*Writing History in the Soviet Union* Arup Banerji, 2017-08-18 The history of the Soviet Union has been charted in several studies over the decades These depictions while combining accuracy elegance readability and imaginativeness have failed to draw attention to the political and academic environment within which these histories were composed *Writing History in the Soviet Union Making the Past Work* is aimed at understanding this environment The book seeks to identify the significant hallmarks of the production of Soviet history by Soviet as well as Western historians It traces how the Russian Revolution of 1917 triggered a shift in official policy towards historians and the publication of history textbooks for schools In 1985 the Soviet past was again summoned for polemical revision as part and parcel of an attitude of openness glasnost and in this literary figures joined their energies to those of historians The Communist regime sought to equate the history of the country with that of the Communist Party itself in 1938 and 1962 and this imposed a blanket of conformity on history writing in the Soviet Union The book also surveys the rich abundance of writing the Russian Revolution generated as well as the divergent approaches to the history of the period The conditions for research in Soviet archives are described as an aspect of official monitoring of history writing Another instance of this is the manner by which history textbooks have through the years been withdrawn from schools and others officially nursed into circulation This intervention occasioned in the present circumstance by statements by President Putin himself in the manner in which history is taught in Russian schools continues to this day In other words over the years the regime has always worked to make the past work Please note Taylor Francis does not sell or distribute the Hardback in

 Together with a new political social and cultural order the Bolshevik Revolution also brought about a spatial revolution  
 Changed patterns motivations and impacts of migration collided with new cultural forms and aesthetic mandates *Red Migrations* highlights the various multidirectional and multilateral transnational movements of leftist thinkers artists and writers The book draws on avant garde poets such as David Burliuk Marxist theoreticians such as J nos M cza and fellow travellers such as Langston Hughes revealing how leftists of all stripes were inspired and at times impelled by the Soviet Revolution to cross borders It explores how the resulting circulation of ideas aesthetic forms and individuals not only contributed enormously to the ferment of creative activity in the early Soviet years but also deeply informed international leftist aesthetics and political practice throughout the twentieth century The robust and diverse transnational networks created by these circulations are at the centre of this volume With original archival research and insightful analyses *Red Migrations* sheds light on the ideals aspirations and disappointments of leftist transnationalism from the 1920s through the 1960s and the aesthetic forms they engendered      *Cold War Exiles and the CIA* Benjamin Tromly, 2019-09-19 At the height of the Cold War in the 1950s the United States government unleashed covert operations intended to weaken the Soviet Union As part of these efforts the CIA committed to supporting Russian exiles populations uprooted either during World War Two or by the Russian Revolution decades before No one seemed better prepared to fight in the American secret war against communism than the uprooted Russians whom the CIA directed to carry out propaganda espionage and subversion operations from their home base in West Germany Yet the American engagement of Russian exiles had unpredictable outcomes Drawing on recently declassified and previously untapped sources *Cold War Exiles and the CIA* examines how the CIA s Russian operations became entangled with the internal struggles of Russia abroad and also the espionage wars of the superpowers in divided Germany What resulted was a transnational political sphere involving different groups of Russian exiles American and German anti communists and spies operating on both sides of the Iron Curtain Inadvertently CIA s patronage of Russian exiles forged a complex sub front in the wider Cold War demonstrating the ways in which the hostilities of the Cold War played out in ancillary conflicts involving proxies and non state actors      *Humanities* ,2000      **A History of Russian Literary Theory and Criticism** Evgeny Dobrenko, Galin Tihanov, 2011-11-27 This edited volume assembles the work of leading international scholars in a comprehensive history of Russian literary theory and criticism from 1917 to the post Soviet age By examining the dynamics of literary criticism and theory in three arenas political intellectual and institutional the authors capture the progression and structure of Russian literary criticism and its changing function and discourse The chapters follow early movements such as formalism the Bakhtin Circle Proletklut futurism the fellow travelers and the Russian Association of Proletarian Writers By the cultural revolution of 1928 literary criticism became a mechanism of Soviet policies synchronous with official ideology The chapters follow theory and criticism into the 1930s with

examinations of the Union of Soviet Writers semantic paleontology and socialist realism under Stalin A more humanized literary criticism appeared during the ravaging years of World War II only to be supplanted by a return to the party line Soviet heroism and anti-Semitism in the late Stalinist period During Khrushchev's Thaw there was a remarkable rise in liberal literature and criticism that was later refuted in the nationalist movement of the long 1970s The same decade saw on the other hand the rise to prominence of semiotics and structuralism Postmodernism and a strong revival of academic literary studies have shared the stage since the start of the post Soviet era For the first time anywhere this collection analyzes all of the important theorists and major critical movements during a tumultuous ideological period in Russian history including developments in emigre literary theory and criticism

