Steed, 2016-06-20 Providing up to date information for general readers as well as those well informed about the Islamic State this book offers an essential understanding of the rise of ISIS and its current influence in the Middle East as well as worldwide ISIS also referred to as ISIL the Islamic State or Daesh began to assert its power and gain recognition for its militant and terroristic activities in April 2013 After the coordinated attacks in Paris on November 13th 2015 ISIS has captured the full attention of observers in the West This accessible book explains what ISIS is what the group s goals are what their members believe and why their ranks are growing Readers will gain an understanding of how ISIS is a unique group one seeking to be the army of the righteous fighting to defeat the unbelievers and usher in the end of days but that the extremist views of ISIS are an expression of a growing frustration with life in the Middle East and elsewhere shared by a larger community of non state and post state actors The book provides an introduction that documents the origins of ISIS within the larger Al Qaeda organization during the Iraq War The following chapters discuss the origins development and territorial expansion of ISIS in Syria and Iraq and examine the ideological motivations behind the emergence of ISIS thereby enabling a nuanced understanding of the importance of ISIS in contemporary history Other entries discuss individuals events and organizations that put ISIS in historical context in terms of contemporary events since the Iraq War into the present and explain the group s position within the complex conflict currently boiling in the Middle East *The Task of Utopia* Erin McKenna, 2001-11-13 At their best both American pragmatism and utopianism are about hope Both encourage people to think about the future as a guide to understanding the past and forming the present Just as pragmatism has often been misunderstood as valueless instrumentalism utopianism has been limited to dreams of a static perfect world In this book Erin McKenna argues that utopian vision informed by pragmatism results in a process model of utopia that can help form the future based on critical

intelligence Using John Dewey's works with feminist theory and literature McKenna develops this pragmatist feminist model of utopia

The Internationalization of ISIS Raphael Israeli, 2017-07-05 An Islamic terrorist movement ISIS also dubbed IS or ISIL has taken advantage of the chaotic Arab Spring in Syria and Iraq to declare an Islamic Caliphate wherever it has been able to rise to power This movement is continuously attempting to extend the territory of its rule The Egyptian Sinai Peninsula and the Libyan post Qaddafi desert country have sworn allegiance to the Caliphate and every town that is captured by the fighting forces of ISIS is forced to submit to strict Islamic law The Caliphate movement is constantly increasing its power and influence It is not only sustained by the thousands of local recruits but it is reinforced by many thousands of Muslim minority youth dwelling abroad These youths are charmed by the purity of its ideals and goals its brutal and coercive ways and its defiance of the West The United States some moderate Arab allies in the Gulf and some other international players including Russia have launched attacks against the ISIS forces to prevent them from further destroying the ancient cultures of Mosul and Palmyra dedicated by UNESCO as part of the world heritage Beyond that there does not seem to be any force capable of arresting their advance or checking their universal appeal to Muslims around the world Israeli's pessimistic conclusion is that ISIS may be contending for power in the Middle East for many years to come while threatening to become a centre of terrorist activity against the West

The Complete Infidel's Guide to ISIS Robert Spencer, 2015-08-24 ISIS rocketed onto the world stage seemingly out of nowhere beheading American hostages bulldozing international borders routing the American trained Iraqi army and carving out a new state that rules eight million people and a territory larger than the United Kingdom But who are they Where did ISIS come from and how did they rise to power in so little time What is driving them and how can they be stopped New York Times bestselling author Robert Spencer reveals the blood drenched history and inner workings of the Islamic State its military conquests how it is financing its expansion and the ideology that is driving its success As Spencer reveals the Islamic State has taken the first steps on the path to becoming a serious world power steps that Osama bin Laden and al Qaeda dreamed of but were afraid to take The Complete Infidel's Guide to ISIS is your one stop easy reference for all you need to know about ISIS and how infidels can stop its reign of terror
