Rural Development In China A World Bank Research Publication:

The World Bank Research Program 2004 World Bank,2005 The World Bank s research is intended to address critical issues and problems facing member governments in developing and transition economies How can the governments of the poorest countries generate enough revenue to provide the education and health services essential to reducing poverty and promoting growth and development How can poor countries attract investors to build the infrastructure their economies need How can they develop systems to bring clean water to the 2 billion people without it today How can they train teachers and bring to class the 115 million children who have not yet received any education And how can rich countries be persuaded to lower market barriers helping to reverse the decline in export prices for poor countries that has left them earning less from trade today than in the 1970s These are the types of questions that are addressed in this edition of The World Bank Research Program Abstracts from Current Studies This volume reports on research projects initiated under way or completed from July 2003 through June 2004 It covers 151 research projects on several broad development related issues including agriculture health education environment infrastructure investment climate and more The abstract for each project describes the questions addressed the analytic methods used the findings to date and policy implications The World Bank Research Program, 2005-2007 ,2008 This pocket sized reference on key environmental data for over 200 countries includes key indicators on agriculture forestry biodiversity energy emission and pollution and water and sanitation The volume helps establish a sound base of information to help set priorities and measure progress toward environmental sustainability goals

China Green Development Index Report 2012 Xiaoxi Li,Jiancheng Pan,2014-05-21 The report was launched during China s Twelfth Five year Period 2011 2015 After revising the measurement system of the Green Development Index 2011 the report measures the green development level of 30 provinces municipalities and autonomous regions as well as 38 large and medium sized cities in China A Public Satisfaction Survey of the Urban Residents is first introduced into the report Both the province and the city Green Development Index systems consist of three parts the green degree of economic growth the carrying potential of natural resources and environment and the support degree of government policies The three parts reflect the production and resource usage efficiency the situation of environment and resources protection and pollutants emission and government s related investment and management respectively The China Green Development Index Report 2012 has the comprehensive evaluation of the green economy development in China and its importance to China s rational development and switch in economic development model China's Economy Into the New Century John Wong,Ding Lu,2002 In the last two decades of the 20th century China stood out as the world s star performer in economic growth thanks to the market oriented reform that started in 1978 At the turn of the century the Chinese economy faces a series of challenges to sustain its growth and stability The two decade long rapid growth has effectively strengthened China s economic power and raised its people s standard of living It has also transformed China from a centrally planned command

economy into a socialist market economy which operates increasingly in line with capitalist norms Major structural problems however remain and are growing acute Weakness in the fiscal system breeds rent seeking at the local level and causes tension in the state budget The flawed financial institutions and the biased ownership structure continue to distort resource allocation and cause huge efficiency losses Inter provincial and inter regional disparity is reaching a level that threatens national unity and social stability As China joins the World Trade Organization and becomes more integrated into the world economy it urgently needs to improve the domestic business environment and to beef up indigenous industries for foreign competition This volume is a collection of papers written by scholars at the East Asian Institute to address those problems during the period 1999 2001 The authors with their knowledge and experience in China studies provide in depth observations and professional analyses of some of the most important issues for the Chinese economy at the turn of the century Some of the observations and analyses lead to enlightening policy recommendations The solid scholarship combined with the policy orientation of these papers will appeal greatly to researchers in academia governments and other institutions The policy oriented and fact based analyses will also be of interest to practitioners in business including business consultants

Pro-poor Development Policies Hal Hill, Majah-Leah V Ravago, James A. Roumasset, 2022-10-03 This collection of essays provides a wealth of information and analysis about the Philippine economy and the role of agriculture and economic policy in it The Philippine experience has been quite different from the highly successful Asian economies with a long period of low growth until the turn of the century and only then greater success The authors cover not only the Philippine experience but also place it in its Asian context and that of developing countries more generally They report on the lessons learned both positive and negative from the various economic policies that have been adopted with regard to both agriculture and to economic inequality Those interested in Philippine economic development and Asian development more broadly will find this an important reference work Anne O Krueger Senior Research Professor Johns Hopkins School of Advanced International Studies 1st Deputy Managing Director IMF 2001 6 Vice President of Economics and Research World Bank 1982 86 *The World Bank Research Program 2001* World Bank, World Bank Staff, 2001-01-01 This publication is a compilation of reports on research projects initiated under way or completed in fiscal year 2001 July 1 2000 through June 30 2001 The abstracts cover 150 research projects from the World Bank and grouped under 11 major headings including poverty and social development health and population education labor and employment environment infrastructure and urban development and agriculture and rural development The abstracts detail the questions addressed the analytical methods used the findings to date and their policy implications Each abstract identifies the expected completion date of each project the research team and reports or publications produced **Road Development, Economic Growth, and Poverty**

