ethnicity The book exemplifies the struggles of scholars to work toward a more shared agenda for social change To Chase a Dream Paul "Whitey" Kapsalis, Ted Gregory, 2014-02-28 Winners of 8 national championships Indiana University is to men's college soccer what University of North Carolina is to college basketball or University of Notre Dame is to college football To Chase a Dream is the true story of one kid's near impossible desire to play soccer at that national powerhouse a kid who was told time after time that he simply wasn't good enough and never would be What all the doubters failed to consider was that inside the body of an under sized humble Paul Kapsalis was the heart of a lion This is his journey a story that affirms that perseverance optimism hard work a willingness to learn and kindness can lead to remarkable achievements and transform a kid who just wanted to play soccer into a leader of men It took him 5 years fighting through rejection and a career threatening injury but Paul got where he never expected to go Here's a chance to see how he did it *The Quest for Community and Identity* Robert E. Birt, 2002 This collection of essays engages two of the most fundamental social and political issues of our time community and identity Wrestling with the perplexities of these two issues within the Africana world the contributors delve into the influences of a postmodern world of globalization with outdated crumbling forms of identity and sociality In the wake of such an order new forms of identity and community must be established Birt has collected an informed group of contributors here who lay the foundation for a new approach to finding community and identity in the Africana world **After Katrina** Anna Hartnell, 2017-01-25 Argues that post Katrina New Orleans is a key site for exploring competing narratives of American decline and renewal at the beginning of the twenty first century Through the lens provided by the tenth anniversary of Hurricane Katrina After Katrina argues that the city of New Orleans emerges as a key site for exploring competing narratives of US decline and renewal at the beginning of the twenty first century Deploying an interdisciplinary approach to explore cultural representations of the post storm city Anna Hartnell suggests that New Orleans has been reimagined as a laboratory for a racialized neoliberalism and as such might be seen as a terminus of the American dream This US disaster zone has unveiled a network of social and environmental crises that demonstrate that prospects of social mobility have dwindled as environmental degradation and coastal erosion emerge as major threats not just to the quality of life but to the possibility of life in coastal communities across America and the world And yet After Katrina also suggests that New Orleans culture offers a way of thinking about the United States in terms that transcend the binary of national renewal or declension The post Hurricane city thus emerges as a flashpoint for reflecting on the contemporary United States Contemporary Photography and Theory Sally Miller, 2020-05-26 Contemporary Photography and Theory offers an essential overview of some of the key critical debates in fine art photography today Building on a foundational understanding of photography it offers an in depth discussion of five topic areas identity landscape and place the politics of representation psychoanalysis and the event Written in an accessible style it introduces the critical literature relevant to photography that has emerged over recent decades Moving beyond seminal works by writers such as Walter

Benjamin Roland Barthes and Susan Sontag it enables readers to explore an extended canon of theorists including Jacques Lacan Judith Butler and Giorgio Agamben The book is illustrated throughout and analyses a range of works by established and emergent artists in order to show how these theoretical concepts are central to understanding contemporary photography These 15 short essays encourage readers to apply critical thinking to both their own work and that of others They are the perfect starting point for essays as well being of suitable length for assigned readings making this the ideal resource for learning about contemporary photography and theory

Duress Ann Laura Stoler, 2016-10-13 How do colonial histories matter to the urgencies and conditions of our current world How have those histories so often been rendered as leftovers as legacies of a dead past rather than as active and violating forces in the world today With precision and clarity Ann Laura Stoler argues that recognizing colonial presence may have as much to do with how the connections between colonial histories and the present are expected to look as it does with how they are expected to be In Duress Stoler considers what methodological renovations might serve to write histories that yield neither to smooth continuities nor to abrupt epochal breaks Capturing the uneven recursive qualities of the visions and practices that imperial formations have animated Stoler works through a set of conceptual and concrete reconsiderations that locate the political effects and practices that imperial projects produce occluded histories gradated sovereignties affective security regimes new racisms bodily exposures active debris and carceral archipelagos of colony and camp that carve out the distribution of inequities and deep fault lines of duress today

