Justice and International Law in Meiji Japan Giorgio Fabio Colombo, 2023-02-10 This book carries out a comprehensive analysis of the Mar a Luz incident a truly significant episode in Japanese and world history from a legal perspective In July 1872 the Mar a Luz a barque flying the Peruvian flag carried Chinese indentured servants from Macau to Peru After the ship stopped for repairs in Kanagawa Bay a number of legal issues arose that were destined to change the perception and use of the law in Japan forever The case had a tremendous impact on the collective imagination both Japanese and international it is one of the first occurrences in which an Asian country decided to resist the pressure of a Western nation and responded using the most refined tools of domestic and international law Moreover the final outcome of the case arbitration in front of the Czar of Russia marks the debut of Japan on the stage of international arbitration While historians have written widely on the subject the legal importance of this event has been relatively neglected This book uses the case to explore the technical legal issues Japan was facing in its transition from pre modernity to modernity These include unequal treaties extraterritoriality clauses the need to establish an updated judicial system and a delicate balance between asserting sovereignty and resorting to diplomacy in solving disputes involving foreigners Based on original documents this book is an invaluable resource for researchers and academics in the fields of legal history dispute resolution international law Japanese history and Asian studies

Japan and International Law, Past, Present and Future Nisuke Ando, 2023-12-11. This book is a record of the international symposium held at the Kyoto International Conference Hall to mark the centennial of the Japanese Association of International Law. The purpose of the symposium was to reflect on past Japanese practice to analyze current problems affecting Japan and to seek to clarify the future role of Japan in the global community in terms of international law.

After joining the international community in the middle of the nineteenth century, Japan adopted a policy of wealth creation and armament in order to maintain its independence against the expanding Western States. At the same time, on the domestic scene, Japan vigorously promoted the modernization and Westernization of its political, economic, and social institutions. Japan emerged as one of the victorious Principal Allied and Associated Powers in World War I and started asserting its place in the international order. However, in the aftermath of the Great Depression, Japan failed to reach agreement with the international community, eventually left the League of Nations, invaded the Asian continent, and met with complete military defeat in World War II. In the subsequent years, Japan toiled to rebuild its economy and to rejoin the world community, but despite its miraculous economic recovery and expansion, Japan remains ambivalent in its policy of contributing to the maintenance of international peace and security.

During these one and a half centuries, the Japanese practice of international law has covered a wide range of fields. From these various fields, the symposium took up three specific topics: War and Peace, Economy and Human Rights, because of their relevance to past Japanese practice and because future Japanese practice in these areas would be bound to affect international law in the coming century. In addition, the symposium discussed Japanese transactions in general with international law. The period covered by the symposium has witnessed many drastic changes in the world and international law, which used to be applied almost exclusively to relations among the Western States, has now come to be applied universally. The Association wished to emphasize that an analysis of Japanese practice should be of significance for anyone interested in promoting and consolidating the rule of law in the world community at large.

Japanese Maritime Security and Law of the Sea Yurika Ishii, 2021-12-20. Japanese Maritime Security and the Law of the Sea is the first title to provide a comprehensive and detailed analysis on these themes in English, examines Japan's domestic laws and its approach to international law. The topics covered include Japan's claim over its maritime entitlement policies on the use of force at sea and the mandates of the Self Defense Force and the Japan Coast Guard to use coercive measures in maritime zones and airspace both in peacetime and in times of emergency.
