Rural Education In Urbanized Nations:

Rural Education In Urbanized Nations Jonathan P Sher,2019-06-26 A reversal in rural to urban migration patterns is creating increasing interest in the quality of education in rural areas and in techniques for meeting educational needs in sparsely populated regions Wholesale urbanization of rural schools generally is rejected as a potential solution it is logically inefficient centralization and standardization are met with growing resistance and conventional solutions to educational problems produce uneven results when applied to rural areas This book addresses the broad spectrum of rural education issues within OECD member countries The authors identify innovative programs policies and strategies and point toward the more promising paths for rural school improvement They also issue warnings about some of the blind alleys and dead ends that can be encountered The major topics covered include delivery systems in school innovations support mechanisms and community school linkages RURAL EDUCATION IN URBANIZED NATIONS JONATHAN P.
