Values and Principles in European Union Foreign Policy Sonia Lucarelli, Ian Manners, 2006-08-21 This book presents a fresh examination of the values and principles that inform EU foreign policy exploring the implications of these values and principles on the construction of European Union identity today The authors show how current debates on European Union foreign policy and on European identity tend to be kept separated as if the process of identity formation had only an internal dimension or it was not related to the external behaviour of an international actor Conceiving EU foreign policy in its broadest context as a set of political actions that are regarded by external actors as EU actions the book focuses on both Pillar I and Pillar II policies involving EU and member state actions and material political actions and less material ones such as speech acts Adopting a multidisciplinary perspective and drawing on political science political economy sociology environmental science and women's studies this book will be of great interest to students and scholars of European studies and politics

The Connected Home: The Future of Domestic Life Richard Harper, 2012-01-11 The title of this new book The Connected Home reflects the move away from the idea that smart homes would alter the lives of those living in them by providing technologies to take over tasks that were previously the responsibility of the householder such as managing entertainment education and even eating Up until around 10 years ago this view was commonplace but time has shown that the technologies to support a smart home have not developed in such a way as to support this premise Instead what people do in their homes has moved the

concept of a smart home into that of the connected home The rise of on line games technologies video connections via Skype social networking internet browsing etc are now an integral part of the home environment and have had a significant effect on the home The contributors to this exciting new book consider and discuss the effects and ramifications of the connected home from a variety of viewpoints an examination of the take up of personal computers and the Internet in domestic situations an analysis of the changing intersection of technology and human habits in the connected home the impact of gaming texting e book readers tablets and other devices and their effect on the social conditions of a household the relationship between digital messaging applications and real geography and an overview of how sensing technologies for the smart home might evolve lightweight medical technologies for example The book culminates by addressing unfinished ambitions from the smart home agenda the factors that have prevented their realisation and addresses the need for extending research into the area

Understanding Counterplay in Video Games Alan F. Meades, 2015-06-05 This book offers insight into one of the most problematic and universal issues within multiplayer videogames antisocial and oppositional play forms such as cheating player harassment the use of exploits illicit game modifications and system hacking known collectively as counterplay Using ethnographic research Alan Meades not only gives voice to counterplayers but reframes counterplay as a complex practice with contradictory motivations that is anything but reducible to simply being hostile to play players or commercial videogames The book offers a grounded and pragmatic exploration of counterplay framing it as an unavoidable by product of interaction of mass audiences with compelling and culturally important texts
