## **Russia And Europe The Emerging Security Agenda:**

**Russia and Europe** Vladimir Georgievich Baranovskii, Stockholm International Peace Research Institute, 1997 Covering the historical background domestic developments the role of military factors and Russia's immediate security environment Russia and Europe provides a comprehensive analysis of the increasingly important security relationship between Russia and Europe Particular attention is paid to Russia's relations with its Slavic neighbours the Baltic and Nordic countries and the Caucasus It concludes with an examination of Russia's present and potential relations with all the existing European security structures

**Civil-Military Relations in Russia and Eastern Europe** David Betz, 2004-07-31 This book examines how civil military relations have been transformed in Russia Poland Hungary and Ukraine since the collapse of the Soviet Union and the Warsaw Pact in 1991 It shows how these countries have worked to reform their obsolete armed forces and bring them into line with the new economic and strategic realities of the post Cold War world with new bureaucratic structures in which civilians play the key policy making roles and with strengthened democratic political institutions which have the right to oversee the armed forces

**Russia after the Cold War** Mike Bowker, 2014-06-17 In Russia after the Cold War the editors provide an accessible and comprehensive survey of the state of Russia at the end of the twentieth century as it seeks to come to terms with its new status in the world community the pressures and tensions arising from economic and social change and with the problems of ensuring a democratic future Written by a specially commissioned team of internationally respected experts on contemporary Russia Russia after the Cold War is ideally suited as a main text for introductory courses on modern Russia within a politics Area Studies or combined social science degree Contributors Alexei Avtonomov Edwin Bacon John Berryman Christoph Bluth Michael Cox Nadia Davidova Mark Galeotti James Hughes Roger E Kanet Julie A Lund Nick Manning Andrew Patmore Anthony Phillips Richard Sakwa Peter Shearman Mark Webber Stephen Webber Stephen White Matthew Wyman

**Security Dynamics in the Former Soviet Bloc** Graeme P. Herd, Jennifer D.P. Moroney, 2013-06-17 Security Dynamics in the Former Soviet Bloc focuses on four former Soviet sub regions the Baltic Sea region the Slavic republics the Black Sea region and Central Asia to explore the degree to which democratic security which includes de politicisation of and civilian oversight of the military resolution of conflicts by international cooperation and involvement in international organisations It examines how far states in these regions have developed cooperative foreign and security policies towards their immediate neighbours and key Western states and organisations explores the interplay between internal and external aspects of democratic security building and uses case study examples to show how inter state bi lateral and multi lateral relations are developing

**The Russian Armed Forces at the Dawn of the Millennium**, 2000 This anthology is an outgrowth of a conference titled The Russian Armed Forces at the Dawn of the Millennium held at the Collins Center of the Army War College's Center for Strategic Leadership from 7 through 9 February 2000 The genesis for the conference was the realization by several members of the staff of the Collins Center and Army War College faculty that

the U S led NATO operation in Kosovo resulted in a significant shift of Russian views on the United States and NATO The conference also complemented our general objective of examining the changing environment in which the United States including its armed forces finds itself The conference brought together over 50 individuals from academia and the policy and intelligence communities to examine the current state of the Russian military Focusing primarily on the socio political dimension of the military but not ignoring the military technical dimension the presentations delivered during the conference looked at Russia s domestic environment the state of the military perceived threats and Russia s capacity to generate responses to those threats DTIC web site

