Rudolf Steiner And Initiation:

How to Know Higher Worlds Rudolf Steiner, 1994-08 Published in 1904 CW 10 While we cannot all instantly become seers the cognitive insights of a person who has such vision can nevertheless provide healthy food for all All of us can apply these insights to our lives and if we do so we shall soon realize not only the possibilities of life in every area but also what life lacks when we exclude these insights Rudolf Steiner This is the bestselling classic account of the modern Western esoteric path of initiation made public by Steiner in 1904 He begins with the premise that the capacities by which we can gain insights into the higher worlds lie dormant within each one of us Steiner carefully and precisely leads the reader from the cultivation of the fundamental soul attitudes of reverence and inner tranquility to the development of inner life through the stages of preparation illumination and initiation Steiner provides practical exercises of inner and outer observation and moral development By patiently and persistently following his guidelines new organs of soul and spirit begin to form which reveal the contours of the higher worlds thus far concealed from us Steiner in this important work becomes a teacher a counselor and a friend whose advice is practical clear and effective The challenges we face in life require increasingly deeper levels of understanding and Steiner's text helps readers to cultivate the capacities for such insights and places them at the service of humanity This is Steiner's most essential guide to the modern path of initiation he advocated throughout his life It has been translated into many languages and has inspired hundreds of thousands of readers around the world How to Know Higher Worlds has been admired by some of the most brilliant minds of our time This volume is a translation from German of the written work *Wie erlangt man Erkenntnisse der höheren Welten* GA 10 **Rudolf Steiner and Initiation** Paul Eugen Schiller, 1990-12 Schiller systematically characterizes the anthroposophic path of inner spiritual training drawing on Rudolf Steiner's writings and lectures over an extended period of time Among the topics discussed are the fundamental moods development of the six attributes sense free thinking feeling and willing meditation and crossing the threshold This is a helpful compact overview of Steiner's path of inner development *The Way of Initiation* Rudolf Steiner, 2020-05-10 THE SUPER PHYSICAL WORLD AND ITS GNOSIS In this practical age and because of the many various claims of the day it is but natural that people who hear of transcendentalism should at once ask the question How may we for ourselves know the truth of such statements Indeed it is noticeable as a characteristic of the majority that they will accept nothing on faith or mere authority but wish rather to rely entirely upon their own judgment Therefore when a mystic undertakes to explain something of the super physical nature of man and of the destiny of the human soul and spirit before birth and after death he is at once confronted with that fundamental demand Such doctrine they seem to think is important only when you have shown them the way by which they may convince themselves of its truth Rudolf Steiner was a philosopher social thinker architect and esotericist His philosophical work which he termed spiritual science sought to provide a connection between the cognitive path of Western philosophy and the inner and spiritual needs of the human being In *The Way of Initiation* Steiner details the

exercises and moral qualities to be cultivated on the path to a conscious experience of supersensible realities His short but powerful book is intended as a guide for achieving spiritual vision **Initiation and Its Results** Rudolf Steiner,1910

The Way of Initiation Rudolf Steiner,Edouard Schuré,1910 **Rudolf Steiner's Path of Initiation and the Mystery of the Ego** Rudolf Steiner,Sergei O. Prokofieff,2013 2 lectures by Sergei O Prokofieff Bologna March 31 April 8 2011 A special conference took place in Bologna in spring 2011 marking the hundredth anniversary of a unique lecture Steiner delivered to a philosophically trained audience in the same city In his key exposition Steiner had given a concise description of the spiritual scientific theory of knowledge as well as a brief outline of the anthroposophic path of training In his contribution to the 2011 congress Prokofieff tackles two principal aspects On the one hand he describes how Steiner's Bologna lecture contained the essential foundations for a new science of the human ego the human I On the other hand Prokofieff states that Steiner was the first person to transform this theory into a practical path of knowledge following it to its very conclusion Thus the words of Steiner's lecture were based entirely on personal experience Together with a transcript of Steiner's full Bologna lecture Prokofieff's lecture is reproduced here in an expanded version In addition this volume features Steiner's important summaries of essential points in which he develops and connects some of his key thoughts with further aspects of Anthroposophy especially in relation to their Christological foundations **The Way of Initiation** Rudolf Steiner,1914

