Winter,2012-03-07 The buyers find us Establish their bona fides Then and only then we run Burdon Lane is a businessman living out the American Dream in a shiny suburb of Washington D C His business card lists him as Executive VP of UniArms Inc a legitimate arms dealer that s a front for a gunrunning empire His girlfriend thinks he s a salesman His best friend thinks he s a role model His boss thinks he s a good soldier This weekend s run should be business as usual guns for money money for guns moving the product north on the Iron Highway from Dirty City to Manhattan But this weekend is going to teach Burdon something he doesn t yet know about who he is and isn t When the meet in Manhattan turns into a five alarm fire and an all out war on the tenth floor of a New York hotel there is only one way out an uneasy alliance with a hard case named Jinx and the street gang known as the U Street Crew And once the heat is on with a cadre of killers and every police officer and Federal agent on the eastern seaboard on their tail Burdon gets the chilling sensation that one way or another this so called milk run may be his last This is the story of the last run the run where no one criminal cop or civilian is who or what they seem Douglas E Winter s debut novel blasts into the dark heart of America s culture of guns and violence with breathtaking velocity Run is a streamlined tour de force of full throttle action and high tech weaponry a brilliantly controlled ride through America s most brutal terrain with a surprising moral message fantastically harrowing relentlessly cinematic impossible to look away from      The artillerist's manual, and compendium of infantry exercise Frederick Augustus Griffiths,1859      Naval AntiAircraft Guns and Gunnery Norman Friedman,2014-02-15 This book does for naval anti aircraft defense what Friedman s Naval Firepower did for surface gunnery it makes a highly complex but historically crucial subject accessible to the layman It traces the growing aerial threat from its inception in WWI and the response of each of the major navies down to the end of WWII highlighting in particular the underestimated danger from dive bombing The work considers what effective AA fire control required and how well each navy s systems actually worked analyzing the weapons how they were placed on ships and how this reflected the tactical concepts of naval AA defense All important guns directors and electronics are represented in close up photos and drawings and lengthy appendices detail their technical data It is simply another superb contribution to naval technical history by its leading exponent      **Handbook for the 9-inch rifle muzzle-loading gun** War office,1876      **Artillery** E. **The Darkest Shade of Honor** Robert N. Macomber,2012-03-19 Commander Peter Wake of the U S Navy s Office of Naval Intelligence is in New York City in 1886 where he meets two intense young men who will dramatically influence his life Theodore Roosevelt and Jos Mart Presented with a secret coded message he deciphers it for Roosevelt and soon wishes he hadn t Returning to Washington he is assigned to follow up on the secret message and uncover the extent of Cuban revolutionary activities between Florida and Cuba along with investigating rumors of Spanish government agents operating in Key West The investigation takes Wake to places he thought he knew so well Havana Key West Tampa and the islands of Florida s southwest coast But the further he delves the more he realizes how much he doesn t know and is drawn inexorably into the center of the most catastrophic event in Key West history when over half the city was destroyed And at the end Peter Wake makes a decision that may well shock his readers one involving the very darkest shade of honor Civil Affairs Handbook: Taiwan (Formosa), Taichu Province United States. Naval Operations Office (Navy Department),1955 *The Bulletin of the Airplane Engineering Department, U.S.A.* United States. Bureau of Aircraft Production. Airplane Engineering Department,1918 *Aeronautics* ,1911 British Naval Gun Mountings Ian Buxton,2025-01-16 Heavy gun mountings dominated the design of larger warships on account of their size weight protection and cost In the 1890s British gun mountings developed rapidly with new gun technologies wire winding cordite and the rise of the two major ordnance companies Armstrongs and Vickers producing large numbers of weapons for the Royal Navy and for worldwide export But by 1960 aircraft and guided missiles had made the big gun redundant so the period from 1890s to 1950s covering the two world wars is the most historically significant The focus of this book is on the larger mountings and those fitted in the larger ships the massively engineered non transferable mountings whose complexities and associated magazines took up a huge volume of the ship unlike the smaller calibre transferable mountings mostly bolted to the deck Such mountings could weigh over 1000 tons take two years to build and make up a quarter of the cost of a battleship Although they existed in many variants there were only about forty basic mountings from 4.5in to 18in calibre fitted to the majority of the RN s larger ships so these take up the bulk of the book For each well illustrated handbooks with colored plates were produced but are largely inaccessible to the public so about 50 of these highly detailed drawings are reproduced at large scale The smaller mountings and the guns themselves each have a separate chapter Although the impact of the book is largely visual there is an expert account of the design construction and installation of such mountings and their manufacturers supported by a range of internal and close up photographs The reference value of the work is enhanced by a comprehensive table of mountings and their characteristics plus a list of all the mountings made by Vickers of Barrow between 1900 and 1950 Providing easy access to so much rarely seen material this handsome volume will appeal to modelmakers ship enthusiasts and technical historians
