Black police officer Samuel Meffire grew up as a Black German in East Germany and against all odds became East Germany's first Black police officer. In the nineties, marked by upheaval and unrest, he was the face of an anti-racism campaign, received invitations to politicians' receptions, talk shows, and numerous media appearances. But as Europe changed, he slipped from being a model policeman into crime himself, eking out his days as a hunted criminal and prisoner. After seven years in prison, Meffire fought his way back to life and once again went to the front lines of social upheaval, but this time not as a police officer but as a social worker for young people with a serious history of violence and as a successful indie author of dystopian crime novels. In his memoir, Samuel Meffire gives an intimate insight into his emotional world. In the background and with an almost brutal frankness, he grippingly recounts his life across several continents, and looking back gives us a fascinating insight into an overlooked period of history.

Shot on Location R. Barton Palmer, 2016-02-18 In the early days of filmmaking, before many of Hollywood's elaborate sets and soundstages had been built, it was common for movies to be shot on location. Decades later, Hollywood filmmakers rediscovered the practice of using real locations and documentary footage in their narrative features. Why did this happen? What caused this sudden change? Renowned film scholar R. Barton Palmer answers this question in *Shot on Location* by exploring the historical, ideological, economic, and technological developments that led Hollywood to head back outside in order to capture footage of real places. His groundbreaking research reveals that wartime newsreels had a massive influence on postwar Hollywood film, although there are key distinctions to be made between these movies and their closest contemporaries, Italian neorealist films. Considering how these practices were used in everything from war movies like *Twelve O'Clock High* to westerns like *The Searchers*, Palmer explores how the blurring of the formal boundaries between cinematic journalism and fiction lent a reality effect to otherwise implausible stories. *Shot on Location* describes how the period's greatest directors, from Alfred Hitchcock to Billy Wilder, increasingly moved beyond the confines of the studio. At the same time, the book acknowledges the collaborative nature of moviemaking, identifying key roles that screenwriters, art designers, location scouts, and editors played in incorporating actual geographical locales and social milieus within a fictional framework. Palmer thus offers a fascinating behind-the-scenes look at how Hollywood transformed the way we view real spaces.

Alive in the Merciful Country A.L. Kennedy, 2025-01-09 From a Costa Book of the Year winner, Booker nominee, and double Granta selected Best Young British novelist comes a searing portrayal of the gradual uncovering of one woman's past psychological wounds, set in motion by the arrival of an unexpected letter. In the 1980s, Anna McCormick was an anti-nuclear peace activist. She was used to taking on those abusing their political power, but when she was targeted by abuse herself, it left a wound so deep it would still be reverberating through her life decades later. In 2020, Anna is teaching nine-year-olds on Zoom, navigating a relationship interrupted by enforced distance and coping with a teenaged son who cannot leave the house. When an unstamped envelope arrives overnight, the traumatic past she had tried to bury begins to cast its own long shadow on the present. This is a twisty heart-racing page-turner and an incisive look at the

personal impact of the violence of the state the police and the villains much closer to home
