Sustainable Intensification to Advance Food Security and Enhance Climate

Resilience in Africa Rattan Lal, Bal Ram Singh, Dismas L. Mwaseba, David Kraybill, David O. Hansen, Lars Olav Eik, 2014-10-10 This 32 chapter volume represents the core of several oral and poster presentations made at the conference. In addition to Introduction and Conclusion sections the book is thematically divided into 7 sections namely 1 Land Use and Farming Systems 2 Effects of Climate Change on Crop Yield 3 Soil Nutrient and Water Management for Carbon Sequestration 4 Rehabilitation of Degraded Lands through Forestry and Agroforestry 5 Management of Animal Production for Greenhouse Gas Emissions 6 Smallholder Adaptation to Climate Change and 7 Economic Social and Policy Issues. It addresses these themes in the context of sustainable intensification (SI). It implies increasing agronomic production from the existing land while improving and restoring its quality and decreasing the carbon or environmental footprint. Youth Programs as Builders of Social Capital Matthew Calvert, Mary Emery, Sharon Kinsey, 2013-08-07 This volume builds understanding of practices in youth and community development that create or build social capital assets at the individual, group and community levels. The authors explore whether programs contribute to the development of social capital at the individual and community scales thereby fostering and enhancing positive youth development as well as community development. It includes articles on defining and measuring social capital through instruments designed to document impact and also to engage program participants. The authors then discuss program practices that build social capital in a wide range of youth development settings from community based service learning to 4-H community clubs. Finally they focus on building social capital in particular contexts including work in rural communities with the most vulnerable youth. The volume is designed to help practitioners refine their dual focus on youth and community development. Clarify constructs that help translate the public value of positive youth development to community stakeholders. Provide examples of practices that link youth and youth programs more intentionally to the social relationships that knit communities together. This is the 138th volume of New Directions for Youth Development, the Jossey-Bass quarterly report series dedicated to bringing together everyone concerned with helping young people including scholars, practitioners and people from different disciplines and professions.

Green,Gary Goreham,2023-07-31 As the concept of community resilience moves from the margins of practice and theoretical research to more mainstream scholarship critical issues of conceptualization and use emerge This is particularly true at the intersection of community development practice and community resilience theory This book teases out limitations with current conceptualizations of community resilience offers enhanced and alternative conceptualizations and presents compelling case studies of new

conceptualizations in action This book is a starting place for scholarly conversations about the role of community resilience in community development practice The frameworks presented here will continue to gain more support in academic and non academic arenas as resilience rhetoric increases in popularity However it is crucial for community practitioners to use these frameworks to actively cultivate resilience in their communities by building adaptive capacity in systematic ways To move the field of community resilience forward it is critical to understand the nuances of context and conditions in communities and how broader conceptualizations of resilience account for and utilize context to build adaptive capacity This book was originally published as a special issue in the journal *Community Development* *Turning the Tide on Poverty* Lionel J. Beaulieu,Alice Diebel,2019-04-15 This book highlights the experiences of 14 high poverty communities in the rural South that accepted the invitation to be part of the Turning the Tide on Poverty Tide initiative While history would suggest that impoverished places have limited capacity to make good things happen Tide demonstrated otherwise This volume is a testament to the positive work that can be realized when people from all walks of life are accorded the opportunity to discuss deliberate and act on strategies designed to improve the lives of rural people and places in the South The message is clear when local residents are provided a safe space to weigh in on local issues and asked to give respectful consideration to the views of others in their community they create pathways for spurring positive changes Simply put civic engagement propels people to do more for their community and instils in them a sense of hope for what can be accomplished when local people work together This book was originally published as a special issue of the journal *Community Development* *Tourism and Hospitality in Conflict-Ridden Destinations* Rami K. Isaac,Erdoğan Çakmak,Richard Butler,2019-04-12 *Tourism and Hospitality in Conflict-Ridden Destinations* provides insight into the various types of current and post conflict destinations worldwide and the steps that might be taken to transform them into future tourist destinations Through both a conceptual and demonstrative approach this book examines the steps destination management organizations as well as destination marketers need to take in order to improve their image in the eye of potential tourists It also questions the extent to which tourism can alter the image of a destination and the possible destination marketing strategies that can be undertaken Analysis of a wide selection of international case studies in countries ranging from Palestine to Myanmar to Northern Ireland provides a thorough and far reaching academic study Written by an international and multidisciplinary team of leading academics this book will be of great interest to students researchers and academics in the tourism as well as development studies disciplines **The Americas and Oceania: Assessing Sustainability** Ray C.
