspace is a heart racing near future adventure of danger and discovery unfolding in the dark cold and merciless depths of the ocean The undersea research facility Tethys is a technological wonder self sufficient and seemingly impervious to natural danger Located off the coast of Florida deep beneath the surface of the water the station supports a robotic mining operation on the ocean floor and facilitates the ongoing scientific exploration of Earth's last frontier But while on a routine assignment with his colleague Peter Lipscomb submersible pilot Joe Niedzwiecki comes face to face with something incredible and alive and only luck and Peter's quick actions can save them Peter's wife a marine biologist named Judith is determined to uncover the secrets of the mysterious leviathan that destroyed Joe's sub and nearly killed him But the strange creature prowling the dark waters is only one of the dangers confronting Tethys Lunar Descent Allen Steele, 2015-05-19 The former head of a lunar mining operation returns to the moon and is immediately sucked into a dangerous morass of labor troubles lies larceny and corporate wrongdoing in this wildly entertaining science fiction thrill ride There is big trouble on the moon The blue collar working stiffs of Descartes Station who mine the surface for minerals and the North Pole for water have become increasingly dissatisfied with Skycorp's general disregard for its employees well being Following the most recent spate of layoffs the labor strike grumblings have only grown louder so the

company is sending former base administrator and recovering alcoholic Lester Riddell back into the fold in an attempt to boost morale and output alike The truth however becomes shockingly apparent to Riddell almost immediately upon his return Not only has he been unceremoniously dumped into a muddled mess of larceny piracy and corporate malfeasance it appears that Skycorp is purposely setting him up to fail which could spell finis for Descartes Station and every trash talking pot smoking porn loving Vacuum Sucker and Moondog who toils there But as the Skycorp suits are about to discover they've just made the biggest mistake of their corporate lives because Lester Riddell is nobody's fall guy Three time Hugo Award winner Allen Steele has seen the near future and it isn't pretty it's noisy dirty dangerous and chaotic Thrilling wildly inventive delightfully profane and totally outrageous Lunar Descent is one hell of a rocket ride with a master of science fiction at the helm

Integrating Women Into the Astronaut Corps Amy E. Foster, 2011-12 Why Amy E Foster asks did it take two decades after the Soviet Union launched its first female cosmonaut for the United States to send its first female astronaut into space In answering this question Foster recounts the complicated history of integrating women into NASA's astronaut corps NASA selected its first six female astronauts in 1978 Foster examines the political technological and cultural challenges that the agency had to overcome to usher in this new era in spaceflight She shows how NASA had long developed progressive hiring policies but was limited in executing them by a national agenda to beat the Soviets to the moon budget constraints and cultural ideas about women's roles in America Lively writing and compelling stories including personal interviews with America's first women astronauts propel Foster's account Through extensive archival research Foster also examines NASA's directives about sexual discrimination the technological issues in integrating women into the corps and the popular media's discussion of women in space Foster puts together a truly original study of the experiences not only of early women astronauts but also of the managers and engineers who helped launch them into space In documenting these events Foster offers a broader understanding of the difficulties in sexually integrating any workplace even when the organization approaches the situation with as positive an outlook and as strong a motivation as did NASA [Angel of Europa](#) Allen Steele, 2013-09-03 **DIVDIV**In Jupiter's orbit a mysterious death propels an astronaut into the investigation of a lifetime **divDIV divDIV** Partway into a years long journey an interstellar research
