would turn Mughal kings and governors losing influence to rival warlords and foreign powers How could leaders of one of the most dominant early modern polities lose their grip over empire Sudev Sheth proposes a new point of departure focusing on diverse local and hitherto unexplored evidence about a prominent financier family entrenched in bankrolling Mughal elites and their successors Analyzing how four generations of the Jhaveri family of Gujarat financed politics he offers a fresh take on the dissolution of the Mughal empire the birth of princely successor states and the nature of economic life in the days leading up to the colonial domination of India **King Edward VII, His Life & Reign** Edgar Sanderson,1910

The Painter Deepanjana Pal,2011-12-02 On April 29 1848 in a small estate in Travancore was born a boy destined to become more famous than the ruler of his kingdom His uncle noticing his precocious talent at art took the teenager to the royal court at the invitation of the king to learn painting there Ravi Varma s debut was to come seven years later when a Danish painter arrived in court to paint the Maharaja and his wife The twenty year old boldly upstaged the experienced artist presenting the king with a more flattering painting of the royal couple at the same time as the official portrait was unveiled Jensen the painter never forgave Ravi Varma but for the young man there was no looking back His reputation grew with each painting For the first time an Indian artist was using the realism and sensuality of the European oil painters and applying them to not just ordinary Indians but to the deities as well The artist prince became India s first celebrity painter The lines to see his exhibition of mythological paintings in Bombay in 1890 the first public showing by any Indian artist were endless the prices he commanded were astronomical then when he started his own printing press producing oleographs of his work Raja Ravi Varma became a household name Soon every home had a Ravi Varma print For the first time comes a beautifully told gripping account of Ravi Varma the man who was the darling of the royal courts but who hardly gave his own wife and children any time the nobleman who took the revolutionary step of being an artist yet who insisted on using the false title of raja and the idealistic entrepreneur who bankrupted himself running a printing press yet whose dream of bringing art to the masses became a reality Blending fact with imagination writing with wit and lyricism Deepanjana Pal takes you into the life of an extraordinary man and brings him vividly alive *The Statesman's Year-Book* Mortimer Epstein,2016-12-27 The classic reference work that provides annually updated information on the countries of the world 'The Mortal God' Milinda Banerjee,2018-04-19 This work explores how colonial India imagined human and divine figures to battle the nature and locus of sovereignty **Indigenising and Decolonising Social Work Education** Bishnu Mohan Dash and Mithilesh Kumar,2023-01-01 The book has made a modest attempt in highlighting various issues and perspectives towards Indigenizing

and Decolonizing social work education from India and South African countries It has tried to rejuvenate the Indic wisdom in the field of social work welfare and human emancipation It has tried to develop a discourse towards the importance major religions in the social work education and practice Besides that it has explored the Indigenous models and techniques of social case work and group work practice in Indian context The book will definitely be interesting reading for the social work academicians researchers practitioners and students *The Japan Daily Mail* ,1916 Embodied Dependencies and Freedoms Julia A.B. Hegewald,2023-03-20 Have you ever thought about dependencies in Asian art and architecture Most people would probably assume that the arts are free and that creativity and ingenuity function outside of such reliances However the 13 chapters provided by specialists in the fields of Asian art and architecture in this volume show that those active in the visual arts and the built environment operate in an area of strict relations of often extreme dependences Material artefacts and edifices are dependent on the climate in which they have been created on the availability of resources for their production on social and religious traditions which may be oral or written down and on donors patrons and the art market Furthermore gender and labour dependencies play a role in the creation of the arts as well Despite these strong and in most instances asymmetrical dependencies artists have at all times found freedoms in expressing their own imagination vision and originality This shows that dependencies and freedoms are not necessarily strictly separated binary opposites but that at least in the area of the history of art and architecture in Asia the two are interconnected in what are often complex and multifaceted layers **Orientalism Transposed** Julie F. Codell,Dianne Sacko Macleod,2018-12-20 First published in 1998 this volume reflects that ever since the publication of Edward Said s Orientalism twenty years ago scholars have tested his thesis against the wider application of his terms to cultural practices and the rhetoric of power The cultural impact of the British on their colonies has been extensively investigated but only recently have scholars begun to ask in what ways British culture was transformed by its contact with the colonies The essays in this volume demonstrate how influential the Empire was on British culture from the late eighteenth to early twentieth centuries They show how from cross cultural cross dressing to Buddhism British artists and writers appropriated unfamiliar and challenging aspects of the culture of the Empire for their own purposes An examination is also made of the extent to which colonized people engaged in the orientalisng discourse amending and subverting it even re applying its stereotypes to the British themselves Finally two essays explore instances of the exchange of ideas between colonies Several of the essays are based on papers given at the 1996 Conference of the College Arts Association **History of Modern India** Mr. Rohit Manglik,2024-03-22 EduGorilla Publication is a trusted name in the education sector committed to empowering learners with high quality study materials and resources Specializing in competitive exams and academic support EduGorilla provides comprehensive and well structured content tailored to meet the needs of students across various streams and levels **Gandhinagar** Ravi Kalia,2004 The culmination of Ravi Kalia s trilogy on the formation of capital cities in postcolonial India Gandhinagar joins the historian s other two volumes on

Chandigarh and Bhubaneswar in tracing India's efforts to establish its twentieth century architectural identity. In following the development of these cities Kalia recounts India's progression through precolonial, British, modern and postmodern theory and practice, particularly the architectural ideology propagated by Western architects Le Corbusier and Louis Kahn. Kalia explains that Gandhinagar, the capital of Gujarat in western India, became a battleground for the competing ideals that had surfaced during the building of Chandigarh and Bhubaneswar. The mill owners of the neighboring city of Ahmedabad, backed by Indian architect and planner Balkrishna Doshi, wanted the American Louis Kahn to build Gandhinagar as a worthy rival to Le Corbusier's Chandigarh. There was, however, tremendous political pressure to make Gandhinagar a purely Indian enterprise, partly because the state of Gujarat was the birthplace of Mahatma Gandhi. Doshi, and then by American-trained H. K. Mewada, who had apprenticed with Le Corbusier in Chandigarh, Kalia shows that, unlike the other two cities, Gandhinagar would become emblematic of Gandhian ideals of swadeshi (indigenous goods) and swaraj (self-rule). Exploring the impact of modernist architecture on India as a whole, Kalia suggests that the style gained acceptance because its parsimonious designs and unadorned spaces never represented a threat to a religiously pluralist country anxious to create a secular identity. He explains how two competing versions of Indian history and ideology—Gandhi's and Jawaharlal Nehru's—employed modernism's ideals for their own separate ends. Serving two masters, as Kalia illustrates, created constrictions and tensions evident in the building of Gandhinagar and in the careers of many Indian architects, including Doshi, Charles Correa, and Achyut Kanvinde.