Saintly Influence Eric Boynton, Martin Kavka, 2009-08-25 Since the publication of her first book Emmanuel Levinas The Problem of Ethical Metaphysics in 1974 the first book about Levinas published in English Edith Wyschogrod has been at the forefront of the fields of Continental philosophy and philosophy of religion Her work has crossed many disciplinary boundaries making peregrinations from phenomenology and moral philosophy to historiography the history of religions both Western and non Western aesthetics and the philosophy of biology In all of these discourses she has sought to cultivate an awareness of how the self is situated and influenced as well as the ways in which a self can influence others In this volume twelve scholars examine and display the influence of Wyschogrod's work in essays that take up the thematics of influence in a variety of contexts Christian theology the saintly behavior of the villagers of Le Chambon sur Lignon the texts of the medieval Jewish mystic Abraham Abulafia the philosophies of Levinas Derrida and Benjamin the practice of intellectual history the cultural memory of the New Testament and pedagogy In response Wyschogrod shows how her interlocutors have brought to light her multiple authorial personae and have thus marked the ambiguity of selfhood its position at the nexus of being influenced by and influencing others

the Uncanny Paul Celan Specularity and the Visual Arts is the first book length study that examines Celan's impact on visual culture Exploring poetry's relation to film painting and architecture this study tracks the transformation of Celan in postwar German culture and shows the extent to which his poetics accompany the country's memory politics after the Holocaust The book posits a new theoretical model of the Holocaustal uncanny evolving out of a crossing between Celan Freud Heidegger and Levinas that provides a map for entering other modes of Holocaust representations After probing Celan's critique of the uncanny in Heidegger this study shifts to the translation of Celan's uncanny poetics in Resnais film Night and Fog Kiefer's art and Libeskind's architecture

Ruin and Redemption Jon Bonker, 2021-01-11 What's the big picture of the Bible How do we put it all together Some of us get really interested in some of the details of Scripture but we find it hard to see the big picture Maybe you love the Scriptures but never knew there was a big picture Well there is one and Covenant Theology helps us to see what it is The Bible is a story about ruin and redemption It's a story about how through one man ruin came to us all but through Another redemption would come for us all Scottish pastor and theologian Thomas Boston put it this way As man's ruin was originally owing to the breaking of the covenant of works so his recovery from the first to the last step thereof is owing purely to the fulfilling of the covenant of grace The Bible is an incredible story about ruin and redemption Come see how the covenants of Scripture help us to fit it all together

Imperial Debris Ann Laura Stoler, 2013-05-10 Imperial Debris redirects critical focus from ruins as evidence of the past to ruination as the processes through which imperial power occupies the present Ann Laura Stoler's introduction is a manifesto a compelling call for postcolonial studies to expand its analytical scope to address the toxic but less perceptible corrosions and violent accruals of colonial aftermaths as well as their durable traces on the material environment and people's bodies and minds In their provocative tightly focused responses to Stoler the contributors explore subjects as seemingly diverse as villages submerged during the building of a massive dam in southern India Palestinian children taught to envision and document ancestral homes razed by the Israeli military and survival on the toxic edges of oil refineries and amid the remains of apartheid in Durban South Africa They consider the significance of Cold War imagery of a United States decimated by nuclear blast perceptions of a swath of Argentina's Gran Chaco as a barbarous void and the enduring resonance in contemporary sexual violence of atrocities in King Leopold's Congo Reflecting on the physical destruction of Sri

Lanka on Detroit as a colonial metropole in relation to sites of ruination in the Amazon and on interactions near a UNESCO World Heritage Site in the Brazilian state of Bahia the contributors attend to present day harms in the occluded unexpected sites and situations where earlier imperial formations persist Contributors Ariella Azoulay John F Collins Sharad Chari E Valentine Daniel Gast n Gordillo Greg Grandin Nancy Rose Hunt Joseph Masco Vyjayanthi Venuturupalli Rao Ann Laura Stoler

Defiant Geographies Lorraine Leu, 2020-03-31 Defiant Geographies examines the destruction of a poor community in the center of Rio de Janeiro to make way for Brazil's first international mega event As the country celebrated the centenary of its independence its postabolition whitening ideology took on material form in the urban development project that staged Latin America's first World's Fair The book explores official efforts to reorganize space that equated modernization with racial progress It also considers the ways in which black and blackened subjects mobilized their own spatial logics to introduce alternative ways of occupying the city Leu unpacks how the spaces of the urban poor are racialized and the impact of this process for those who do not fit the ideal models of urbanity that come to define the national project Defiant Geographies puts the mutual production of race and space at the heart of scholarship on Brazil's urban development and understands urban reform as a monumental act of forgetting the country's racial past