**Post Communist States in the World Community** William E. Ferry, Roger E. Kanet, 2016-01-09 Post Communist States in the World Community provides a selection of papers on various aspects of the foreign and security policies of the post communist states of Europe presented originally at the Fifth World Congress of Central and East European Studies in Warsaw The articles cover Russian foreign and security policy Russian policy in Europe the foreign policies of the countries of East Central Europe and Russian policy in East Asia Russian-European Relations in the Balkans and Black Sea Region Vsevolod Samokhvalov, 2017-06-19 This book provides a detailed analysis of Russia s great power identity and the role of Europe in forming this identity Great power identity implies an expansionist foreign policy and yet this does not explain all the complexities of the Russian state For instance it cannot explain why Russia decided to take over Crimea but provided only limited support to break away regions in Eastern Ukraine Moreover if Russia is in geo economic competition with Europe why has no serious conflict erupted between Moscow and other post Soviet states which developed closer ties with the EU Finally why does Putin maintain relationships with the European countries that imposed tough economic sanctions on Russia Vsevolod Samokhvalov provides a more nuanced understanding of Russia s great power identity by drawing on his experience in regional diplomacy and research and applying a constructivist methodology The book will appeal to students and scholars of international relations in particular Russian European relations Russian foreign policy and Russian studies NATO-Russia Relations in the Twenty-First Century Aurel Braun, 2008-03-26 This book examines the current state of relations between NATO and Russia discussing a number of key areas including the impact of NATO s eastward expansion the NATO Russia Council and Russia s reassertion of itself in its near abroad and assesses the prospects for future development

**Europe's New Defense Ambitions** Peter Van Ham, 2001-04 At the EU s Helsinki summit in 1999 European leaders took a decisive step toward the development of a new Common European Security and Defense Policy ESDP aimed at giving the EU a stronger role in international affairs backed by a credible military force This report analyzes the processes leading to the ESDP by examining why and how this new European consensus came about It touches upon the controversies and challenges that still lie ahead What are the national interests and driving forces behind it and what steps need to be taken to realize Europe s ambitions to achieve a workable European crisis mgmt capability Ukraine-Crimea-Russia Taras Kuzio, 2007-03-13 The Crimea was the only region of Ukraine in the 1990s where

separatism arose and inter ethnic conflict potentially could have taken place between the Ukrainian central government ethnic Russians in the Crimea and Crimean Tatars Such a conflict would have inevitably drawn in Russia and Turkey Russia had large numbers of troops in the Crimea within the former Soviet Black Sea Fleet Ukraine also was a nuclear military power until 1996 This book analyses two inter related issues Firstly it answers the question why Ukraine Crimea Russia traditionally have been a triangle of conflict over a region that Ukraine Tatars and Russia have historically claimed Secondly it explains why inter ethnic violence was averted in Ukraine despite Crimea possessing many of the ingredients that existed for Ukraine to follow in the footsteps of inter ethnic strife in its former Soviet neighbourhood in Moldova Trans Dniestr Azerbaijan Nagorno Karabakh Georgia Abkhazia South Ossetia and Russia Chechnya *International Security Issues in a Global Age* Clive Jones, Caroline Kennedy-Pipe, 2020-07-24 This volume examines the new the changing and the enduring features of international security in the post Cold War era In so doing it examines the extent to which present state structures and institutions have been able to adapt and accommodate themselves to the diversity of security threats EU and NATO Relations with Russia Glenn Diesen, 2016-03-09 Do the EU and NATO threaten Russian security The book explores the rise of these exclusive inter democratic security institutions after the collapse of the Soviet Union and the ensuing effects on relations with Russia Two competing theories are tested to explore whether these institutions aggravate or mitigate the security dilemma with Russia These institutions can be theorised to promote security as a positive sum game through European integration and democracy promotion or pursue collective hegemony with ideologically uncompromising bloc politics Glenn Diesen argues that a European security architecture that demotes the largest state on the continent to an object of security inevitably results in European integration becoming a zero sum geopolitical project that has set the West on a collision course with Russia **Russia and the West** Karl Kaiser, Robert Legvold, 1999 This comprehensive exploration of the new international environment examines not only traditional political military concerns but also economic ethnic and other factors in the security environment of Russia and its neighbors to the west Vol 1 south Vol 2 and east Vol 3 This dynamic approach takes account of both internal and external aspects of security problems and their interplay International authors participate in considering each problem from all relevant points of view **The European Union Handbook** Jackie Gower, 2013-10-31 The new edition of this praised resource features 29 essays grouped under six main headings History and Context Politics Economics Law and Society International Relations and the Future Each essay is written by a specialist contributor who has also provided a further reading list with annotations Useful supporting material in the form of charts maps tables and relevant texts completes each chapter *SIPRI Yearbook 2007* Stockholm International Peace Research Institute, 2007 The 38th edition of the SIPRI Yearbook analyses developments in 2006 in Security and conflicts Military spending and armaments Non proliferation arms control and disarmament The SIPRI Yearbook contains extensive annexes on the implementation of arms control and disarmament agreements and a chronology of events during the year in the area

