Victorian Literature and the Victorian Visual Imagination Carol T. Christ,John O. Jordan,2024-03-29 Nineteenth century British culture frequently represented the eye as the preeminent organ of truth These essays explore the relationship between the verbal and the visual in the Victorian imagination They range broadly over topics that include the relationship of optical devices to the visual imagination the role of photography in changing the conception of evidence and truth the changing partnership between illustrator and novelist and the ways in which literary texts represent the visual Together they begin to construct a history of seeing in the Victorian period This title is part of UC Press s Voices Revived program which commemorates University of California Press s mission to seek out and cultivate the brightest minds and give them voice reach and impact Drawing on a backlist dating to 1893 Voices Revived makes high quality peer reviewed scholarship accessible once again using print on demand technology This title was originally published in 1995 **Monthly Catalogue, United States Public Documents** ,1983 **A Thousand Blunders** Frank Leonard,2011-11-01 During the first two decades of this century the Grand Trunk Pacific Railway played an important part in the development of the north central corridor of British Columbia The GTP which ran from Winnipeg via the Yellowhead Pass and Edmonton to Prince Rupert on the northwest coast was built to supplant the Canadian Pacific line to Vancouver The B C line was the most expensive and least remunerative of its sections and contributed ultimately to the company s collapse in 1919 In *A Thousand Blunders* Frank Leonard looks at why the Road of a Thousand Wonders failed to live up to the expectations forecast by company president Charles M Hays and other senior managers Not only was the railway built through a sparsely settled region which generated little immediate traffic but its economic difficulties were also compounded by the numerous mistakes made by managers at all levels for example their failure to respond adequately to labour shortages caused serious delays and prevented the company from proving Prince Rupert as an effective alternative harbour before World War I broke out For this book Frank Leonard had access to a wealth of original documents among them the GTP legal department files providing him with insights into the decisions that formed the basis for policies in townsites and on Indian reserves *A Thousand Blunders* is a provocative account of one of the greatest failures in Canadian entrepreneurial history Richly detailed and thoroughly documented it makes an important contribution to the fields of railway and business history as well as to the study of the history of northern British Columbia **New Publications of the U.S. Geological Survey** ,1986 **Boundaries of**