The Way of Initiation Rudolf Steiner,2016-07-24 In this practical age and because of the many various claims of the day it is but natural that people who hear of transcendentalism should at once ask the question How may we for ourselves know the truth of such statements Indeed it is noticeable as a characteristic of the majority that they will accept nothing on faith or mere authority but wish rather to rely entirely upon their own judgment Therefore when a mystic undertakes to explain something of the superphysical nature of man and of the destiny of the human soul and spirit before birth and after death he is at once confronted with that fundamental demand Such doctrine they seem to think is important only when you have shown them the way by which they may convince themselves of its truth The highest degree in Occultism of which it is possible to speak in a book for general readers is Initiation One cannot give public information concerning all that lies beyond though the way to it can always be found by one who has previously pressed forward and penetrated the lower secrets and mysteries The knowledge and power which are conferred upon a man through Initiation could not be obtained in any other manner except in some far distant future after many incarnations on quite another road and in quite another form He who is initiated to day experiences something which he would otherwise have to experience at a much later period and under quite different circumstances It is right that a person should learn only so much of the secrets of nature as correspond to his own degree of development and for this reason alone do obstacles bar his way to complete knowledge and power People should not be trusted with the use of fire arms until they have had enough experience to make it certain that they will not use them mischievously or without care If a person without the necessary preparation were initiated to day he would still

lack those experiences which in the normal course of his development would come to him in the future during other incarnations and would then bring with them the corresponding secrets

The Mysteries of initiation Rudolf Steiner, 2021-10-14 In a concise study Rudolf Steiner presents an inspirational sketch of the evolution of the Mysteries from ancient Persia through Egypt and Greece to the Christian era and the present day He traces the line of initiates from Egyptian divinities Isis and Osiris to Moses King Arthur's Round Table and the Holy Grail in the twelfth century Steiner focuses on the process of initiation as a historical topic how initiation worked in ancient Egypt and in the late Middle Ages But his presentation is also inspirational leading to the question How can we advance to initiation now He underscores the potential for achieving enlightenment today without a teacher in the flesh and explains the four stages of the process towards initiation He also highlights the need for strenuous efforts to overcome the subtle power of evil in the form of Lucifer and Ahriman through selfless work The four lectures collected here form an important landmark in Rudolf Steiner's biography the first being delivered on 3 February 1913 the very day that the Anthroposophical Society was founded First published in English under the title *The Mysteries of the East and of Christianity* and unavailable for many years this edition has been re edited by Professor Frederick Amrine and features appendices an index as well as an introduction by Robert McDermott

The Evolution of Consciousness Rudolf Steiner, 2013-05-14 According to the initiate research of Rudolf Steiner humanity is in a continual process of transformation and evolution Modern day consciousness based as it is on sense perception and abstract logic differs considerably from the

consciousness of ancient humanity At that time says Steiner the human being was seen to be a microcosm a concentration of the laws and activities of the cosmos The loss of such knowledge today has led to the existential quest for meaning and even the cul de sac of atheism In these comprehensive lectures delivered to an English audience Rudolf Steiner indicates how it is possible for people to rediscover their connection to the cosmos He describes how one develops higher faculties of consciousness what he calls Imagination Inspiration and Intuition and gives a vivid description of life after death and the individual s progress through the planetary spheres It is in these spheres he explains where tasks and goals for future incarnations are prepared in cooperation with the spiritual beings of the heavenly hierarchies The lectures culminate in a call for mankind to take its own destiny in hand through conscious and free development of spiritual capacities The edition of this fundamental work features a revised translation as well as previously unavailable addresses and question and answer sessions