of security and arms control The annual accounts and analyses are extensively footnoted providing a comprehensive bibliography in each subject area     The Social Construction of Russia's Resurgence Anne L. Clunan,2009-06 A concluding chapter discusses the policy implications of aspirational constructivism for Russia and other nations and a methodological appendix lays out a framework for testing the theory     **European Security** Bjørn Møller,2016-04-22 Europe has undergone quite profound changes since the end of the Cold War Having been a highly militarised conflict ridden and war ridden region the core of Europe today constitutes a security community where armed conflicts among the constituent states has become inconceivable This comprehensive book offers a theoretically founded and thoroughly documented analysis of European security with a special emphasis on the role played by the United Nations and the various regional and sub regional organisations especially the North Atlantic Treaty Organisation the Organisation for Security and Cooperation in Europe the Council of Europe and the European Union When it comes to explaining peace in Europe opinions differ widely Some argue that it was only because the West refused to give in to Soviet threats that the latter eventually gave up or that the long peace in Europe was due to the combination of a bipolar alliance structure pitting the North Atlantic Treaty Organisation NATO against the Warsaw Pact with the presence of nuclear weapons on both sides Others point instead to the extraordinarily dense network of international institutions and organisations in Europe offering a wide panoply of fora in which to handle disputes peacefully or to the web of interdependence in economic and other affairs tying together all states in Europe in relations which militate strongly against war Still others believe that the external peace between the states in Europe is simply a reflection of a convergence of cultures democracies with marked economies that are open towards the world market These questions are the focal point of this book which concentrates on security albeit not in the sense of being a treatise on military matters but security obtainable by much more indirect and non military means It will be required reading for all students and scholars of European security and the organisations which underpin it     Rethinking Security in Post-Cold-War Europe William Park,G.Wyn Rees,2014-06-11 Provides a survey of the principal items on the agenda following the end of the Cold War focusing upon the institutions and regions where the reconsideration of security issues has been particularly profound The book is organised into three main sections the first examines the changed roles of the main security institutions which have survived the Cold War NATO the European Union Western European Union and the Organisation for Security and Cooperation in Europe The second analyses the Central European countries Russia and States of the former Soviet Union in terms of their ideologies political structures and relationships of the Cold War period Lastly the text examines the northern and southern regions of Europe where quite different perspectives and agendas are concerned     European Security in the Twenty-First Century Adrian Hyde-Price,2007-02-12 Combining a sophisticated theoretical analysis with detailed empirical case studies this book provides an original view of the challenges and threats to a stable peace order in Europe The end of Cold War bipolarity has transformed Europe Using structural realist theory Adrian Hyde

Price analyzes the new security agenda confronting Europe in the twenty first century Europe he argues is not primed for peace as mainstream thinking suggests rather it faces new security threats and the challenge of multipolarity This critical and original volume looks at European security after the Iraq War the failure of the EU constitution and the change of government in Germany Reflecting on the inherently competitive and tragic nature of international politics it concludes that realism provides the only firm foundations for an ethical foreign and security policy European Security in the Twenty First Century will appeal to students and scholars of international relations European politics and security studies

**European Security in a Global Context** Thierry Tardy, 2010-06-09 This new edited volume examines contemporary European security from three different standpoints It explores security dynamics first within Europe second the interaction patterns between Europe and other parts of the world the United States Africa the Middle East China and India and finally the external perceptions of European security The first part of the book analyses the European security landscape The roles of EU NATO and the OSCE are given particular attention as is the impact of their evolution or enlargement on the European security architecture and European security dynamics In this context Russia s repositioning as a major power appears as a shaping factor of contemporary European geopolitics The second part presents European security from an external perspective and considers interactions between Europe and other states or regions Security trends and actors in Europe are examined from an American Chinese and Indian perspective while Europe Africa and Europe Middle East relations are also addressed This book will be of great interest to students of European Security European politics and IR in general
