Run John Run:

Run, John, Run Kevin Joslin, 2011-10-13 Do you like shopping John does When Janet and John go to the big department store Janet says I m going to have a look around the kitchen department I ll see you back here in half an hour Janet has bought some new kitchen scissors Janet says Have you been a good boy Yes says John I saw Mrs Llewellyn She was complaining that her husband wasn t very well served in the trouser department and said that I looked like a man who knew how to treat a lady properly After that I saw Mrs Steward She said she was always on the lookout for a partner with good ballroom and asked if I d like to come to her special club and learn how to Mazurka Do you know how to get scissors out of plastic packaging in under a second Janet does See Janet chase John Run John run During its transmission 8 million listeners to BBC Radio 2 s Wake Up To Wogan were beguiled and bewitched by the naughty but nice adventures of John and his wife Janet As a favourite segment the stories moved with Terry Wogan to his Sunday morning show Weekend Wogan In the style of children s stories of yesteryear John gets up to all sorts Then he tells Janet all about his day by which time every perfectly innocent big end back passage and stiff one acquires a whole new meaning This second instalment promises even more devilish double entendres with over seventy new stories to tickle your funny bones **See John Run** Kevin

Joslin, 2010-01-07 Eight million listeners to BBC Radio 2 s Wake Up To Wogan were beguiled and bewitched by the naughty but nice adventures of John and his wife Janet In the style of children s stories of yesteryear John gets up to all sorts Then he tells Janet all about his day by which time every perfectly innocent big end back passage and stiff one acquires a whole new meaning After selling over a quarter of a million recordings of their adventures they re now available in hard covers for the first time **Specification and Utilization of a Transformational Grammar** Thomas J. Center, 1966 **Artie Azzetti & Me** Paul Berge, 2009-11-10 Rejection Slip Theater r produced a string of radio drama literary marvels but none more popular than Paul Berge s Artie Azzetti stories about kids growing up in New Jersey during the Vietnam War era 1959 1975 Based on Berge s weekly monologues as host of the radio series Rejection Slip Theater which aired 1993 2003 **Parts of a Whole** Lucas Champollion, 2017-03-09 This book uses mathematical models of language to explain why there are certain gaps in language things that we might expect to be able to say but can t For instance why can we say I ran for five minutes but not I ran all the way to the store for five minutes Why is five pounds of books acceptable but five pounds of book not acceptable What prevents us from saying sixty degrees of water to express the temperature of the water in a swimming pool when sixty inches of water can express its depth And why can we not say all the ants in my kitchen are numerous The constraints on these constructions involve concepts that are generally studied separately aspect plural and mass reference measurement and distributivity In this book Lucas Champollion provides a unified perspective on these domains connects them formally within the framework of algebraic semantics and mereology and uses this connection to transfer insights across unrelated bodies of literature and formulate a single constraint that explains each of the judgments

Concepts, Methods, and Aims Cedric Boeckx,2006-08-24 This is a self contained introduction to the Minimalist Program for linguistic theory the boldest and most radical version of Noam Chomsky s naturalistic approach to language Cedric Boeckx examines its foundations explains its underlying philosophy exemplifies its methods and considers the significance of its empirical results He explores the roots and antecedents of the Program and shows how its methodologies parallel those of sciences such as physics and biology He disentangles and clarifies current debates and issues around the nature of minimalist research in linguistics and shows how the aims and ambitions of the Minimalist Program lie at the centre of the enterprise to understand how the human language faculty operates in the mind and is manifested in the world s languages The book contains a glossary of key concepts each one illustrated with relevant examples drawn from a variety of languages

The Syntax of Tuki Edmond Biloa,2013-06-15 This monograph conducts a syntactic study of Tuki a Bantu language spoken in Cameroon from a cartographic perspective The following domains are meticulously explored The Complementizer Domain the Inflectional Domain and the Verbal Domain This study reveals that there is a relative phrase RelP located between ForceP and FocP Moreover a detailed analysis of an articulated IP provides the order of clausal functional heads that manifest aspectual morphology which is theoretically closely related to issues in adverbial syntax Additionally the language under study unveils a very rich structural make up of DP and the surface word orders attested in this phrase can be accounted for in terms of snowballing movement operations along the lines previously sketched in the format of the Split DP Hypothesis Overall this cartographic analysis is bound to enrich our morphosyntactic knowledge of UG clausal architecture by demonstrating that its rich underlying structural skeleton is correlated by a wealthy surface structural and functional map Edmond Biloa is professor of Linguistics and Chair of the Department of African Languages and Linguistics at the University of Yaounde I in Cameroon Africa *"The" Works* Edward Bulwer Lytton Lytton,1838 **The Works of Edward Lytton**

Language Philippe Blache,Henning Christiansen,Verónica Dahl,2014-10-16 The concept of constraint is widely used in linguistics computer science and psychology However its implementation varies widely depending on the research domain namely language description knowledge representation cognitive modelling and problem solving These various uses of constraints offer complementary views on intelligent mechanisms For example in depth descriptions implementing

constraints are used in linguistics to filter out syntactic or discursive structures by means of dedicated description languages and constraint ranking In computer science the constraint programming paradigm views constraints as a whole which can be used for example to build specific structures Finally in psycholinguistics experiments are carried out to investigate the role of constraints within cognitive processes both in comprehension and production with various applications such as dialog modelling for people with disabilities In this context Constraints and Language builds an extended overview of the use of constraints to model and process language This book will be useful for researchers willing to get a grip on the various uses of constraints in natural language processing and also as a class book for academic staff who want to set up advanced courses around the concept of constraint based natural language processing