Reduction in China Shenggen Fan, Connie Chan-Kang, 2005-01-01 Since 1985 the Chinese government has given high priority to building roads particularly high quality roads that connect industrial centers This report evaluates the contribution

roads have made to poverty reduction and economic growth in China over the last two decades It disaggregates road infrastructure into different classes to account for differences in their quality and then estimates the impact of road investments on overall economic growth agricultural growth urban growth urban poverty reduction and rural poverty reduction The report makes the case for a greater focus on low quality and rural roads in future infrastructure investment strategies in China It does so by showing how investing in low quality and rural roads will generate larger marginal returns raise more people out of poverty per yuan invested and reduce regional development disparity more sharply than investing in high quality roads The study's findings will have considerable implications for China's infrastructure policy

China's Logic: The Balance Development Lixing Zou, 2017-10-10 The law of balance is not just a motivating power but also serves the purpose of development How did human society develop in a balanced manner in history How is China's Modernization impacted by the law of equilibrium How does the law of balance affect China's economic and trade relations with other countries This book attempts to answer these questions and more It applies the balance law methodology to systematically analyze major factors influencing the sustainable development of the Chinese economy and society and to discuss the balanced way of thinking market credit innovation energy and international collaboration that boost sustainable development While the theoretical system of socialism with Chinese characteristics needs a balanced development perspective solving the problem of imbalance requires a balanced approach as well as a balanced interaction between man nature and society which is the key factor for economic development in the 21st century

Governing Rapid Growth in China Ravi Kanbur, Xiaobo Zhang, 2009-04-15 This volume brings together a collection of the best available analyses of China's problems in governing rapid growth focusing on equity and institutions from well respected Chinese and non Chinese scholars

At the Frontlines of Development Indermit S. Gill, Todd Pugatch, 2005-04-01 In *At the Frontlines of Development* former World Bank country directors recount their experiences both as managers of the World Bank's programs in global economic hotspots of the 1990s as well as throughout their careers in development economics These essays detail among many stories of development in the 1990s how China and India lifted hundreds of millions out of poverty while Russia collapsed how Bosnia and Herzegovina and Mozambique remade their war ravaged economies and how Thailand Turkey and Argentina fell into financial crisis These remarkable stories told in first person by the country directors who were there to witness them provide candid assessments of development in the 1990s what succeeded what failed and what lessons emerged This book is part of a larger effort undertaken by the World Bank to understand the development experience of the 1990s an extraordinary eventful decade Each of the project's three volumes serves a different purpose Economic Growth in the 1990s provides comprehensive analysis of the decade's development experience while Development Challenges in the 1990s offers insights on the practical concerns faced by policymakers

Contemporary China's Land Use Policy Long Cheng, 2020-09-24 This book discusses contemporary China's land use policy the Link Policy which calls for land consolidation and rural resettlement to achieve the

goal of preserving farmland while also providing more space for urban development Given the limited analyses and commentaries on the Link Policy in the literature particularly in English language articles the book systematically presents and analyzes China's land use policy by assessing the impacts of the Link Policy on rural life and how effective the Link Policy is in achieving its objectives It also examines how satisfied farmers are with the policy and what the contributing factors are Drawing on a critical review of the literature field observations and interviews with resettled farmers the book offers insights into China's land use policy and compares it with similar policy instruments in other countries Presenting research findings that help readers gain a holistic understanding of the Link Policy in China and its implications the book is a valuable resource for professionals in other developing countries that are facing similar challenges in terms of balancing urban development and farmland conservation
