

The background of the cover is a landscape painting. It depicts a wide, winding river or stream that flows from the upper right towards the lower left. The water is a deep, dark blue, reflecting the colors of the sky. The banks are covered in dense, dark green foliage, possibly trees and bushes. In the upper portion of the image, a vibrant green aurora borealis (Northern Lights) is visible, with bright, vertical streaks of light against a dark, starry sky. The overall mood is serene and majestic.

Shapiro, 2014-03-30 Appalachia on Our Mind is not a history of Appalachia It is rather a history of the American idea of Appalachia The author argues that the emergence of this idea has little to do with the realities of mountain life but was the result of a need to reconcile the otherness of Appalachia as described by local color writers tourists and home missionaries with assumptions about the nature of America and American civilization Between 1870 and 1900 it became clear that the existence of the strange land and peculiar people of the southern mountains challenged dominant notions about the basic homogeneity of the American people and the progress of the United States toward achieving a uniform national civilization Some people attempted to explain Appalachian otherness as normal and natural no exception to the rule of progress Others attempted the practical integration of Appalachia into America through philanthropic work In the twentieth century however still other people began questioning their assumptions about the characteristics of American civilization itself ultimately defining Appalachia as a region in a nation of regions and the mountaineers as a people in a nation of peoples In his skillful examination of the invention of the idea of Appalachia and its impact on American thought and action during the early twentieth century Mr Shapiro analyzes the following the discovery of Appalachia as a field for fiction by the local color writers and as a field for benevolent work by the home missionaries of the northern Protestant churches the emergence of the problem of Appalachia and attempts to solve it through explanation and social action the articulation of a regionalist definition of Appalachia and the establishment of institutions that reinforced that definition the impact of that regionalistic definition of Appalachia on the conduct of systematic benevolence especially in the context of the debate over child labor restriction and the transformation of philanthropy into community work and the attempt to discover the bases for an indigenous mountain culture in handicrafts folksong and folkdance **Final Report**, 1924 Rural Manhood Henry Israel, 1912 **Big Jobs for Little Churches** John Franklin Cowan, 1917