**Russian Diaspora** Ludmila Isurin, 2011-03-29 This book offers an interdisciplinary perspective on one of the largest immigrant groups in the West Most of the extant books on the subject of Russian immigration are written from a sociological or socio-linguistic perspective They are focused on strictly Jewish immigration or cast the immigrant community as Russian ignoring the reality of two distinct ethnic groups In addition none of the extant literature or books is based on an empirical controlled study of a numerically large group of immigrants Finally few if any published monographs make use of qualitative as well as quantitative methods of analysis or the same theoretical framework to explore changes in culture identity and language The proposed book has several features distinguishing it from the currently available scholarship Russian Diaspora examines two distinct ethnic groups relies on empirical data based on sizable groups in three countries and looks into three elements of acculturation culture identity and language Of the 214 people who participated in the present study 174 are Russian immigrants who had resided in the United States Germany and Israel between ten and thirty years In addition to offering a combination of quantitative and qualitative analyses the book adopts sociological socio-linguistic and psycho

linguistic methods of analysis P      Tracking a Diaspora Anatol Shmelev, 2012-11-12 Discover collections unused by other scholars Russian immigrants are one of the least studied of all the Slavic peoples because of meager collections development Tracking a Diaspora migr s from Russia and Eastern Europe in the Repositories offers librarians and archivists an abundance of fresh information describing previously unrealized and little used archival collections on Russian migr s Some of these resources have been only recently acquired or opened to the public providing rich new avenues of research for scholars and historians This unique source provides access to greater breadth and depth of knowledge of Russian and Eastern European immigrants their backgrounds and their experiences coming to the United States Tracking a Diaspora is not only a helpful new resource to specialists but also serves as an introduction to archival research for amateur genealogists and scholars Chapters comprehensively describe a single repository thorough descriptions of a single collection or offer thematic overviews such as the theme of German emigration from Russia The text includes detailed notes references figures and tables and photographs Tracking a Diaspora describes largely unknown collections including a major group of archival collections that reveals more on these immigrants and their assimilation problems the holdings of the museum libraries and archives of Holy Trinity Orthodox Seminary in upstate New York the archives of the Synod of the Russian Orthodox Church Outside Russia the archives and Lembich library at The Tolstoy Foundation Inc New York the Archives of the Orthodox Church in America the manuscript collections at the Historical Society of Pennsylvania HSP materials on the immigrants who settled in the Midwest six archival collections acquired by the State Archive of the Russian Federation the Andr Savine collection at the University of North Carolina Chapel Hill North Carolina and more Tracking a Diaspora is of great interest to librarians archivists specialists in Russian history and specialists in ethnic and immigration history      Straddling Borders Elaine Rusinko, 2003-01-01 The Subcarpathian Rusyns are an east Slavic people who live along the southern slopes of the Carpathian mountains where the borders of Ukraine Slovakia and Poland meet Through centuries of oppression under the Austro Hungarian and Soviet empires they have struggled to preserve their culture and identity Rusyn literature reflecting various national influences and written in several linguistic variants has historically been a response to social conditions an affirmation of identity and a strategy to ensure national survival In this first English language study of Rusyn literature Elaine Rusinko looks at the literary history of Subcarpathia from the perspective of cultural studies and postcolonial theory presenting Rusyn literature as a process of continual negotiation among states religions and languages resulting in a characteristic hybridity that has made it difficult to classify Rusyn literature in traditional literary scholarship Rusinko traces Rusyn literature from its emergence in the sixteenth century through the national awakening of the mid nineteenth century and its struggle for survival under Hungarian oppression to its renaissance in inter war Czechoslovakia She argues that Rusyn literature provides an acute illustration of the constructedness of national identity and has prefigured international postmodern culture with its emphasis on border crossings intersecting influences and liminal spaces With extracts from

Rusyn texts never before available in English Rusinko's study creates an entirely new perspective on Rusyn literature that rescues it from the clichés of Soviet dominated critical theory and makes an important contribution to Slavic studies in particular and post colonial critical studies in general

**Russian Émigré Culture** Christoph Flamm, Henry Keazor, Roland Marti, 2014-07-08 A quarter of a century ago glasnost opened the door for a new look at Russian migr culture unimpeded by the sterile concepts of Cold War cultural politics Easier access to archives and a comprehensive approach to culture as a multi faceted phenomenon not restricted to single phenomena or individuals have since contributed to a better understanding of the processes within the migr community of its links with the lost home country and of the interaction with the cultural life of the countries of adoption This volume offers a collection of critical articles that resulted from the international interdisciplinary symposium which was held at Saarland University in November 2011 as part of a one week festival Russian Music in Exile Scholars from around the world contributed essays reflecting current perspectives on Russian migr culture shedding new light on cultural diplomacy literature art and music and covering essentially the whole 20th century from pre revolutionary movements to the present The interdisciplinary approach of the volume shows that migr networks were not confined to a particular segment of culture but united composers artists critics and even diplomats On the whole the contributions to this volume document the fascinating diversity the internal contradictions as well as the impact that the largest and most durable migr movement of the 20th century had on European cultural life
